

## AMUNDSEN POLAR EXPEDITION RETURNS SAFELY FROM 600-MILE AIR TRIP

A despatch from Oslo, Norway, says:—The entire Roald Amundsen North Pole expedition arrived safely in Spitzbergen in one plane.

The party did not return to King's Bay by plane, but was picked up by a fishing boat and conveyed there.

It is reported that the expedition reached north latitude 88 degrees 30 minutes, or about 100 miles from the North Pole.

The Government, on the receipt of the news of the arrival of the Amundsen expedition in Spitzbergen, sent Amundsen a telegram with the nation's best congratulations.

The newspapers having a contract with the Aero Club for the news posted the fact of the safety of the expedition in their windows, but withheld the details of the story for Friday morning editions.

A despatch from Stockholm, Sweden, says:—A despatch received here from Oslo, Norway, says the two aeroplanes in which Roald Amundsen's expedition set out for the North Pole on May 21 arrived at Spitzbergen Tuesday afternoon.

The despatch indicates that the members of the expedition are safe and that it is likely a new attempt to reach the Pole will be made shortly.

A despatch from London says:—Captain Roald Amundsen and his comrades returned to Spitzbergen exactly four weeks after he left in his attempt to reach the North Pole by air. Meanwhile no news of any kind had been received from him.

The most interesting feature of Captain Amundsen's trip was his observations from the air at a distance of less than 150 miles from the North Pole, which showed no land in sight.

## MACMILLAN STARTS ON 9TH ARCTIC VOYAGE

### Explorer Will Make Search for Amundsen Before Undertaking Work of Expedition.

A despatch from Boston says:—Amid the din of roaring guns and shrieking marine whistles, Lieutenant Commander Donald B. MacMillan and his little crew sailed from the Charlestown navy yard on the steamer Peary to start officially his ninth voyage into the Arctic.

Just before the Peary sailed, MacMillan outlined his plans to the notables assembled to wish him God-speed.

He explained that his original plan, the exploration of the vast and unknown Arctic tract called Crocker Land, might be delayed a week to permit his expedition to search for Captain Roald Amundsen, who has been lost to the world since he started his Polar flight almost four weeks ago.

If word is not received from the Norwegian explorer by Aug. 1, when the MacMillan expedition expects to reach Etah, Greenland, the northernmost point its ships can go, MacMillan's flyers will begin a search. Amundsen, he said, will have run out of food if he has failed to reach Cape Columbia. He believes that the lost explorer will be found in one of the three places he plans to search.

Amundsen's fate settled, MacMillan's party will fly to the unknown Polar continent to complete their original task. He said that he expected to remain there until the middle of August and probably would return to the United States about September 20.

The three amphibian planes, which the Peary carried on deck when she sailed, will allow MacMillan to accomplish as much in one day as he would in fifteen months if confined to the use of ships or dog teams, he said.

### Dutch Open Pocketbooks to Keep Olympic Games

Holland is determined to be sporting in spite of its government and on the refusal of the Chamber to grant a subsidy of a million guilders for the Olympic Games to be held in that country in 1928; a subscription has been set on foot which aims at one million actual cash and another million guaranty, says a despatch from The Hague.

The whole country has risen to the occasion and with newspaper propaganda and street collections as well as town committees etc., it is likely that the amount will shortly be obtained, though it is a large one for so small a country, especially as there are many other urgent claims at the moment.

### Duchess of York to Unveil National Memorial

London, June 21.—The Duke and Duchess of York will visit York next week. The Duchess will unveil the national memorial to the women of the Empire, consisting of the newly restored "Five Sisters" window in the famous York Minster.

The special glory of York Minster is its stained glass windows, and the "Five Sisters" window, which consists of five stupendous and beautiful lancets (decoratively pointed arches), is perhaps the most glorious feature of the minster.

This raises the principle of whether or not there is land at the Pole, or whether the northern end of the earth lies under the sea.

It is apparent that had fate not dealt the intrepid explorer a head wind he would have come within a few miles of the Pole, if not have reached it in his daring flight. He covered 1,000 kilometres in his aeroplanes, and it is estimated here that with no wind, or a favorable wind, he would easily have covered the 200 more which would have taken him to his goal.

The feature of the absence of land in the polar regions is especially interesting, in view of the discussions of rights of nations to claim the land which may be found.

The message Captain Amundsen himself gives is a thrilling account of the flight, the happy termination of which justifies the confidence which first expressed in the issue of the daring enterprise.

In the first stage of the voyage from which he has now returned, the two flying boats covered the distance of 625 miles in eight hours before being compelled, with half the store of petrol consumed, to come down for the purpose of getting bearings on a water lane cutting through the ice, since no more solid landing place was available. But for contrary winds he could have gone another 120 miles further.

Observations during this part of the flight showed an area of 100,000 square kilometres up to 88.30 degrees north with no sign of land, and they came to the conclusion that no land was likely to be found further north on this side of the Norwegian Arctic Ocean.

Captain Roald Amundsen, discoverer of the South Pole, who has just returned from attempt to reach the North Pole by aeroplane, in which he failed for lack of gas.

### COMPANY'S PROPOSALS REJECTED BY MINERS

#### Cape Breton Workers Oppose Suggested Adjustment of Coal Strike.

Sydney, N.S., June 21.—Major Basil Currie, head of the Provincial police, yesterday laid with Crown Prosecutor M. A. Patterson the formal complaint under which an inquest will be held here on next Friday into the fatal shooting of William Davis, a miner at New Waterford on June 11, in an engagement between miners and British Empire Steel Corporation police. It is expected that about 25 subpoenas will be issued to-morrow for witnesses.

This coming investigation shares interest with discussion of the corporation's proposal for a settlement of the Nova Scotia coal field, being given to the miners through Hon. James Murdoch, Minister of Labor. This proposal has been sent to International President John L. Lewis, of the United Mine Workers, and to the local unions. These latter have had it before them over the week-end for discussion, though not, it is understood, for vote, other than voluntary expression of opinion.

No. 2 Mechanics and Birch Grove locals rejected the proposition, and word from Springfield on the mainland is to the effect that the same action was taken there.

### Dog Presses Horn on Auto As Stranger Approaches Car

Seeing a dog perched on the seat of an empty automobile standing by the curb the other day, a passerby came up to the car with the innocent purpose of patting the animal, says a Paris despatch. No sooner had he approached than the dog efficiently pushed the button of the horn and kept his paw firmly in place until his master came running from a nearby store. It was a protective device which made parking as safe as could well be imagined.

### Condition of Mikado Reported Slightly Worse

A despatch from Tokio says:—The condition of the Emperor who has been physically and mentally ill for four years, is slightly worse, although not dangerous, a bulletin issued by the household department stated.

## PRINCE LAYS WREATH ON KRUGER'S TOMB

### Heir to Throne Does His Part in Smoothing Away all Feeling of Hostility Between Boer and Briton.

Pretoria, June 21.—The Prince of Wales this morning placed a wreath on the monument of Paul Kruger, Oom Paul, who was credited with being the soul of the policy that brought the Boer War of 1899-1902.

He was President of the Provisional Government after the war against Great Britain in 1881, and in 1883 was elected President of the Transvaal Republic. He held that office as long as the Republic stood.

The Prince paid his tribute to the Empire's former enemy without any previous announcement or ceremony. He was accompanied by only two members of his staff.

The climax of his Royal Highness's visit to the Transvaal came last night when Pretoria was superbly illuminated and a symbolic procession was held in his honor. He was being entertained at a dinner given by the Administrator to 250 representatives from different parts of the Transvaal.

The Prince, in the course of a speech, expressed the hope of some day being able to visit South Africa again. "Gentlemen," he declared, "it is no polite platitude when I say I will do my best to come back."

Every building in the city and every window blazed with lights. The procession included scores of floats representing all branches of Pretoria's activities. One of the spectacles was the flight of a military aeroplane beautifully illuminated. The population celebrated the occasion with unbounded enthusiasm.

### Japan Will Start in 1926 on Big Naval Building

Tokio, June 21.—The Japanese Navy Department has decided to start next year on the construction of sixteen auxiliary warships to replace old craft at a total cost of 168,000,000 yen. This additional naval construction program was framed following the Washington Conference, the Tokio Jiji reports today, stating that the navy officials were coerced into additional expenditures to replace the obsolete craft by the extensive auxiliary shipbuilding programs of the United States and Britain.

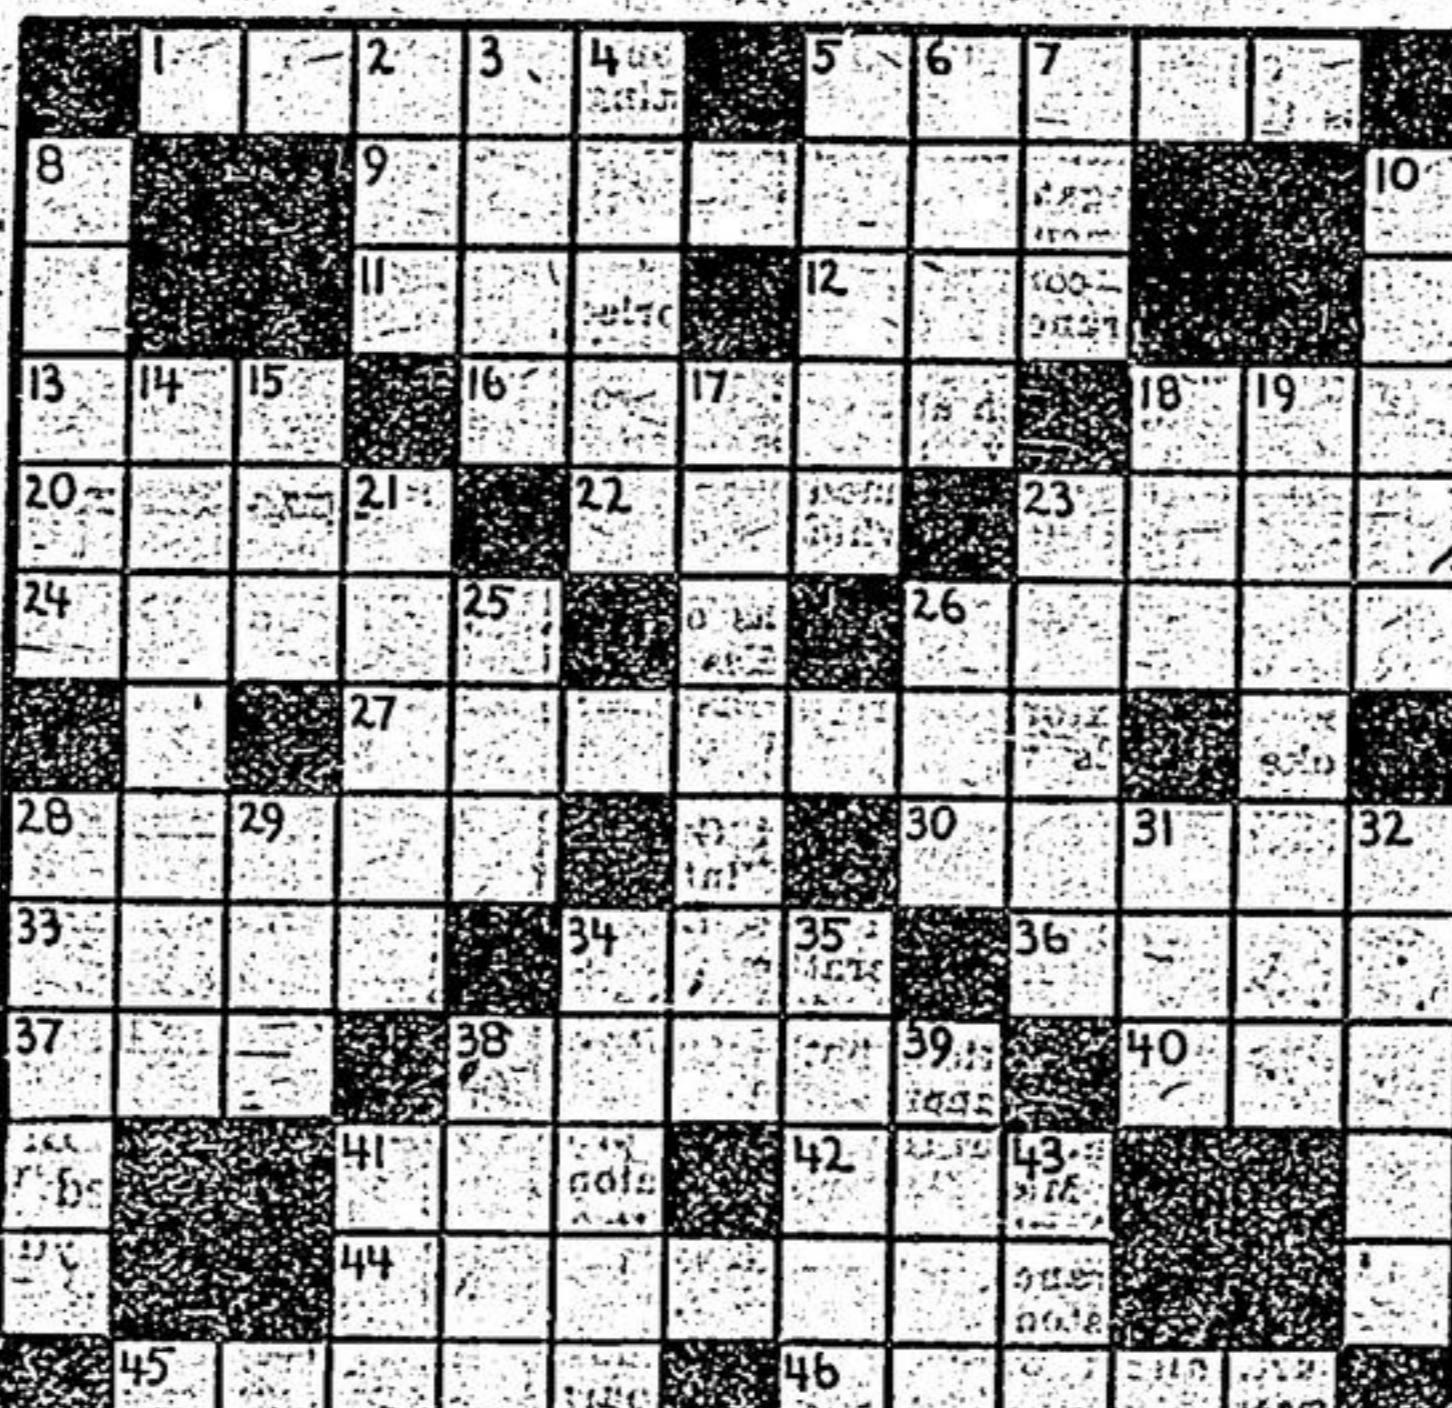

Port Hope, Ont., June 21.—Raymond H. Craig, an employee of the Daily Times of this town, was drowned in Lake Ontario this afternoon when the sailboat he was in with another companion capsized. The boat, a flat-bottomed punt with sail, was the property of Donald Wilson, son of W. F. Wilson, of Port Hope. Craig, who had only been in Port Hope about a week, his home being in Grand Valley, was a son of W. Logan Craig, proprietor of the Star and Vidette.

Fourteen Ages Average 80 and Aggregate 1,120

A despatch from Woodstock, Ont., says:—The report of the House of Refuge physician, Dr. D. M. Sutherland, read at the County Council last week, brought to light a remarkable record of longevity. The report was for the past three months and showed that 14 inmates had died, the oldest of them being 89 and the youngest 69. The majority were over 80. The aggregate of their ages was 1,120 years, making an average age for the 14 of over 80 years.

Another high explosive is made by mixing a busy day and a caller who has plenty of time.

## CROSS-WORD PUZZLE

© THE INTERNATIONAL SYNDICATE

### SUGGESTIONS FOR SOLVING CROSS-WORD PUZZLES

Start out by filling in the words of which you feel reasonably sure. These will give you a clue to other words crossing them, and they in turn to still others. A letter belongs in each white space, words starting at the numbered squares and running either horizontally or vertically or both.

#### HORIZONTAL

- 1—Prayers
- 2—To remove the husk
- 3—Breathes out
- 4—Reciting
- 5—Land measure of 100 square meters
- 6—A bench
- 7—A salute
- 8—An age
- 9—Continued in an inactive state
- 10—For shams
- 11—Rearred
- 12—To bar
- 13—A kind of cloth
- 14—Discloses
- 15—Wild creature
- 16—Loud shouts
- 17—To impel
- 18—A basic industry
- 19—Narrative
- 20—Suffice same as "in"
- 21—Slumber
- 22—Coloring matter
- 23—Sorrowful
- 24—Sheltered condition
- 25—Funeral song
- 26—Dust
- 27—Crew
- 28—Fish without ventral fins
- 29—Central line
- 30—A bundle
- 31—A drudge
- 32—Man of courage
- 33—To utilize
- 34—A fruit
- 35—Rank
- 36—Oriental
- 37—Sagacity
- 38—Pedigree
- 39—To do wrong
- 40—In royal manner
- 41—The Scandinavian language
- 42—Surrounded
- 43—To fondle
- 44—Constructed
- 45—To grow old
- 46—A boy
- 47—Shabby
- 48—A genus of plants
- 49—Moments
- 50—Business transaction
- 51—An equal
- 52—To fasten with thread
- 53—Point of compass (abbr.)

#### VERTICAL

- 1—Good
- 2—Food
- 3—Dry
- 4—Clever
- 5—Vodka
- 6—Frolics
- 7—Bosom
- 8—An equal
- 9—Doom
- 10—Admiral
- 11—Cognac
- 12—Dove
- 13—Lorina
- 14—Wonders
- 15—Ages
- 16—Tennessee
- 17—Lake
- 18—Heat
- 19—Ideal
