# Always Standard

STRAIGHT grain feeds vary in weight to the bushel. The lighter the grains, the more hulls and less protein. The protein content is important if your herd is to produce milk to capacity.

Schumacher Feed is scientifically prepared from milled products of Corn, Oats, Barley and Wheat, with Linseed Meal. It is perfectly balanced, and its quality never varies. The Government guaranteed analysis appears on each sack.

Schumacher Feed costs less than straight grain feeds because results are better. Cattle digest every bit of it. There is no waste. It will increase your milk profits—fatten your hogs quicker, and is good for your horses too. Start feeding Schumacher today.

Brad Paisley is at present working with the C.N.R. trackmen and Thos. Hayes is employed with the bridge construction gang.  
We are now favored with a very early train to Toronto, but 5.30 in the morning, we think, will be a little too early for our citizens.  
Mr. and Mrs. Burroughs of Bridgeport, Conn., and Mrs. Soden of Stouffville visited with their brother, Harry Spang last Wednesday.  
George N. Burnham is at present engaged building a new residence for himself at Unionville, and expects to move there in a couple of months.  
The anniversary services of the Presbyterian church was held on Sunday afternoon and evening, and Rev. Dr. McMullen of Toronto, preached at both services. He is an able and effective speaker.

Our ever progressive public school has made another important addition to their equipment, that will be of value to the coming manhood which passes through this school of knowledge. A set of swings, traps and rings have been installed so that the boys and girls too, may have their physical development along with the mental.  
We have quite a number of chicken fanciers in this section. Why not get together and form a poultry association to be known as the Ringwood Poultry Association. It would be a simple matter to find a place for a poultry show, and the whole thing would prove most interesting, as well as profitable for our progressive village.  
The U.F.W.O. met at the home of Miss Lilla Mitchell on Tuesday, May 20th. In addition to the regular program a debate took place, resolved, "That the single woman has a better time than a married woman." ## The Mutual Life and Citizens Assurance Company, Limited (OF AUSTRALIA)

Head Office Montreal Assets over \$80,000,000.00  
LOWEST NET COST INSURANCE IN THE WORLD

The premium charged by life insurance companies vary; so also do their bonuses. Of paramount concern to those about to insure their lives, is the net cost of such insurance. In the case of a whole life policy issued from the Ordinary Branch of the Mutual Life and Citizens Assurance Company, Limited, the cost works thus:

AMOUNT \$5,000.00 life policy, 20 years in force, issued at age 29

ANNUAL PREMIUM	\$116.50
REVERSIONARY BONUS FOR ONE YEAR	175.00
CASH VALUE OF YEAR'S BONUS	85.75
NET COST FOR ONE YEAR	20.25

The Company gives a guarantee on all its Ordinary Branch policies that the expenses charged to the policyholders in any year shall not exceed 15 per cent. of the Ordinary Branch income for that year. For the year 1922, the expense rate was 8.9 per cent. of the income. The saving through economical management accrues in great part to the benefit of the policyholders.
