BETHESDA

One of our esteemed old residents, Richard Atkinson, suffered a stroke on Sunday. His condition is quite serious, as a result.
We are glad to have in our midst Mr. Ezra Sherrick of Didsbury, Sask. who will shortly be leaving for his western home along with his son, whose size and splendid physique would qualify him for a position on the Toronto Police Force, the finest in the world. Mr. Sherrick left here some thirty years ago for Didsbury and during all that time has returned home only on three occasions, the last being ten years ago. He has eight sons and two daughters, to cheer him and his good wife along through life. The Sherrick's work a big farm, having two hundred acres under cultivation in wheat this year, and the crop yielded an average of 25 bushels to the acre. When Mr. Sherrick left home on Dec. 20th the thermometer stood at 48 below zero, but he states that it didn't seem a bit worse than it did here in Whitechurch during Christmas week. Their section is affected by the Chinook winds, and one may get out in the morning with the weather 30 below, but before returning in the evening, it would be so warm that furs would be thrown off, and the team would work up quite a sweat. Dairying is becoming more popular with the western farmers and Mr. Sherrick keeps thirty head of cattle, selling cream to the Didsbury Creamery. Your correspondent and the old friends here are pleased to mark the success of our former residents.

On Thursday evening the curlers met in their annual contest for the oyster supper. A good deal of enthusiasm was shown. In the first contest the vice-president's side won but there are to be two more contests before the oysters come on the scene. The second game is to be played this Thursday evening. Here's Lighter Weight—Longer Wear—Better Value

Wearing rubbers all day is tiresome, but since rubbers are necessary, why not wear RHINO Rubber Footwear? Each pair combines the least weight with the longest possible wear?

This longer life is built into each pair with RHINO rubber, pressure cured, and extra strength where the wear comes. See the heavy ribbing under the laces. This is only one of the many special features that make it possible for us to back up the sweeping guarantee on every pair.

This footwear is made from RHINO RUBBER—the toughest and most wear-resisting that Science has yet discovered—which will wear up to twice as long as ordinary rubber.

Let us fit you with a pair of RHINO.
