

A "More Milk" Feed

COWS cannot give a good flow of milk if fed only young corn or poor grass. They need a sustaining ration first. Then they will produce more milk.

There is no better basic ration than Schumacher Feed. It is made of milled products of Corn, Barley, Wheat, Oats and Linseed Meal, evenly ground. It is the most economical ration, because it produces more milk at less cost.

Schumacher Feed fed regularly brings your hogs to market at the earliest age. It develops good sound flesh.

SCHUMACHER FEED

Write us regarding your hog and dairy problems. Our Live Stock Service Department can help you. Its advice is free.

The Quicker, Better Method of Stable Cleaning

With one of my Toronto Litter Carriers, one man can clean your stable as fast as three in the old way. Do it, too, without the unpleasantness and muss of the wheelbarrow method. Dump the manure into a pile

where you want it or direct into the manure-spreader when desired. The Toronto Litter Carrier has several special features I know will appeal to you. Let me explain the advantages of its chain pull, why it turns on the smallest radius, its unbreakable bucket and others. I have other Toronto Stable Equipment which will make for cleaner and healthier cattle, bigger profits. Ask me about it as well. I have some interesting literature free for the asking.
