LOCK UP ALL YOUR COWS WITH ONE LEVER!

Let me show you the newest ideas in barn equipment.

The Gilson people of Guelph have started making Barn Equipment! And believe me, they've got out some revolutionary ideas!

Their Steel Stalls and Automatic Stand-down are the nearest thing to ever seen. Strong, sturdy, clean. Make a dairy barn look as efficient as a modern factory. You can lock up any number of cows from two to fifty by simply throwing one lever! Release 'em just the same way—all together. I'd like to show you what comfort, cleanliness and convenience is built into these stalls.

In addition, I'd like to show you pleasure, too, of some real bull and calf pens. Gilson's have a wonderful water system. Makes a lot of difference in the amount of milk you get if cows can get water when they want it—at the right temperature. Let me tell you

about their gravity or automatic, sanitary Water Bowls.

And to get that mean job of stable cleaning done to its easiest form, the Gilson Self-Dumping Litter Carrier is

a marvel. Raised and lowered with ease. A clean, quick way of handling a very necessary job. Let me show you some mighty interesting pictures. Before you equip your barn it will pay you to see me.
