EDITORIAL COMMENT

Church Union was given a very decided victory, with the result of the vote at the Presbyterian General Assembly at Owen Sound last week. The figures show that the Unionists polled 82.8 per cent of the total vote of 536 this year or 444 for and 92 against.

One of the resolutions which was carried by the Toronto Methodist Conference last Saturday, commended W. E. Nickle's efforts to enforce the O.T.A. and urged the Ferguson government not to submit the province to the expense and turmoil of a plebiscite on that measure.

Moving to disband the entire County Police Force, a resolution requesting the resignation of the six constables, all that remain of the York County Police Force, will be submitted at the summer session of the York County Council, which commenced last Monday in the County buildings, Adelaide street east, Toronto.

Delegates and visitors from Rotary Clubs assembled from every section of the civilized world to the number of nearly ten thousand, are meeting this week in convention in Toronto. "Rotary" is the philosophy of every day living and a Rotary convention is a great study group, comparing notes and discussing experiences as to the best way to put this philosophy into practice day by day. "Service above self" and "He profits most who serves best" are the organizations mottoes and the results of the efforts of the different clubs are sufficient evidences of the earnestness of their purpose.

SOME CHANGES REDISTRIBUTION WILL MAKE

According to the scheme outlined at Ottawa, East York is to disappear as it did once before; South York will be divided at Yonge street, and have Scarborough township from East York; West York will come to Yonge street, but will lose Etobicoke township and Weston; North York (the present Premier's constituency) will acquire Vaughan and Markham township from the other Yorks; Peel and Halton will lose a six-mile strip from the southern ends, and be merged; the southern strip, 30 miles long, plus Etobicoke township, will form the new constituency of Halton; Peel-Etobicoke, Dufferin and South Simcoe (minus the town of Barrie) will be merged, and Barrie will be added to North Simcoe. South Ontario will be enlarged by Uxbridge and Scott townships, taken from North Ontario, which constituency will be merged with Muskoka. Toronto, which has six constituencies—East, West, North, South, Centre and Parkdale—is to be given three more seats.

Some information has been given us in regard to the comparison between the Canadian National Exhibition held in Toronto, and the British Empire Exhibition now being held in Wembley, England, and we quote the following extract from the "Guardian" of Manchester, England: "Canada's Wembley" one of the most interesting of the industrial stalls in the Canadian building at Wembley, is that arranged by the Canadian National Exhibition as part of the propaganda for that great trade fair. It is difficult to make it fully realized in this country, that the Toronto Exhibition is actually the largest annual gathering of its kind in the world, but the visitors to Wembley who learn that it occupies practically the same acreage as the British Empire Exhibition and that it has over 80 permanent buildings in its grounds, will realize easily its scope and importance from the excellent photographs which are a feature of the stall. The photographs are shown in two large albums by an electrical device which automatically turns over the leaves every few seconds. A goodly number of Canadians from the Eastern part of Canada bring their friends to the stand and, by the aid of the pictures, endeavor to tell them all they can of the Toronto Exhibition. The largest attendance at the Wembley Exhibition was 39,550 on Empire Day, so Canadians may proudly point to their record of 230,000."

GOOD NIGHT

When a doctor makes a mistake he buries it.
When a plumber makes a mistake he charges twice for it.
When a lawyer makes a mistake it is just what he wanted for, he has a chance to try the case all over again.
When a judge makes a mistake it becomes the law of the land.
When a preacher makes a mistake nobody knows the difference.
But when an editor makes a mistake, Good night!—Montreal Gazette.

MARKHAM TWP. COUNCIL

Markham Township council meeting for June presented some very interesting situations. About four o'clock in the afternoon, councillor Clarry suddenly demanded the resignation of Clerk Arthur Davison of Unionville, and the clerk's prompt compliance caused still more embarrassment.

The proceedings leading up to this point were staged by Mr. Clarry, who repeatedly complained about Mr. Davison making an omission in the financial statement of an item of \$11,000 being a loan from the bank.

Mr. Davison admitted that a mistake had been made, and said that it was unintentional and he was sorry. Mr. Clarry then said he was not satisfied with the clerk and treasurer's method of bookkeeping, and Mr. Davison asked "Do you want me to resign?" Mr. Clarry said, "Yes," and Mr. Davison promptly wrote out his resignation, and after thanking the other members of the council for the courtesy and consideration they had always shown him, left the room.

The council met at one o'clock, all the members being present.

Communications were read from A. G. Gormley, complaining of a large barberry hedge on the farm north adjoining, on lot 14, con. 6. That he had requested the owner last year to destroy the same and he had not done so.

Mr. Davison, the present owner of the farm, said that he did not pretend to know whether the presence of a barberry hedge was conducive to rust or not. But he did know that last year he had grown as heavy a crop of oats in the field near the hedge as there was in the township and there was no rust. He valued the hedge for its beauty.

Nathaniel Baker of Richmond Hill wrote that he had damaged his car through bad roads to the extent of \$29.75 for repairs, which if not paid in ten days he would turn into other hands to collect. He also understood that 5 carloads of gravel were bought and paid for to go on the 2nd con. by Mr. Padget, and he was going to see that it was put on the road.

The reeve spoke of the excellent services the clerk was giving, and pointed out that the mistake in the financial statement was such as any human was liable to make. He also emphasized that the auditors' report showed the books to be well and properly kept and asked Mr. Clarry to move a resolution which he prepared. Mr. Clarry refused.

Mr. Stiver moved, seconded by Mr. Smith, that the members of this council sincerely regret the tendered resignation of our clerk and treasurer and respectfully ask him to withdraw same. Yeas, Stiver, Smith Campbell, Gohn, Nay—Clarry.

After the carrying of this resolution the reeve stated that he felt so upset that he did not feel that he could give the business yet to do proper consideration, and on motion the council adjourned to meet next day.

Council resumed at 1 p.m. Tuesday.

The reeve read an application from A. G. Gormley for the position of clerk and treasurer, as he understood Mr. Davison had resigned.

The reeve commented that Mr. Davison would continue as clerk until the voters' list was prepared and the collectors' rolls were made out, and in the meantime his resignation would be considered. Resolutions were passed:

That Mr. Stiver and Mr. Smith be commissioners to report on barberry hedge complaint, said report to include cost of removal and compensation as provided by act.

That Mr. Angus Goodwin of R.R. 2 Gormley, be reimbursed \$25 for care of Mrs. Falconer, same to be charged to charity.

That Mr. Gohn be commissioner to interview the Railway Board re accident to Wm. Dean at lot 7, con. 2, also to secure advice if deemed necessary.

That assessors N. Smellie and A. Forster be each paid \$25 for stamps and extra services.

That the following be appointed commissioners on work specified:—W. C. Gohn, for several jobs on concessions 1, 2, 3 and Scarborough townline.

R. A. Smith, guard rails, culverts, etc. on cons. 7, 8, and repairing bridge on 3rd con.

R. L. Stiver, culverts and repairs on con. 4, 5, 6.

J. R. Campbell—Lot 28, con. 8, new bridge, 8' 6" x 5', lot 23, con. 8, new culvert, 18' x 24', lot 25, con. 8, new culvert, 10' x 30', lots 20, 21, con. 9, repairing culvert and opening ditch; lots 25 and 26, con. 9, repairing and replanking bridge.

H. S. Clarry work on cons. 9 and 10.

Councillor Smith urged that the Council get 2000 or 3000 yards of stone crushed and screened for use on roads. He stated that a great deal of the material now being put on the roads was absolutely worthless.

A yard of rubbish cost 25 cents and a yard of clean crushed stone or gravel cost \$1.00—just 75 cents a yard difference in the cost of putting on worthless stuff or first class material.

Mr. Smith, seconded by Mr. Campbell, moved that the council employ a crusher to crush gravel for roads in the township, not to exceed 2000 yards. Lost.

The reeve objected to the expense this year, as did Mr. Clarry, and Mr. Stiver said he would support buying a crusher, but not hiring the crushing done this year. Councillor Campbell, after consideration, thought perhaps by dragging the roads often and selecting the gravel in the pit we could keep the roads in fair repair this year, and Mr. Smith ended by being the only supporter of the motion.
