Nyal Sore Throat REMEDY

A gargle and mouth wash highly recommended for sore throat, tonsillitis, croup, hoarseness, sore mouth and all inflamed and ulcerated conditions of the mouth and throat. The most painful and distressing of all conditions of sore throat is the suppurative form of tonsillitis, known as quinsy, which often involves the whole throat and not infrequently threatens life. This always starts mildly, but goes from bad to worse. Therefore every sore throat should receive early and effective treatment by the use of Nyal Sore Throat Remedy, the timely employment of which will save much suffering and insure speedy relief.

UNCOLLECTED TAXES RETURNED OF \$183

Reeve F. W. Silvester presided over the March meeting of the Town Council on Friday evening, when all the members were present, being Councillors H. W. Sanders, John Cleaver, F. W. Silversides and Jos. Borinsky.

The Library Board made their formal request for the statutory grant of 50c. per capita of population, amounting to \$557. With the request was a financial statement for the past year. It showed total receipts \$1060.66, made up chiefly of municipal, government and county grants, and \$140 in fines and library fees. In the expense column heating and light cost \$150, librarian salary \$350, and the remainder of the money is expended on books, papers, magazines, etc. The report is signed by Archibald Stouffer as secretary and Rev. R. Young, chairman. The money will be advanced by the council as is required by the Library Board.

Collector H. Perry presented his tax roll for 1924, which was received by the council. Total uncollected taxes amounted to only \$183, the largest item outstanding being against the McDonald estate property on Church street of \$58.50, while \$48 remains unpaid on the Mansion House hotel. The other items were for smaller amounts, such as income tax on school teachers, now gone, and part of which is uncollectable because the teachers did not earn salary enough to become liable for taxation.

It is interesting to note that \$52 was collected in percentages from tax payers who failed to make payment before the statutory dates elapsed for same. The total monies to collect were \$19,840.

Accounts passed:-
Clerk, registering B. M. & D. \$12.00
Clerk, salary Sec. B. of H. 10.00
Stiver Bros., charity coal. 15.25
General Hospital, charity. 39.00

SCHOOL CLINIC

Miss Hally, Provincial Board of Health, has been in the public school this week and the following is a list of her activities:

1—Morning health inspection.

2—Weighing and measuring the children.

3—Examination of the pupils for communicable disease, mental or physical defects.

4—Health Education.

All of these activities in the school are important, but there is at present a most urgent need for the development of positive health habits. Habits affect health. There are many examples of health improvement by an improved mode of living. In tuberculosis, we take the frail, malnourished child to a preventorium and without medication, but with proper food and rest in this ideal environment, we make him over into a strong and robust youngster. The task briefly, is to inspire the child is the best simple evidence then to attend to the business of getting him to reach that ideal. Many children will do things because boys and girls go them at school when they would not act upon parental suggestion. Mental and physical growth go hand in hand. Growth is always the sign of health in young children, but this does not mean that retarded growth is a sign of ill health. The weight of the child is the best single evidence of health to interest the child. The use of this universally interesting test of health in weighing children has been the most effective introductory measure in the improvement of the health of children, which has ever been found. The physiological basis for some health habits are: Proper food, exercise, sleep, air, ventilation and elimination of bodily waste.

Miss Hally will continue her office in the Council Chamber every Thursday from 2 to 4 o'clock, and will be glad to see any of the mothers from the country with regard to any of her work in the schools, although she expects to visit as soon as possible the homes of these children.

There are rumors of an oyster supper to be held at the home of Kenneth Campbell this Friday evening, as an aftermath of the chivaree given him and his genial bride shortly after their marriage. At that time they put up a liberal donation to the tin pan brigade, which has not been expended.

Some of our men excelled themselves at the masquerade party at H. W. Moyer's last Friday. Jim McKenzie and a few others might get employment as domestics in Toronto, should their present occupations ever fall them. The "gentlemen" ladies were never identified, and it is not known whether they hailed from this locality or not. We all had a great time.
