

FRUIT NOT INJURED, VEGETABLES NIPPED

Several Degrees of Frost Throughout Ontario — Tomatoes Must be Reset.

St. Catharines, May 18.—There was considerable frost in this section last night, but leading fruit growers said to-day that as a rule it takes a couple of days to really make an estimate of such damage. It is not, however, believed, from what could be gathered, that any extensive loss will be occasioned to the fruit blossoms and setting fruit.

It is different, however, with tomato plants, and optimists who planted these early in May have to do some replanting, tomato growers feared.

At the Vineland fruit experimental station this morning the opinion was expressed that no damage had been done to the fruit. When informed that the official temperature from St. Catharines was 31, it was declared that the bloom would be all right, that ordinarily it could stand several degrees of frost.

Niagara Falls, Ont., May 18.—Except in a few low spots, the heavy white frost which fell last night did little damage in this district. Prominent Stamford Township growers agreed to-day that, except for asparagus, beets, and small vegetables just coming through, practically no damage was done. Strawberry blossoms were damaged in some isolated instances. Tomato plants which had been set out may have to be replanted.

Chatham, May 18.—The frost that swept over this district last night caused a heavy loss to Kent County fruit and vegetable growers, according to reports reaching the city to-day. Ex-Ald. Murdoch, a well-known market gardener, stated to-day that he had received reports from various parts of the county and the losses will amount to several thousand dollars. He said the frost was the heaviest county farmers have experienced in May for many years.

RUBBER BOOTS MEANS OF SAVING TWO LIVES

Elgin Farmer and His Wife Struck by Lightning—Strange Result of Storm.

St. Thomas, Ont., May 18.—Mr. and Mrs. Robert Ferguson, living north of Aymer, near Lyons, had a miraculous escape from death during the electrical storm of Saturday evening. They were returning from the barn to the house when they were struck by a bolt of lightning. They were both wearing rubber boots at the time, and this fact probably saved their lives. The boots were torn to shreds,

Messages from the Youth of Canada to the King and Queen

On June 29th, in Trafalgar Square, London, King George and Queen Mary are to open "Canada Building." Keys of gold, silver and nickel from the mines of Northern Ontario will be used at the ceremony.

The Canadian High Commissioner will present the keys to Their Majesties. With the keys he will present messages from the youth of Canada, one for the King signed by a Canadian boy, and one for the Queen signed by a Canadian girl.

Selection of the boy and girl most worthy to sign these messages will be made by Sir William Mulock and Sir Arthur Currie. The young persons selected will be:

"The boy and the girl attending any primary or secondary school, public, separate or private, whose natural endowments or attainments as pupils or in the arts or any other sphere of worthy endeavor, or who have performed such heroic action as, combined with qualities of character, will make that boy and girl fitting representatives of the youth of Canada to sign the messages to the King and Queen on the occasion of the opening by Their Majesties of Canada Building, in London, England, on June 29, 1925."

Their clothing was considerably torn, and their bodies somewhat burned, but aside from the burns and a severe shock they apparently were not seriously injured. They are at present under a doctor's care.

A curious development of the storm was the setting on fire of eight homes at once by the breaking of a Hydro wire, which fell on to a local telephone line between Middlemarch and Fingal, just west of the city. Only the quick action of farmers in disconnecting their lines saved more serious damage. The blaze, however, scorched considerable areas of wall paper in immediate vicinity of the telephones. In one instance the fire was put out by the use of several pails of milk which happened to be in the room.

Earl of Ypres Removed to Home from Hospital

London, May 17.—The Earl of Ypres, formerly Field Marshal Sir John French, who in March underwent an operation, had recovered sufficiently to-day to be removed in an ambulance from the hospital to his Kent residence, Deal Castle. The patient stood the journey home well.

BUSH FIRES RAGE IN THUNDER BAY DISTRICT 5000 SQUARE MILES

A despatch from Fort William, Ont., says:—According to reports filtering in to the head of the lakes, an area of about five thousand square miles in the sparsely settled region to the east and west is menaced by forest fires. In the burned-out territories there are the smouldering ruins of numerous homes that belonged to hardy settlers. In the Wolf Mountain and Silver Mountain districts to the west numerous homes in the clearings have been consumed. One homesteader, John Crisp, more than sixty years old, is believed to have perished in a fire that swept that district Wednesday and he has not been seen since. It is believed that he must have been sleeping when the fire came toward his clearing and that he was unable to outrun the flames. While it is possible that he may have escaped, it is not considered that the chances are very bright. With the exception of Mr. Crisp, there is no definite report as to losses of life, although many settlers in the Silver Mountain area are said to have had narrow escapes, and many others are prepared to leave their homes as soon as the danger draws near. In several sections valuable areas of pulpwood timber have been destroyed or are in danger. Reports from Nipigon, one of the most beautiful spots in Northern Ontario, tell of a brave fight throughout Wednesday night to save the town.

More than one hundred men fought the encroaching flames with every conceivable weapon until they were ready to drop from exhaustion. At last report it was said that the fire was under control and the village safe. The airplane and seaplane forces of the Forestry Dept. are expected soon to take vigorous action in "spotting" fires so that they can be attacked before they spread to dangerous dimensions. The long spell of dry and sunny, though cold, weather has dried the forests to tinder. The coolness has kept the leaves from budding and the green grass from sprouting on the meadows, glades and swards. When the grass becomes green it acts as a natural deterrent to the progress of fires.

A despatch from Sault Ste. Marie, Ont., says:—With the district dry as tinder, a small number of bush fires in the Soo area are causing no little anxiety. At Massey the citizens of the town turned out and helped the rangers fight a fire near the cemetery. Fires are also causing trouble at Milford Haven, St. Joe Island and at Rydal Bank and Desharats. In fact, more or less serious fires at many points are keeping the rangers on the jump. The rain on Tuesday was not of sufficient duration to give much aid and there is no immediate prospect of more. There have been but two small showers in two months.

THEIR MAJESTIES, THE KEYS AND THE CANADA BUILDING

His Majesty King George V. and Her Majesty Queen Mary, who, on June 29, will open "Canada Building," Canada's new headquarters in Trafalgar Square (upper right), the set of keys from Ontario mines with which the King will open the building. There are four sets of keys, one for the King, one for the Queen, one for Canada's prime minister, and one for Canada's high Commissioner in London. Each set contains a gold, silver and nickel key, made in Canada, with metals donated by Dome, Hollinger, McIntyre, Keeley, Nipissing, Mining Corporation and Mond. PEMBROKE YOUTH SAVES YOUNG GIRL
Gallant Rescue from Under Wheels of Locomotive at Risk of His Life.
A despatch from Pembroke says:—The residents of Pembroke are acclaiming 19-year-old Howard Riley a hero as a result of a daring rescue which he performed when he snatched the unconscious form of Muriel Switzer, aged 23, from in front of a fast freight train here.
Miss Switzer had tripped across the Canadian Pacific Railway tracks at Moffatt's Crossing at the west end of the town, and had fallen unconscious. Riley, who was some distance behind her, saw the fast freight thundering down the track toward her prostrate body; and, running as fast as he could, was just in time to jump the track and at the same time drag the girl literally from under the wheels of the locomotive.
Had he been a second later both he and the girl would have met with a horrible death.

Solution of last week's puzzle.
