Baker, Stouffville.

Every Government Sale Province is a Bootleggers' Paradise

Liquor once sold cannot be controlled. The evil lies in the liquor, not in the method of its sale, nor in the form of the package. This is proven in every Canadian province where government sale, in varying forms, has been tried. With easier access to intoxicating liquor, drinking has increased enormously. More drunkenness and crime associated with drunkenness have naturally followed. Bootlegging—instead of being CURED by so-called government "control"—is flourishing to a degree that makes Ontario's illicit sale seem small and insignificant by comparison. A ghastly failure, serving only to MULTIPLY the very evils it was heralded to cure! That is the story of government sale of liquor in BRITISH COLUMBIA, in MANITOBA, in QUEBEC.

British Columbia and the Bootleggers

The Vancouver World, a newspaper friendly to the government, has declared in an editorial: "British Columbia is the bootleggers' paradise."

The Attorney-General of that province—who is the official administrator of the Government Liquor Control Act—said in a recent speech: "The greatest bootleggers of all are the brewers and export liquor dealers."

Dr. A. E. Cooke, of Vancouver, in The Canadian Congregationalist, asserts: "The Government controls neither the manufacture, importation, transportation, nor exportation of liquor. The distillers and brewers control all these, and the Government simply acts as one of their sales agents, controlling about 50 per cent. of the retail end of the trade. The whiskey ring and the bootleggers control the rest."

Manitoba Sick of "Control" in Less Than a Year

Eleven months after Manitoba adopted its government control system, an open-minded investigator of conditions in that province, sums up the situation in these words:

"I leave Manitoba impressed with the evidence that both wets and dries are dissatisfied with the government control system—the wets because there is no legal sale of beer by the glass and because there is some delay and trouble in getting hard stuff, and the dries BECAUSE BOOTLEGGING AND DRUNKENNESS HAVE GREATLY INCREASED."

The same neutral authority declares: "There is no dispute in Winnipeg about bootlegging. Everybody—dries, wets, moderationists, police, government officials, business men, professional men and rounders—tell the same story. The unanimous verdict during the week of August 24th, when I was in Winnipeg, was that bootlegging was being carried on on a tremendous scale, that the city was wide open, that the hotelmen had no re-

gard for the will of the people as expressed in the disapproval of sale of liquor by the glass, and that something had to be done."

Quebec under Government Sale Eclipses Open Bar Evil

Quebec, with its longer experience in government sale, has drifted still further back toward the evil days of the open bar. In fact, the only difference between the Quebec "tavern" and the old bar-room is that customers sit down at tables to drink, rather than stand up at a bar!

And while Quebec goes on spending more money for booze than for education (\$28,000,000 annually for liquor and \$26,000,000 for educational purposes), crime is rampant. The Montreal Gazette was recently constrained to declare: "Montreal is a perfect-Mecca for evil-doers, with vicious, immoral resorts and gambling joints, the hiding-places of the alien and other criminals from all corners of the continent."

Ontario Has Higher Hopes

Ontario citizens do NOT want THIS province to become "a bootleggers' paradise." They do not want their government to go into partnership with the distillers and brewers, splitting the booze business "fifty-fifty" with bootleggers—which is the best any government has been able to do under "government sale."

The responsible electors of Ontario DO want the happier homes, women and children, made possible by The Ontario Temperance Act. They DO want to defeat the liquor traffic's insidious effort to turn back the clock. They DO want Ontario to be spared the costly experience of such bootleggers' paradises as British Columbia, Manitoba and Quebec.

In this belief, and with the Government pledged to "give active and vigorous enforcement" of The Ontario Temperance Act, the Ontario Plebiscite Committee asks, with every confidence, that Ontario citizens give the Government an unmistakable mandate on October 23rd.

For the Honor of Old Ontario mark Your Ballot thus:

Are you in favour of the continuance of The Ontario Temperance Act? 1

Are you in favour of the sale of alcoholic liquor in sealed packages under Government control? 2

The Ontario Plebiscite Committee
2 Toronto Street, Toronto
G. B. Nicholson, Chairman

Prosperity Follows The Dairy Cow

AGRICULTURAL surveys prove that the farmer who banks a monthly milk or cream check soon becomes independent of financial worries. The dairy cow—the milk cheque—the bank account form an indestructible chain which defies "hard times" and business depressions. Since 1873 the Standard Bank of Canada has catered to the needs of the dairy farmer, rendering efficient service to his business.
