EDITORIAL COMMENT

Walkerton's tax rate is 52 mills—3 lower than last year. Time for a change.

Aurora has engaged a public health nurse at a cost to the council of \$126. The Ontario government makes a grant to offset a portion of this cost.

Thornbury school received 78 applications for two vacancies on the continuation school, and 91 for a public school position. The paper and envelopes of all the applications weighed four and a half pounds and the postage totalled \$5.13.

There were no less than 1500 students who passed the Normal school examinations this year, and were thereby added to the school teaching profession. With the field already overcrowded, girls might reasonably turn their attention to matrimony instead of to school teaching.

Thirteen head of stray cattle were sold by public auction at the market square in Newmarket last week, because the owner did not claim them after the prescribed advertising. John Boag of Queensville, outbid for the lot for which he paid \$218.50, which seems quite a bargain price. It seems very strange that the owner of the cattle did not claim them.

It is reported that Herb. Lennox or Jack Armstrong, more likely the former, will be the Conservative candidate in North York at the next Dominion election, which the opposition insist will be this fall. The government, however, have made no such announcement, and the election date may not be set until after another session of parliament. Armstrong is the defeated candidate with whom Hon. Mackenzie King, prime minister, made such a notable run in 1921.

Mrs. Grace McKinnon, Hepworth's oldest resident, handed an item, in the other day which, says she, is real news. Biddy was faithful to her duty for two weeks when she became ill and left the eggs. Mrs. McKinnon brought them into the house put them in a basket under a cane bottomed chair, put a lamp under the chair too, and the result was seven chicks hatched out and all are doing well.—O.S. Sun-Times.

GOODWOOD

Miss Irene Harper is camping on Georgian Bay.

Miss Greta Lee of Toronto, is visiting Miss Minnie Stewart.

Daniel Baker, wife and daughter of Toronto, visiting friends here.

Master Elwood Jones of Toronto, is visiting at Wm. Whittleton's.

Mr. and Mrs. Goodrich and F. Watson of Toronto, visiting at Mr. F. Woodland's.

C. Harper, wife and family of Hamilton, visited old acquaintances here over the holiday.

Bert Sharpe, wife and family, are summering in our village in the home of the late Miss Edith Pugh.

We understand Manchester football team have withdrawn from the league and will play no more league games.

Mr. and Mrs. David, Miss Myrtle, and Chas. Watson motored to Jackson's Point to visit Miss Millie Watson.

Miss Minnie Sellers and F. Aspinall of Toronto, visiting her parents for the holiday.

Fred Robinson, Miss Helen and Louie Robinson, motored to Jackson's Point on Sunday.

Mrs. F. Slack, Mrs. H. Roach, sr. visited their cousin, Brook Alsop of Gilert, who has been ill.

The first round of the Ontario League cup games will be played at Claremont, Monday, Aug. 10th, at 6 o'clock, with Pickering and Goodwood.

Peter Vanhorne and Mrs. Isaac Wagg attended the funeral of their brother in Walkerton on Tuesday. They are the only two left of a family of ten.

Mr. and Mrs. Lorne Reesor, Mr. and Mrs. Harmon, Mr. and Mrs. A. Stepp and family of Toronto, John Baston of Chicago, visiting Mr. and Mrs. Thos. Baston.

In drilling a well Wm. Foster had the good fortune to strike water at 87 feet. It pumped for six hours on Saturday at the rate of 250 gallons per hour and no let up to the flow. The drilling was done by Gable and Graham of Ringwood.

Mrs. Goldie James and Mrs. R. James were in a great way Monday night to get their hair trimmed, owing to the absence of the local barber. Finally they secured a substitute, and were able to go home happy.

A citizens' meeting was held last Monday to consider the purchase of 5 acres of land from W. T. Robinson

as a community field. This is where the ball games have been played this summer. A committee was appointed in the person of Dr. Darling, Thos. Armstrong, John Ashenhurst, H. Roach and Geo. Todd to interview Mr. Robinson and also to ascertain the best way to purchase and obtain the government grant.

On August 1st at Goodwood, 1500 people witnessed a very interesting game of football between Goodwood and Claremont. The play was closely contested. Balsdon kicked the only score in the first half, making it 1-0 for Goodwood. In the second period Ralph White scored 2 more goals, making the score 3-0 for Goodwood. Claremont tried hard to get a score, but they failed. Miller was right there and has only had 5 goals scored on him this season. Our team have now won the South Ontario League.

A BILLION LETTERS YEARLY HANDLED BY POSTAL DEPT.

As we rush to the post office and drop in a letter, few stop to think of the huge business carried on by our postal department.

The post office department is the biggest single business in Canada—at least it has the widest reaching span and the most intricate number of details to be looked after. The estimated number of letters, post cards, parcels, circulars, etc., carried in Canada's mails last year was 1,200,000,000 and the expenditure of the post office department aggregated \$28,305,946.57, while the net revenue of the department was \$29,100,491.92, showing a profit of \$794,555.35. With the exception of 1915 and 1922, when there were deficits, the department has had a substantial surplus ever since 1902. This speaks well for the efficient management of the department and the ability of the civil servants who constitute its personnel.

There are about 12,300 post offices in the country, stretching from the farthest northern points to the United States border, and from the Atlantic Ocean to the Pacific.

CLAREMONT

James Evans is busy improving his residence.

James and Mrs. Brisloe intends taking a trip to Brampton to visit the latter's niece.

W. H. Shaw and the editor of The Tribune were in the village on Friday on a secret mission.

Mr. and Mrs. Cook, sr. also Mr. and Mrs. Cook, jr. and two children and Ernest Cook, all of New Hamburg, are visiting with Stanley and Mrs. Cook for a few days this week.

SUPPLY AND DEMAND

There is a wild grape vine trailing around the eaves of an open porch over my back door. A few years ago a pair of robins built their nest on the grape vine directly opposite the door and started house-keeping there and have returned every spring since then. They are there this spring, as usual, and when the doors are open, you can sit in the house and watch them at work without disturbing them, as the nest is on the grape vine six inches below the eaves and directly in front of the door.

Sitting in the house the other afternoon watching them, I got a bit of paper and kept tab on them. The old birds fed the young once every six minutes, ten times in an hour and you could see the old bird giving each one its share every visit. There are at least three young ones in the nest, so that the old bird brought three or four worms or bugs every visit, and this goes on from daylight till dark these long days—17 hours a day. 3 bugs a trip, 10 trips an hour, 17 hours a day and no kick about long hours, 500 bugs a day, and if the two old birds consume as much, which is a reasonable estimate, 1000 bugs a day, and as this has been going on for the last month, 30,000 bugs a month. What an army of destruction put out of business by two small birds in a month.—John Malcolm in Fergus News-Record.

PUBLIC NOTICE

MARKHAM TWP. FARMERS

Farmers are herewith advised that the Municipality keeps a Chemical Fire Fighting Engine with full equipment, located at Unionville, for the benefit of the farmers of this Municipality.

Residents of the Twp. in case of need, should telephone Unionville Central, being sure to give details of where the fire is. Adjacent buildings may be saved by taking advantage of the Municipal Engine.

By request

KNOWLEDGE REACHES US THROUGH THE EYE

All through our life, much of our enjoyment and most of our knowledge has been gained by active use of the eyes.

We use our eyes so constantly, we neglect them so shamefully that the slightest defect, if let go, can become a very serious matter affecting our whole lives.

A little attention now may work wonders. Why not let us examine your eyes this week?

Diamonds, Watches, Clocks, Jewelry and Cut Glass. We do Watch Clock and Jewelry repairing.
