### EDITORIAL COMMENT

The law against glaring headlights is to be vigorously enforced this year by the provincial police.

There are three Fridays the thirtieth during 1925 and two have passed with any great calamity.

At a recent meeting of the Midland town council the clerk reported that taxes had not been paid on certain vacant lots for twenty years. The lots will be sold.

In an effort to reach out for more business the merchants of the town of Uxbridge are discussing the advisability of opening their stores three nights each week.

A doctor in Smith Falls issued 750 liquor prescriptions in two months, and was fined \$300. If he did wrong, why didn't the law punish him, instead of merely demanding that the spoils be divided up?

The ratepayers of the Town of Uxbridge will be required to raise the sum of \$33,662 this year to satisfy the tax demand. The population of the town, being approximately sixteen hundred, this means that taxation in Uxbridge is equivalent to \$21 per head of every man, woman and child in that town.

In referring to the salary grab the Farmers' Sun points out that every member is responsible for the increase because no division was taken in the Legislature. The Sun says: "Although a number of members had voiced their opposition to the proposed increase in indemnity for members and notwithstanding the fact that any five members could have forced a division on this matter, when it came to a final showdown, the bill increasing indemnities to \$2,000 slid through its third reading as if on roller bearings. In fact it was reported around the corridors that some members at least received their extra \$600 before the final reading was given to the bill authorizing this."

### WHITCHURCH TP. COUNCIL

Whitchurch Township Council met at the Township Hall, Saturday, April 25th, with all the members present, excepting Councillor Dennis Reeve Morgan Baker presided.

Communications were presented and read from:

J. M. McNicol, claiming excessive tax on lot at Wilcox Lake because of error in assessment in 1924.

Blake, Lash, Anglin & Cassels, solicitors for S. C. Snively re obstructions on road at Wilcox Lake.

Accountant, Department of Public Highways, showing amount of Provincial grant on highway expenditure in the township during 1924 to be \$1717.05.

Robt. Gould, claiming compensation for damages to car from road being out of repair, between lots 20 and 21, con. 4.

Frank Steckley, tax collector, presented report of uncollected taxes, amounting to \$1035.70, and penalty percentage collected \$203.27.

Accounts passed

C. Brandon, 2 loads wood for Fred Heacock ..... \$20 00

Toronto Hospital for incurables, 56 days maintenance for D. Newton ..... 84 00

J. A. VanNostrand, destroying dog worrying sheep ..... 5 00

Hospital for Sick Children, 31 days maintenance B. Cook 46 50

W. J. Patterson, drugs etc. for F. Heacock ..... 24 55

Municipal World, deb. register and forms for clerk ..... 8 95

Standard Bank, rent for Safety deposit box ..... 3 00

P. Allin, 37 1/2 yds gravel... 7 50

J. Sibley, 90 yds gravel... 18 00

R. Gould, 200 ft. cedar plank 7 00

Resolutions were passed:

Relieving the collector from collecting four dollars dog tax assessed against Wm. Rose at lot 31, con. 6.

Accepting as satisfactory collector's statement of uncollected taxes of 1924 and of penalty percentage collected, and approving of payment of his salary by the treasurer.

Instructing the treasurer to pay to Simeon Stouffer, road overseer for Church street division, the sum of \$45.00 being amount of commutation of Statute labor collected for that division in 1924.

A bylaw was passed providing for the issue of licenses to persons operating or desiring to operate summer booths for the sale of refreshments, at a fee of \$10 per annum, said licenses to be obtained from the clerk, and also providing for a penalty of not less than Five dollars nor more than \$50 on conviction for contravention of the by-law.

On motion council adjourned to meet on Monday, June 1st, at 10 o'clock for general business, and at 2 p.m. for Court of Revision.

## DISTRICT NEWS ITEMS

The returns from postmasters in this county who weighed all mail matter during March, show that 125 tons of newspapers alone were handled. The people of Canada are surely well informed, which is worth while, even though it does cost 3 1/2 millions per year to transport the newspapers.

The Beaver Mills at Newmarket, the property of Oliver Dike, was sold on Saturday last at an auction sale in the King George Hotel under an order of the court in an action by the holder of the first mortgage to enforce his claim. The mills were bought by the second mortgagee, J. McMillen of Queensville, for \$12,000 cash.

Orillia Packet—"Mr. Peter Stevenson, the district game warden, has received applications for a total of 130 pheasant eggs. To anyone who undertakes to rear the birds and then liberate them, eggs are supplied free by the department of game and fisheries, together with instructions on pheasant culture. The eggs are hatched by a common barnyard hen. Last year a number of eggs were taken by farmers on the Severn River; and, nearer Orillia, Mr. Wm. Cotton reared some pheasants which still remain in the vicinity of his farm. How beautiful these English ringnecked pheasants are may be seen from the mounted specimen in the window of the game warden's office. This pheasant was killed by flying against wires at Meaford, and was mounted by Mr. W. Sutherland. Rearing and stocking of pheasants is not an experiment, but has been successfully carried out in various parts of Canada and the United States. It is hoped that there will soon be a large number in this district."

County Constable T. B. Kirk of Newmarket, received on Tuesday mail from his son, Constable Ernest Kirk, B.C.M.P. at Fort Norman, two thousand miles north of Edmonton. The mail has been coming two months and it included some splendid views of the land within the Arctic circle. The temperature in

this district ranges from 52 to 82 degrees below zero in mid winter.

Robert Farley, a highly respected and life-long resident of Markham, passed away with startling suddenness on Thursday afternoon last week. He was assisting in cleaning some stovepipes when he gave a gasp and expired. He had suffered from heart trouble for several years and had been very ill nearly all winter but of late had greatly improved. He was in his 57th year. He is survived by his wife, one brother, Hugh, and two sisters. He was an Oddfellow of many years standing, and the funeral on Sunday afternoon to St. Andrew's cemetery was under auspices of Naomi lodge.

By unscrewing three iron bars and breaking glass in cellar window thieves on Monday night last week secured entrance to the Standard Bank at Keswick. They attempted to force an entrance to the Bank vault but failed. They broke the combination dial and bent the handle of the safe. The thieves used a chisel but whether they gave up in despair or were frightened away is a matter of conjecture. The attempted robbery was discovered by Manager Alex Aiken on Tuesday morning when he opened for business. Before customers of the bank could be served an expert had to be called in to open the vault.

Mrs. Edw. Cane died at Newmarket on Wednesday last week, aged 71 years. She was quite well known over York County. Mrs. Cane, whose maiden name was Bessie Lukes, was converted in an old-fashioned protracted meeting at the old Methodist church on Garbutt Hill fifty years ago this fall and from that time she took an active part in the Sunday School, was a teacher for over 40 years and when prevented from attendance by illness became a member of the Home department. She was united in marriage to the third son of the late William Cane (who was the first Mayor of Newmarket) some 47 years ago and from that time became very prominent in church and temperance activities. Surviving are her husband, who is in poor health, two daughters and three sons—Mrs. Babel Skinner of Mitchell, Mrs. Kelsey Hawkins of Toronto, Bert of London, Charlie at home and Jack at Toronto.

The death last week of Elwood Haynes aged 68 years, the inventor, 30 years ago, of the first horseless buggy in the U.S.A., run by a gasoline engine, recalls the amazing success since achieved by the multitude of inventors following his lead with ever increasing success. When he first motored into Chicago, he was ordered to "take the contraption off the streets." Today they are everywhere. There are 20,000,000 in operation, and they are still being manufactured by the million.
