VICTORIA SQUARE

Alf is now on the anxious seat. Miss Irene Fry of Markham, was over for the corn roast.

The rainy spell has hindered farm work, but the moisture was badly needed to make plowing go. Two of our young men say, if the deluge had continued, they had a place spoken for in Noah's Ark.

The W.M.S. program, given by Miss Pearl Newton, Toronto, assisted by Miss Haig, Agincourt, and Mr. Wall of Richmond Hill, was enjoyed by those who braved the weather conditions.

Thursday evening the young people held a corn roast at the Devil's Elbow (just a name for the turn in the road in the fifth concession.) There was the usual menu and some sport. The chief entertainment was by Mr. Wall singing and playing the Ukelele. There was a spell of weather afterward.

Homes are cleaner now than a generation ago, claims a magazine writer. Sure! They're used less.

VIVIAN

Mrs. Mitchell and Miss Gertie Mitchell are spending a couple of weeks with relatives in Toronto.

Miss Mary McCormick has left the good old farm and has entered upon a more prosaic, but useful life of a nurse. Miss McCormick is in the Western Hospital, Toronto, where she will receive her training.

Mr. McCormick has, this week, girded on his sword for the great political battle to come. These are nice cool days for political soldiers to learn how to handle the weapons of this peculiar warfare, and this may reduce some of the heat which these strifes, sometimes, are liable to produce.

The roadwork is progressing very nicely along here; already about a mile has been graded and one car of stone has been laid; the change in the road is already worth while to look at.

We count again a house less in our community and with that house probably also a family less. Wednesday night at about 2 o'clock in the morning, at a time when we usually like to sleep and slumber away without being disturbed, either by dreams or fires, or indeed by anything excitable, we were roused out of our sleep by the ringing of the telephone, announcing that Mr. Pugsley's house was on fire. Some of us that were first on the job managed to rescue part of the contents and, of course, in the usual way when you have to snatch away pieces of furniture from a burning house that threatens to tumble down at any time, a table minus a leg, a sofa, a sideboard, or mirror and the books of the little library thrown all over the dewy pasture for a length of ten rods. Mr. Pugsley, who was alone sleeping in the house was just able to escape in time. There was no insurance on neither house, nor its contents. This is the 4th house that has burned here during the last five years.

S. J. Collacutt is taking large bus loads of Pickering residents to Niagara Falls. He leaves Pickering in the afternoons in order that the beautiful sight of the illumination of the Falls at night might be enjoyed by his patrons.

The Greatest Service— The Least Attention

There's no piece of farm equipment that gives so much service over so long a period with so little attention as a good windmill. That's why I recommend the Toronto Self-Oiling Windmill so highly. Lots of Toronto Windmills have given from eighteen to twenty years' service with practically no attention outside an occasional oiling and are still operating satisfactorily every day.

In the Toronto Self-Oiling Windmill all gears operate in a bath of special oil affected by neither heat or cold—every bearing thoroughly and automatically lubricated. New oil is required "only once a year."

If you already own a Toronto Windmill, I can give you the self-oiling feature by merely interchanging the head and using your present wheel. Most Toronto Windmills, too, can be made absolutely self-regulating in operation.

The "Toronto" Tower will stand for a lifetime, because it is the heaviest, strongest and best-braced one built for any windmill.
