## EDITORIAL COMMENT

There are 1289 persons liable to serve as jurors in the Township of Markham.

Lovers used to hang over the front gate, now they hang over the telephone line.

Mrs. Lemon of Claremont, is in very critical health, having suffered a paralytic stroke.

Fruit is so abundant in the locality of Claremont, that the supply of glass sealers became exhausted last week.

There are now only thirteen chartered banks in Canada. What a scurrying there will be by the superstitious to get that whittled down to twelve.

The melancholy days have come, the saddest of the year. When we have to see our coal man, though the coal bill's in arrears.

Wheat has reached \$1.62 in Winnipeg, but as most of the grain is still in the stacks, the brokers stand to gain mostly. However, indications are that prices will hold up well until the crop is on the market.

Uxbridge school board has passed a resolution endorsing the Ontario Temperance Act, as the best temperance legislation so far, in the best interests of the boys and girls. Such resolutions will help to stimulate confidence in the O.T.A.

The engineer who urges the sinking of a shaft 12 miles in depth towards the earth's core, should be induced to make the attempt near Uxbridge town where oil is said to exist in the township. At that depth oil might be discovered in paying quantities.

Those who know the Prince of Wales personally declare that he is a serious-minded man, with a wonderful grasp of world problems. If this is a fact, it is hard to imagine, for all the information the public are given by the daily press respecting the prince, would lead them to think that he does nothing excepting to dance, and chase rabbits with the hounds, with his spare time given over to polo playing.

Another public official has found out by bitter experience that the way of the transgressor is hard. Sir Adam Beck's private secretary could not play the races, and lived the fast life on a salary of \$1,875 a year, and so he forged a check for \$9,000 and tried to get into United States but was nabbed at the border and now he is in the police cells. He parted from his wife when he started the life of riotous living. It is surprising how many men these days are not satisfied with one wife.

Why think that Government sale which has been a failure in every other province, can be made a success here? You cannot sell liquor and control it.
