

# Strawberries

Indications are that the crop will be good, but short lived, as the plants have been held back by the cold spring, bringing all the fruit on at once. Having secured one of the finest berry gardens in the county, we are prepared to take care of your canning order at the lowest price. Order at once so we can supply when the berries are at their best.

### EDITORIAL COMMENT

With three and a half million bet on the horse races at Toronto, it's about time to be organizing relief work for next winter.

Lights on Vehicles—The Ontario Motor League is making an effort to have the law governing vehicles on public highways changed so as to make it compulsory for the carrying of lights on all vehicles.

No one should fail to hear the Plantation Jubilee colored singers on Saturday night. The rollicking plantation songs, with their southern melodies will be a treat.

United States have only now decided to give its veterans a bonus. Canada, infinitely less rich gave its veterans a cash bonus immediately after they came home. It was a creditable chapter in our history in the war.

The following cities and towns in Ontario are, on daylight saving time: Toronto, Ottawa, Kingston, St. Catharines, Welland (Industries on daylight saving time and schools on standard time), Thorold, Merriton, Bridgeburg, Port Erie, Port Dalhousie, Port Colborne, Gananoque, Montreal and Sault Ste. Marie, Mich. are also on daylight saving time.

The amendment to the Ontario Game and Fisheries Act passed at the recent session of the Legislature forbids the carrying of a loaded shotgun or rifle in a motor car or vehicle, or its discharge from either. Another clause allows overseers to stop and search without warrant, any vehicle, boat or launch which the officer has reasonable grounds to believe contains any fish or game illegally taken.

Recent amendments to the O.T.A. render it easier for those enforcing the law to secure convictions against those who violate the liquor laws. If a man is now found with a bottle on his person or in his possession that has been opened, he can be arrested, and an automobile transporting liquor illegally will be confiscated. These are rigorous provisions and it is an intrepid individual that will take chances with them.

In future no alien laborer, unless his name be on the revised assessment rolls of the municipality, will be given employment on any of the civic undertakings of York township. The Council of the municipality reached this decision on Friday last, following the report by Relief Officer R. B. Geggie to the effect that many aliens had lately been moving into the township to qualify under the clause, inserted in all public works contracts that the labor employed must be 70 per cent from township residents.

During the last few months large numbers of those who had left Canada to seek employment in the United States have been returning. During month of April over 4,000 who had resided across the line for six months or more have come back to Canada. It would appear that conditions in the United States are anything but good; and there is a general slump in business of all kinds. The reasons given are that the war shortage of automobiles and railroad equipment have been made up and the arrears of building construction are practically caught up. These three industries have been the backbone of America's prosperity during the last three years. The return of Canadians to Canada and the coming of others from across the line will have a tendency to stabilize conditions here. Those who come back will be more contented and will have an influence on the whole Dominion.

### PRESENTED WITH A PURSE OF GOLD

A number of friends gathered recently at the Methodist parsonage in Cannington to bid farewell and to wish the Rev. A. R. and Mrs. Sanderson every blessing and happiness in their new field.

An address of very hearty appreciation of the untiring zeal, energy and ability always manifested after the spiritual welfare of the community and of cheerful ministrations during the past three years, was read.

Mrs. Sanderson was thanked for her always cheerful willingness to give of her wonderful talent and was presented with a beautiful basket of roses, while Mr. Sanderson was made the recipient of a purse of gold.

This presentation is unique, owing to the fact that not for many years has any such token of appreciation been given any minister on this circuit, showing the very high esteem in which the Reverend and Mrs. Sanderson were held in the community.

Mrs. R. N. Fairies of Stouffville is a cousin of Mrs. (Rev) Sanderson and visited with her recently.

Mrs. J. R. Cober and family of Toronto spent a week at Mr. and Mrs. Conner's of Unionville.

J. B. Doner of Glendale, California spent a few days at the home of Mr. C. Conner's of Unionville. Mr. Doner is Mrs. Conner's grandfather.

## DISTRICT DOINGS

A new Rest Home has been opened at Jackson's Point by the Samaritan Club.

H. E. Procter, postmaster of Aurora, was appointed secretary of the Canadian Postmasters' Association at the convention held recently.

At Barrie recently, the summer home of Rev. H. J. Cody of Toronto was visited by fire. The barns, ice and wood houses, water system and a Chevrolet car were burned, with a loss of about \$5,000.

Last week the Aurora Banner says, a deer was seen in the orchard on H. W. Fleury's farm just north of the town. The Banner does not specify the variety but we take it that it belonged to the bobbed-hair species that may be seen any day on the tracks walking north out of Aurora.—Newmarket Express Herald.

The Dominion Day celebration at Pickering was a decided success in every way, the attendance being larger than any other year. The sports opened up with a calithumpian procession led by the Scarborough band. In the girls' baseball, Claremont won first prize of the four entries. The senior football contest resulted in a tie, Goodwood and Pickering each scoring one goal. The tug-of-war game between the "fats" and the "leans" was won by the former. Mrs. H. G. Wilson was the winner in the ladies' driving, and G. W. Barker captured the prize for being the slowest automobile driver.

Reports from all parts of York, Ontario and Peel counties, are most optimistic regarding the outlook for the early spring crops. The weather the most potent factor in the situation, has been all that could be desired, with an abundance of moisture and heat, and has largely made up for the lack of heat early in the season. Alfalfa cutting is now in full blast out in the county, but the weather so far has not been favorable and little has been done. Not in years has the fall wheat crop been so abundant, and luxuriant, a field on the farm of Bernard Stiver on the 5th concession of Markham township measuring more than five feet and a half in length. Everywhere the same encouraging conditions prevail and the heads are said to be filling well. Pasture is abundant and dairymen report the outlook as excellent. The fruit crop is said to promise better than last year.

**MRS. WILLIAM IONSON**  
 Harriet Thomson, widow of the late William Ionson of Scarborough died Sunday at her home, 278 Main street Toronto in her 88th year. She is survived by three sons, James, Archibald and Albert and one daughter, Miss Mary Hannah. Mrs. Ionson has lived on Main street since the death of her husband nineteen years ago. He was a farmer on the first concession of Scarborough and donated land for Zion Church on his farm. Mrs. Ionson's grandfather, David Thompson, was one of the first settlers in Scarborough, and his farm on the Kennedy road between the first and second concessions, where Mrs. Ionson was born in 1836, is still farmed to-day by her son, Jas. Ionson.

### ACCIDENT AT MARKHAM

Tuesday morning, July 1st, while crossing the C.N.R. tracks at Markham, Harvey Burkholder, son of P. D. Burkholder of the 9th con. Markham, was struck by a fast special north-bound train. The horse he was driving was instantly killed, and the milk wagon smashed to kindling.

Harvey, who has been driving the milk route for some time, usually crossed the tracks about the time the morning train from Toronto comes in, and it is thought that he expected the train to stop as usual, but instead of being the regular train, it was a special which did not stop at the station as he anticipated. Consequently it struck the milk wagon and horse, sending them in opposite directions. The horse was carried some 50 feet up the track, and the wagon smashed to pieces.

Burkholder was picked up from under the wrecked wagon in an unconscious condition, and strange to say, practically uninjured other than a bad shaking up and bruises. He is now doing nicely and it is hoped he will be around again shortly.

### OFFICIAL VISIT TO COUNTY HOME

The summer session of York County Council was brought to a close on Thursday last, when practically every member took advantage of the invitation of the Industrial Home Commissioners to visit the county home for the aged on north Yonge street. The day was ideal, and the trip to the home, which is situated near Newmarket, was an enjoyable one. The party, which comprised forty of the members, left the county offices at noon and proceeded by motor cars on the journey.

Shortly after one o'clock all had arrived at the home where they were entertained at dinner. Before rising from the table, Warden W. J. Gardner called the Council to order, and having congratulated Mr. and Mrs. Stoddard on the general management of the Home and not forgetting the refreshments he called on Messrs. F. W. Pearson of Newmarket, C. French of Richmond Hill, A. MacMurphy of King, D. Sprague of North Gwillimbury and T. Weldron of Etobicoke, all of whom were pleased with the first-class appearance of the Home and farm, and also the stock. So far as they could learn, the inmates had no complaints, which was very satisfactory.
