## THE TRIBUNE

is published  
THURSDAY AFTERNOON  
TERMS—2.00 a year in advance  
A. V. Nolan, publisher  
STOUFFVILLE ONT.

## EDITORIAL COMMENT

Church Union. This subject has never been discussed in these columns and there is no inclination to commence. The subject is becoming a very lively one and lately it has been necessary to empty The Tribune waste basket twice a week instead of once, so numerous have been the letters to the editor on some phase of the church union controversy. The greatest offender is a writer in Montreal who signs himself E. Scott and invariably tries such flattery as "Most of your readers will not see it in any other paper."

The tone of these letters is not what one would expect from people who are supposed to be exemplifying the declaration: "Blessed are the peacemakers, for they shall be called the children of God."

Our future is being heavily mortgaged in this province to meet the needs of the fanatical legislators who enact the school laws. Under present conditions municipalities are being forced by the Department of Education to build new schools at an alarming pace. In South Ontario alone last year \$475,000 has been spent in one year for new schools and additions to old ones. What is true of this small area is equally true in most other ridings in the province. H. A. Hutchison, I.P.S., for South Ontario in his report to the County Council at Whitchurch stated that now there were three continuation schools and three High schools in South Ontario, and there was a High school or Continuation school within driving distance of every student in the inspectorate. A new school section had been formed east and west of the town of Oshawa. New schools have been built at Claremont, \$40,000, 5 rooms, public and continuation; Brooklin, \$40,000, 6 rooms, public and continuation; Pickering, \$25,000 (remodelled), S. S. 7 Pickering, 2 rooms, \$15,000. Oshawa, two 3 roomed schools and one 16 room, \$150,000. \$475,000 has been spent on school buildings in South Ontario this year, although the area of the inspectorate is small.

### LEMONVILLE

George McKuen has engaged Sam Raynor for the coming year.

We are glad to report that Mrs. J. Brown is recovering from her recent illness.

The Mennonite prayer meeting held at Mr. Ramer's on Wednesday evening last was well attended.

The cold snap of last week was but a reminder that Jack Frost may play havoc yet though many were predicting a mild winter.

The missionary program in the Sunday School last Sabbath under the splendid leadership of Miss Courtice, and was greatly appreciated by all.

### GORMLEY

Miss Ella Hoover spent Sunday with her parents at home.

We are pleased to see Mrs. S. N. Doner is feeling some better.

Miss Lydia Sider has returned from attending the Bible Conference.

Owing to the recent snow storm no mail was delivered on Saturday.

Things are looking up in Gormley two bakers, get your order in early for cookies.

Mr. Fry's sale date is set for Saturday, Feb. 23rd. He was in Stouffville on Tuesday arranging for sale bills.

### COUNTY COUNCIL

The Reeve of Whitchurch Township has been added to the special committee on reforestation, for the County of York; Mr. Baker therefore replaces Mr. Crawford who was on the committee last year. Reeve G. W. Gohn of Markham Township and P.W. Pearson, Reeve of Newmarket were also added to the committee.

Although County Council sat all last week very little actual legislation was enacted. It is likely the sitting will again be sprung into three weeks, but there are many who contend that all the work could be done in ten days. The warden is largely responsible for the despatch with which business is transacted and the warden who will put the proper speed into county council business should be awarded a medal for bravery. He would bring down certain condemnation from some members, but at the same time he would save the County of York many hundreds of dollars. York County is not alone in this grievance, for we know of other counties where the chief occupation of the county council on many days, is to put in time. It drags so heavily that the card table and checker board are brought in.

In York County the council is getting so large and unwieldy that when the letter heads for the year are printed with all the members' names on, they take up so much room that there is scarcely any space left to write the letter on.

## A Statement in Detail as to HOW THE MILK IS BOTTLED

The Process of Washing and Sterilizing the Bottles. The bottles are put into a tank of hot water, heated by steam, free from any odor such as coal oil or any other fuel which may be used for heating the water. A quantity of special soda is added to the water, and after the bottles are thoroughly washed, every bottle is then turned over on a steam nozzle. The live steam is then turned on into each bottle, and no germ of any kind is left. After cooling the bottles, they are then ready to be filled.

The Bottling of the Milk. On the delivery of the milk samples are drawn from every can, and tested as to the butter fat it contains and the taste. If same is satisfactory, the milk is strained through a double cloth into the bottle filler, the cases of empty bottles are placed under the valves of the filler, and filled without human hands touching same. All this is done in a bright and airy room of the Creamery building, which is not attached to other buildings or stables. The milk is delivered immediately after filling.

By using this milk your conscience can rest that you are doing your duty to yourself and your family, because you are getting the safest milk available. The health of growing children is not to be trifled with. If you are not using our milk yet, call us up and we will be pleased to have our driver call at your place as well.

STOUFFVILLE CREAMERY CO.

### GOODWOOD

Special Correspondent

Isaac Foskett in Toronto Saturday last on business.

Frank Middleton visited friends in Toronto last week.

Miss Helen Robinson in Toronto for a few days this week.

Mrs. Alph. McDonald is improving and expects to soon be out of bed.

Mrs. Lewis is in Toronto this week visiting her daughter Mrs. Brown.

Geo. Todd is paying \$1.05 per bag for potatoes, 20c. per bushel for turnips.

Mrs. J. Reid in Lindsay last week visiting her mother and daughter Marion.

Professor Campbell of McMaster University preached in the Baptist church last Sunday.

Miss Jessie Harper in Toronto over the week end visiting her mother Miss Myrtle and Millie Watson.

Robert Taylor has not been so well the last few days and all the family were there to see him Sunday.

Fred Middleton was under the weather a few days last week but we are glad to notice he is able to be out again.

Wedding bells are ringing closer and louder around here and we expect two or three of these events in the near future.

Frank Fields of Hamilton visiting his parents here who have been ill for the past couple of weeks, but we are glad to say are improving.

Chas. Harper was in Toronto last week to see his wife who is ill in the hospital and reports her conditions fair but still unable to undergo the operation.

Miss Florence Smalley has left the store here, no doubt to prepare for something better and Miss Bessie Murison of Stouffville has taken her place in the store.

Everybody seemed pleased about the mild winter we were having not very cold or stormy, but now the tune has changed and the general remark is "some winter".

Epsworth League at the Methodist church is expected to be good, the president promising a treat for those who come, but didn't mention what it is. It maybe a hot supper of pepper and mustard.

Now is the time to get after the draining of our village, so when all the red tape has been gone through it will be about time for the water to be here and the man with authority can size up the situation and have something done which will be beneficial to all.

Arthur Pearson of Saskatchewan is visiting his relatives here. It is 25 years since Mr. Pearson left here and this is his first return, and of course is quite a stranger to all, but when he makes himself known to some of the old residents they remember him, and we are glad to see him.

H. O. Klinck, Mutual Life Insurance Agent, Stouffville, visited our village last week endeavoring to put some of our thoughtful husbands on the right track of protection for their wives and families should something unforeseen and unexpected happen them. Anyone interested should communicate with D. McDonald or F. A. Forsyth.

Some of our young boys of the village have been bothering our merchants and have to be told to leave the premises which some did but four others waited and were driven away with the horse whip which aroused the parents of the children who came at the merchants for so doing, but we believe if the boys act right the merchants will act right with them. These boys should have had another whipping when they got home. There is nothing worse than disobedient children so boys behave and there will be no trouble.

Hess' Stock Tonic Samples now on hand for distribution. Bring in your coupons
