On the Crest of Every Hill

—opens a panorama of beauty unexcelled

Stretching off below is a country of woodland or farmland—perhaps a river stealing through—perhaps a placid lake—perhaps a nestling village or busy industrial town. But everywhere is beauty, variety, colour.

Stop and enjoy such scenes as you motor through Ontario. Look on them as you would enjoy paintings in a picture gallery.

By driving moderately, you will derive far more enjoyment from motoring. Half the delight of country driving is lost through excessive speed.

The highways are yours. Do your part in taking care of them. The cost of repairs and renewals will fall on you and other motorists. Excessive speed grinds road surfaces. In your own interest, therefore, as well as for your safety and pleasure, keep within the speed law.

Those who are careless about speed limits are reminded that a numerous traffic patrol is rigidly enforcing the speed law on all highways.

THE HON. GEO. S. HENRY, Minister of Highways S. L. SQUIRE, Deputy Minister

Issued by the Ontario Department of Highways to secure the co-operation of motorists in abating the abuse of the roads of the Province.
