How long is that unsightly pile of earth going to lie in front of the Carnegie Library? It would be nice to have the grounds graded up this fall, if the finances of the Library Board can stand it.

"Two years ago Monday" says the Aurora Banner, "this section was visited by a very heavy snow storm. Considerable damage was done to the orchards and shade trees being broken by the weight of snow on the trees."

The first motor to be operated by hydro power in Stouffville was turned on in the Tribune office on Monday afternoon, and thus this issue of the paper is the first to be turned out under electric energy in the history of the town. These are epoch making days.

Since it became a certainty that Stouffville was to have hydro lighting, no less than seven houses have been wired for the new lighting which heretofore were illuminated by oil lamps. Many other citizens are considering the same step, so that a substantial increase in the sale of power is already assured.

Our townsman, J. J. Rae, who by the way is the daddy of the business men of the town, for he was conducting business here before many of us saw the light of day, will, on October 15th have been in the same stand for 49 years. Mr. Rae first commenced business in the building where Mr. Archie Leaney now lives, but shortly after he located in the brick store where he has carried on ever since. His business associates and friends in general will wish for him many more years of activity in the business life of the town.

The late potato crop is said to be particularly good this year in this section.

A number from this locality took in the Ford demonstration on the farm of Fred Bailey at Uxbridge on Tuesday.

A good deal of sickness of not so serious a nature is reported in this locality just now, but it is keeping the local medical men busy. One physician reports seven cases of typhoid fever.

Don't miss the meeting in Ratcliff's Hall on Monday evening, Oct. 15th at 8 o'clock. Mrs. Becker of Toronto will deliver an address on the brutality of the Turk. No collection, no admission. Come and hear this interesting speaker.

Mr. Orlen Mott, one of our aged citizens is a firm believer in working his garden for two crops per season after his experience of the past summer. On a piece of ground from which he harvested a nice lot of garden peas, he replanted on August 9th potatoes, and Mr. Mott is now gathering a good crop of well developed Early Eurekales, a sample of which was left at the Tribune office last week.

U. F. W. O.—The regular meeting of the U.F.W.O. will meet at the home of Mrs. J. P. Foot, Bethesda, on Tuesday, Oct. 18th at 2.30. The roll will be answered by suggestions for labor saving. There will be a paper on Making Poultry Pay and a Button Hole contest. There will also be the nomination of officers for the coming year. Members are especially requested to be present. Everybody welcome.

One of our citizens overheard a good joke coming out from Toronto the other day. Just ahead of him in the railway coach sat a man from Uxbridge. The conductor was taking up the tickets. When the man from the neighboring town handed up his cardboard this is the conversation as near as we could get it:  
 Conductor—We don't stop there, sir.  
 Passenger—Stop where!  
 Conductor—At the pawnbroker's.

Turnips, as was anticipated, dropped in price this week to 12c. per bushel. Last week's quotation was 14c. Carloads are being shipped almost daily from the local station. Cabbage too, are going out in big quantities, the price paid here being around \$25 per ton. Brillinger Bros. and Joan Lewis are the main shippers, although Ross Brown has purchased several carloads of turnips.

On Sunday of last week Mr. Martin Tait, butcher, Stouffville, was in Queensville, attending the funeral of his step-mother, Mrs. James Tait of that place. The remains were taken to Zephyr for burial. The large number of people who attended the funeral was ample testimony of the high esteem in which Mrs. Tait was held in her neighborhood. Mrs. Tait is also survived by her husband and another son, William Tait, butcher of Newmarket.

The Chester Salvation Army band visited Stouffville last Sunday afternoon, and rendered a sacred concert in the park. In addition to this Ensign Jones spoke for a brief time. She is an experienced speaker and was listened to with rapt attention. The collection taken up amounted to \$45 as against \$100 last year. It may be explained, however, that a year ago the annual visit of a Toronto band was made much earlier in the summer when an open air service was more acceptable. Nevertheless, Lieut. McIlhenny wishes to heartily thank the people of Stouffville through this medium for their generosity and assistance in entertaining at their homes the members of the organization. In the evening the band conducted a service at Markham when the collection amounted to \$48.

The Board of Health is issuing a warning in this issue to boil the water. As we understand it, this does not mean that our drinking supply is really in a serious condition. The test made by the Provincial Department of Health shows the water from taps to be just a fraction below standard, and therefore it becomes the duty of the local authorities to warn the public even of the slightest disarrangement. It is not anticipated that any serious developments will arise out of the present situation, as a close watch is being kept on the source of supply. Conditions at the reservoir are excellent, the amount of water is satisfactory and the condition of the reservoirs is generally good. Stouffville's water system is one of the finest in the province, and it is also regarded by experts to be one of the safest.

The new swings at Dr. Freil's are so popular that they were worked night and day by the children and the iron supports at the top were completely in two. New ones are being made and will be placed ready for Saturday. The Doctor is also having a seat erected for the kiddies so that it will not be necessary to race over the well kept lawn in front of the residence. A tip to the children is sufficient.
