OFF TO THE LUMBER CAMP
 Grassmere, Muskoka
 Editor Tribune
 Dear Sir:—I am sending you a brief account of our trip from Goodwood to the lumber camps of North Ontario. The journey as far as Orillia would not be interesting as the conditions are quite well known to all your readers, but after we leave that point a rocky country is in view. In fact one sees little more than rocks and bush until Huntsville is reached, with numerous lakes here and there along the railway.
 At Huntsville we secured a truck for the journey back into the bush country some twenty miles. Three of us started early in the morning, after I had spent the night with a cousin whom I had never seen before. First we loaded up with luggage weighing some 1,500 pounds, and then started over the winding road at a rate of 25 miles per hour, but soon we slackened speed when the corduroy roads were encountered. Some places the road is merely flat rock, then again it is marsh. One place we stuck in the mud for an hour and a half. After cutting some maples for prying and got a large stone for a foundation, we got along. Of course a Ford is the only car that could stand this journey, for we were pitched and tossed about like cork on the waves. Speed had to be kept up in order that the car would not get stuck, and my chief job was holding onto the goods in the rear of the truck.
 Within a mile of camp we stopped to examine the road which was covered with water but as it had a rock bottom, the truck splashed through, and so we arrived at our destination at four o'clock.
 We found the camp in a rather neglected state, and our first lunch was eaten out under the blue sky. In the shack is a good stove, and after a few days we had some of the rooms looking good, with building paper on the walls and new flooring. We have water fairly handy for cooking and plenty of good wood.
 Mail comes in once a week, and our nearest neighbor, Mr. R. Nolan, is three miles away, to whom we have to go for the mail. I have been delegated to do the preaching on Sunday. Evidently I am the nearest to one that is in camp.
 One thing, very important, we want the Tribune, each week, and later I will write of conditions here in the lumber camp and in this country in general. This is the central point for hunting game and many hunters are passing this way at present. Our camp is known as Hurlbert's Club Camp.
 Yours truly
 Fred Middleton

GOODWOOD
 Mrs. Flumerfelt has returned home from visiting her daughter, Mrs. Henderson of Oshawa.
 Wm. Porter, Norton Symes and Abe White are home from the west where they report snow a foot deep.
 Mrs. S. Ottowell is under the weather and her daughter, Olive is home attending her. Cedric Ottowell has been doing a lot of auto repairing.
 The hot supper given last Friday evening was a good success. Lots of good things to eat and when all were satisfied the program started in the main body of the church. The orchestra playing three very appropriate selections at the opening. The Green River quartette kept the audience in laughter with their comic; also Miss Stevenson had her audience spell bound in her selection on "The Mohawk Indians".

Better Rubber Footwear at the Regular Price

If RHINO Rubber Footwear weren't better—if it didn't wear longer—we wouldn't wear longer—we would not support the iron-clad guarantee that goes with every pair.
 These facts hold good with all RHINO Rubbers. Note the Protector flap on rubber shoe illustrated. It is an exclusive, patented RHINO feature. It effectively prevents dirt, manure, snow or moisture from getting inside. This footwear is made from RHINO RUBBER—the toughest and most wear-resisting that Science has yet discovered—which will wear up to twice as long as ordinary rubber. Insist on RHINO Footwear.
