EDITORIAL COMMENT

The Municipal Act, which formerly made it necessary for a municipal candidate to resign as school trustee ten clear days before nomination, has been amended to allow the candidate to qualify if he resigns three clear days before the nomination.

A wheat yield of 350,000,000 bushels for Canada in 1925 is estimated by the Dominion Bureau of Statistics is a crop report issued recently. The figure is based upon the acreage of last year, and according to reports received by the bureau to date the area sown this year is approximately the same as last. A yield of 350,000,000 bushels would be ten million bushels above the average of the past five years. Splendid rains have fallen this year, during the critical period of growth and should favorable conditions continue the yield may well be considerably larger than that indicated. "The practical elimination of the United States as an exporting country next year," states the report, "points to a likelihood of the maintenance of good prices from which Canada should benefit to the extent of her exportable surplus."

Walkerton Telescope: "More and more it seems that the old-fashioned custom of spending Sunday quietly and going to church and Sunday school is being thrown aside by many otherwise careful living people in favor of the pleasures of the auto. To get the wife and children in the car and sail away for a pleasant holiday is the idea now. It is not the children but the parents who are responsible for this new-fangled way of spending the Sabbath. It means a good time for everybody, but the old-fashioned Sunday is sacrificed. The old training that taught restraint and that the careful following of certain duties in life as being essentials to good citizenship are becoming, it would seem, relics of the past. We are moving on to something different, but is it something better? What our future citizens will turn out to be depends upon the training the children of the present day are receiving in the homes. The responsibility rests upon the parents. Will the coming generation outdistance the last in character and worth? We hope so.

MARKHAM TP. COUNCIL

Council met at Unionville on Monday, July 6th, with all the members present and Reeve Gonn in the chair. Communications were received from:

Chas. Bachley, claiming damage for automobile accident on Whitchurch townline between Gormley and Yonge street. He claimed his car had dropped into a hole in the road and upset, wrecking the auto. Mr. Bachley was badly shaken up and bruised but no bones broken. The car was a Reo, 1914 model.

The Department of Public Highways sent a summary statement of the road expenditure for 1924 and the Government subsidy to be allowed thereon as follows:

Road construction	\$21,395.71
Maintenance and repairs	2,796.993
	24,192.01

Am't of grant, 20% 4,994.40
Mr. R. J. Rogers, Agricultural representative for York County, wrote, asking for a grant of \$20 for school fair.

Jonathan Nigh was heard asking the council to put in a culvert at his lane. The highway commission had drawn the gravel for same and ready to commence work when the 6th from Unionville north was abandoned and the engineer ordered the work stopped. The ditches of the hill also needed cleaning out to protect the roadway from washing out. The council agreed to place a new culvert in position if Mr. Nigh would supply the pipe, and instructed Road Superintendent Thompson to have the ditches opened and put in the culvert.

Abram Raymer was heard asking for an increased grant for gravelling the 9th con.

A deputation from Gormley headed by Deputy Reeve Leary of Whitchurch was heard. They asked for a grant of \$500 (the same as Whitchurch had made) to gravel the townline between the 3rd con. and Yonge street. Mr. Leary explained that there were some dangerous spots caused by washouts. Mr. Homer Wilson was also heard, as was Eldor Helse and Mr. Geo. Hoover. The Reeve and Mr. Campbell were appointed a commission to go over the road and report at next meeting of council.

The Reeve explained that he let the contract as authorized to H. H. Powers to build bridge at lot 17, con. 9, and this resolution was passed

confirming same. Moved by Mr. that the tender of H. H. Powers for constructing bridge at lot 17, con. 10, at \$4770 be accepted, and the seal of the corporation be attached to this resolution.

Grants were made to Markham Agricultural Society of \$100 and to Markham School Fair of \$20.

The Reeve reported that he had purchased two new road scrapers for \$20.

The following general accounts were ordered paid:

Metallic Roofing Co. culvert	\$290.20
Wm. Keith, premium on treas. bond	40.00
Stouffville Tribune advt.	34.96
Pedlar People, culverts	291.20
G.A.M. Davison, stamps	8.00
General Supply Co., repairs for stone crusher	2.65
G.A.M. Davison, gas and oil for crusher	9.84
Thos. Meredith & Co., 2 road scrapers	26.00
T. Meredith & Co., rep. to crusher	5.15
R. J. Cunningham, 9 yds stone at 50c. and 44 yds gravel at 25c.	15.50
A. Duncan, 498 yds gravel	124.50
Eric V. Thompson, labor on stone crusher, teams &c.	964.50
G.L. Paterson, rep. to grader	4.25
Can. National Express, express on bridge steel	2.04
Bains & David, steel for bridge	33.33

Payment of the following road account was ordered:

Div. 1—L. Middleton per statement	\$ 414.70
Div. 2	1086.90
Div. 3	
R. A. Smith, account	25.50
R. F. Lotton, account	600.50
Div. 4	
David Shadlock, account	365.70
A. Raymer, account	454.29
H. C. Reesor, account	191.55
Div. 5	
David Graham, account	349.49
J. Williams, account	742.69

The Reeve was appointed a commissioner to award tenders for digging Allen ditch as soon as he received word from township solicitors

on a technical point. Mr. McVicar from the Highways Department, was heard and gave the council a talk on road making and the way the money spent on roads should be accounted for, such as the price set per yard for haulage of gravel and a detailed statement of expenditure from the road foreman to the road superintendent and by him to the council, who must carefully check over all bills. Unity of action and painstaking judgment were required. Mr. McVicar had some 50 odd townships to look after and with the exception of one or two of these the progress for the better had been very marked. He said the crown of the road should be from one-half inch to one inch to the foot, and the metal should be thickest on the sides where the wheel tracks were, for the reason that automobile traffic has largely superseded the horse and there was now little wear in the centre. He advised that the township should not be divided into divisions, but that the superintendent look after it all with the council as advisers.

Council adjourned to meet on Tuesday, August 4th.

GOODWOOD

Wedding bells are ringing. D. J. Foskett has installed a radio. The infant child of Mr. and Mrs. Ed. Norton, died last week.

Miss Jessie Harper is visiting relatives in Toronto.

Mrs. Ralph Fockler of Montreal, is visiting Mr. and Mrs. Thos. Morganson.

Mrs. Levi Pugh and family of Warwick, Alta., are visiting her brother, Henry White.

Glad to report that Wm. Whittleton is much improved and able to sit up.

Walter Cooper, wife and family are visiting his sister in West Field, N.Y.

Miss Olive Redmond of Belleville, is visiting her sister, Mrs. Howard Harper.

Remember the fast football game!

next Thursday night between Pickering and Goodwood.

Peter Vanhorne is visiting his brother in Walkerton, who has been in ill health for some time.

Miss Dorothy Bullino and brother, Kenneth, spent the week end with their grand parents, Mr. and Mrs. Middleton.

The annual Baptist picnic was celebrated at Musselman's Lake last Thursday, the day being a real one which every one enjoyed.

Miss Nellie Card of Bloomington, Miss Florence Kester, Toronto, Miss Florence McNair of Altona, Mr. and Mrs. Maloney of Detroit, Mr. and Mrs. Bryant and son of Ashburn, guests of Mr. and Mrs. Chas. Harper.

The L.O.L. waited at Beaverton on the 11th, about 50 strong. Goodwood banner was the best in the parade. The banner girls put the finishing touch on it, and were given much applause. Dr. Middleton and H. Roach, Sr. staged this arrangement.

KNOWLEDGE REACHES US THROUGH THE EYE

All through our life, much of our enjoyment and most of our knowledge has been gained by active use of the eyes.

We use our eyes so constantly, we neglect them so shamefully that the slightest defect, if let go, can become a very serious matter affecting our whole lives.

A little attention now may work wonders. Why not let us examine your eyes this week?

Diamonds, Watches, Clocks, Jewelry and Cut Glass. We do Watch Clock and Jewelry repairing.
