CONTINUATION CLASS CENSOR COMMISSION BADLY CROWDED

The refusal or neglect of the Toronto and York Highway Commission to extend the "good roads" system beyond Stouffville, up the 10th of Whitchurch, for two and a half miles, to connect with the good roads leading into Goodwood and Uxbridge, is severely commented upon. This is the only break in the entire system between the town of Uxbridge and Toronto, and is said to have been originally included in the system, but on account of its geographical position has never been pressed by the Whitchurch Townships.

The road at present time is in a deplorable condition. The only alternative route is via Claremont and on down to the Kingston road. The towns of Stouffville, Goodwood, Unionville and Agincourt, will all stand to benefit by the building of the new road, to say nothing of the convenience to the travelling public. Our municipal fathers should keep alive to the necessity of connecting up this system, by eliciting the assistance of representative citizens of Unionville and Agincourt.

MAKING READY

A general meeting of the temperance workers of the town was held in the Presbyterian church on Tuesday evening, when Jacob Broadway was elected as president of the town organization for the coming plebiscite vote, and Mr. G. E. Baker as secretary. A striking committee was elected to nominate the standing committees, and report at the next general meeting, which is to be held on Tuesday evening of next week, Sept. 16th in the Mennonite church. When this work is completed the campaign will commence in earnest. Citizens of town and countryside are requested to attend a general county meeting to be held in Newmarket on Saturday afternoon this week to effect the county organization. Rev. R. Young acted as chairman of the meeting.

DUMPING GROUND PROTEST FILED

The first instalment of taxes for the corporation of Stouffville became due on Tuesday of last week, Sept. 2nd, and the way in which the tax payers responded to the call sent out by Collector Harry Perry indicates that times are generally good in this municipality.

This year's demand was the largest ever asked in the history of Stouffville, amounting to \$19,810, of which there was paid into the hands of Mr. Perry the sum of \$13,206. The amount paid in indicates that many tax payers paid up their second instalment with the first, and thus saved two per cent on the second instalment, an amount equivalent to nearly 8% per annum.

There is left the December collection about \$6,500.

The tax rate this year is 33 and 7-10 mills, which is the highest rate we ever had. Some years ago, however, there was a rate of 33 mills, but it didn't raise nearly so much money then as it would today, with the additional properties and increased assessments.
