THE LATE O. O. BENNETT
There passed away at Sunnyside Farm, Claremont, on Tuesday morning, Oct. 20th, 1925, Charles Otis Bennett, beloved husband of Matilda Lyle, following an illness of some duration. Deceased was a son of the late Thos. Bennett, who for many years conducted the Mansion House at Uxbridge. About 20 years ago deceased took up farming, which occupation he followed more or less until the time of his demise. The circumstances surrounding his death are particularly sad. Owing to ill health Mr. Bennett had decided to dispose of his herd of Shorthorns by auction on Thursday, Oct. 22nd, and from his sick bed had directed the arrangements for the sale, and it was his ambition to see it to a successful conclusion. The great summons intervened, however, and Mr. Bennett will be laid away on Friday, the day following his intended sale, which has been postponed until Tuesday, Nov. 3rd. The late Mr. Bennett was a man of particularly genial disposition, and enjoyed a large circle of friends. Besides his good wife who was Matilda Lyle before her marriage, he is survived by three daughters, Mrs. Spence of Toronto, Mrs. Soden of Claremont, and Mrs. Geo. Miller of near Winnipeg, who came home for the funeral. Mrs. Miller is a sister-in-law to Mr. Robt. Miller of Stouffville. The late Walter Bennett of Pickering, who passed away about two months ago, was a brother. The funeral on Friday will take place to Claremont Union cemetery, following divine service at the house at 2 o'clock.

Conditions in Canada Were Bad in 1921

WHY ?

There were GOOD CROPS that year but NO MARKETS and EXCESSIVE FREIGHT RATES. What did Premier Meighen do to relieve the situation? NOTHING, as usual.

CONDITIONS IN CANADA TODAY

are good and steadily improving. WHY ?

FREIGHT RATES have been REDUCED, the **CATTLE EMBARGO** removed, **NEW MARKETS** opened, and the people can buy manufactured goods. The Tariff Reductions have improved trade and have not been excessive enough to Injure Industry.

WOOLEN MILLS are running double time in many towns, such as Renfrew and Simcoe.

SHOE FACTORIES are busy, **IMPLEMENT FACTORIES** running full time, all because Agriculture is prosperous.

PREMIER MACKENZIE KING by wise policies of retrenchment and **TRADE DEVELOPMENT** has lifted Canada out of the **SLOUGH** of **DESPOND** in which Premier Meighen left it.

Mr. Meighen's cure for **TRADE DEPRESSION** is **HIGH PROTECTION**. At least his election cry.

Even Mr. Meighen knows the folly of such a policy, because in 1920, when he was Prime Minister, and on May 25th that year he spoke in the House of Commons as follows:

"We never can have a high tariff in Canada. We cannot have a high tariff in Canada for obvious reasons. In the first place a high tariff is unsound in principle in that it tends to eliminate one of the factors of competition, namely foreign goods. Foreign goods must be allowed to enter into competition under fair conditions in this or in any other country. But the conditions under free trade or without protection are such that

the foreign competitor has every advantage. "So I say we cannot have any immoderate or high tariff for the reason, first, that it tends to exclude that healthy element of fair conditions, namely, foreign competition; secondly, we have in Canada a territory of wide extent. We have one portion of Canada, newer than the other portion, a more predominant

ly agricultural character to manufacturers and industrial development, and consequently the advantages of the tariff do not accrue to them as they ultimately will accrue to them. They come immediately to one portion of this country than to another. In view of these two reasons we must always have in this country something more than a moderate tariff under any conditions.

Maintain the **STEADY PROGRESS** of **PROSPERITY** in **CANADA** by voting your

Vote for Rt. Hon. W. L. Mackenzie King, who demonstrated that he understands how to govern this country
