Early Coughs

September with its warm days and cool nights, marks the start of the cough and cold season and foolish indeed are those who neglect these early coughs.

NYAL CREOPHOS

will relieve them promptly and build up strength for the forthcoming winter. Our advice is to fortify the system now with creophos so you can face cold weather with assurance of good health.

BIRTHS
Rexlin—In Stouffville, on Sept. 17, 1926, to Mr. and Mrs. Benj. Rexlin a son.

DEATHS
Elliott—At the Hospital for Incurables, on Thursday, Sept. 23rd, 1926, Thompson Elliott, formerly of Ballantrae, Ont., in his 74th year. Service at Norman A. Craig's funeral parlors, 1255 Queen St. west on Saturday, Sept. 25th, at 3.30 p.m. Interment in Prospect cemetery.

IN MEMORIAM
Manna—In loving memory of Mable Yake, who left us three years ago today. "Oh, for the touch of a vanished hand and the sound of a voice that is stilled." Ever remembered by Father, brother Adam and Ted.

IN MEMORIAM
Morden—In loving memory of my dear husband, Wm. J. Morden, who died October 3rd, 1922. One from us, but leaving memories that can never take away, memories that will always linger while upon this earth we stay.
Wife and Son.

ray—In loving memory of W. J. Gray who passed away on October 3rd, 1925. We watched him suffer day by day. It caused us bitter grief, to see him slowly pine away. And could not give relief, while the midnight stars are gleaming.
On a lone and silent grave, beneath it, sleeps the one we loved. The one I could not save. His weary hours, his days of pain, his troubled nights are past; his ever-patient, worn-out frame has found sweet rest at last.

UXBRIDGE RETAINS DEPUTY REEVESHIP

Only Seven Names to Spare

While Markham and Whitchurch Townships hadn't a single appeal against the Voters' lists as prepared by the municipal clerks of the respective places, over in Uxbridge Township no less than 75 appeals were filed, which were dealt with at a Court of Revision held in Goodwood on Friday last. His Honor Judge Ruddy presided.

An effort was being made by some ratepayers to reduce the numbers of names on the Voters' lists, so that the municipality would not be entitled to a deputy-reeve at County council. To do this only 35 names needed to be removed. Of the 75 appeals, 56 were to be struck off and twenty added. The judge allowed thirty-one to be struck off, while those interested in adding more names to the list succeeded in adding nine. This left the Township with 1007 names on the list of those who go to make up the jury list, or just seven more than the minimum number, required to entitle the township to a deputy-reeve.

THE LATE JAS. A. MILNE

Following only three or four days illness, the death took place on Friday, Sept. 24th, 1926, of James A. Milne, in his 75th year, at the home of his son-in-law, Mr. Milton Harris, east of town. The late Mr. Milne was a native of Pickering Township being born near Atha, a son of a well-known blacksmith of three-quarters of a century ago. When a young man he acquired a farm on the 4th concession of Uxbridge, just north of Clarendon, where he lived a long and happy married life. He enjoyed a splendid constitution and was seldom anything but healthy. Mr. and Mrs. Milne were faithful attendants at the Clarendon Presbyterian church, where the deceased was honored by being one of the elders for many years. Nine years ago Mr. and Mrs. Milne retired from active farm work, and for eight years have lived with their only daughter, Mrs. Harris, who with the widow are the sole survivors. The funeral on Monday afternoon from the late home in the tenth concession of Markham, was attended by many old friends of long standing. Rev. A. McLellan of Clarendon and Rev. H. S. Warren of Stouffville, conducted the funeral service, and interment took place at Stouffville cemetery.

TURNIPS 37c. BUSHEL.

The turnip crop throughout Ontario which is said to be only about 50% of normal years, owing to life having killed out so many fields, is rated as good as 75% in the Stouffville area. In the area immediately north of Stouffville the ravages of the lice almost completely destroyed the entire crop while west of town they destroyed one field and left another. Other areas escaped entirely. The U.F.O. farmers shipped their first carload last week from Stouffville station for this season, and they expect to receive a net price of 37c. per bushel. Another car was started on Wednesday this week, which will likely realize 34c. to the farmer. For those with half a normal crop, the increased price will compensate them for their loss.

MARKHAM FAIR.

In its long and creditable record of more than 50 years it is questionable if the directors of the Markham Fair have ever offered a more attractive program than that of next Friday and Saturday, the dates of their annual show. On each of these days there will be six events in the trotting ring, including steeplechases, running races, pony and trotting events. On Friday afternoon, Hon. John S. Martin, Minister of Agriculture will formally open the fair, and will attend the directors' banquet, to which a number of prominent county and city guests have been invited. From reports received by the directors, and entries received the show as a whole will surpass the best hitherto held. G.A.M. Davison of Unionville, is president, and Roy Crosby secretary.

LOCAL GRAIN MARKET

Considerable interest is centering around the local grain market which is commencing to move, now the harvest season is about over. Alsike is causing the greatest sensation, and any farmer with a good crop is able to make a real scoop with this grain. Local market price is \$15 to \$15.50 per bushel, which is the highest point reached, since war days. Ambrose Lewis of Markham Township, had a splendid crop, and his pay check when he brought in the grain was \$1700 from the local buyer.

Alfalfa, which earlier in the season promised to return from ten to twelve bushels to the acre, is threshing out at eight bushels to the acre. The price of \$10 per bushel is so high, however, that any farmer with this seed for sale, is being compensated for any shortage through poor weather, by a good stiff price. Wheat is bringing \$1.20 to \$1.25 bushel, and sweet clover \$5. These prices on the local grain market are extra high, and will help compensate the farmer, against some of his other losses this past season.

MILK PRODUCERS ASK \$2.20 FOR 8 GALLON CAN

At a large attended meeting of the milk producers of Ontario held in Toronto, it was decided to raise the price of milk from \$1.95 per gallon can to \$2.20. 60 from out of 65 dairies agreed to the increase. The Farmers Dairy Co., alone refused to accede to the demands of the producers. Of the thousand or more producers present the large majority were in favor of withholding milk supplies from city dairies until their price demands have been met. The increase price will mean that consumers in Toronto will receive only fifteen pint tickets for \$1.00 instead of sixteen as at present.

Hon. Geo. S. Henry, who is president of the Farmers Dairy Co., admitted that the producers had good arguments in their favor but thought that the price of butter and cheese did not warrant any increase in the price of milk at present.

It was pointed out by the producers that winter feed would be scarce owing to the poor harvest weather, much of the late crops not being worth harvesting now owing to the excessive rains.

The increased price will be effective from October 1st to May 1st next.

HOW TO GROW ROSES

The Horticultural lecture given by A. H. Moore in Ratcliff's hall on Friday evening was greatly appreciated by all those who were fortunate enough to be present. The lecture was brimful of useful information, put in such a way that all could understand, the delivery was excellent and the great variety of colored views were all that could be desired.

The following are a few of the points gathered from Mr. Moore's comprehensive treatment of his subject:

(1) Roses require a cool, moist soil, from 50 to 75% of clay. Dark colored soils are too warm and sandy soils are short on moisture content.

(2) Soil should be prepared in Sept. or Oct. previous to planting, and should have fresh cow-manure dug in deeply. Only well rotted manure should be used in case of spring fertilizing. Horse stable manure should be avoided as it generates heat in the soil.

(3) The surface should be kept cultivated to admit air and moisture and encourage the work of nitrifying bacteria.

(4) Hybrid Teas and Hybrid Perpetuals are most desirable for our purposes, being hardy, profuse and perpetual.

(5) The roots of nursery stock should always be placed in water for a few hours before planting, and plants that appear shrivelled and beyond recovery can be fully restored by being entirely buried in moist soil for a week or more.

(6) In planting, the roots should be given ample space and spread to radiate in all directions. The moist soil particles should be brought into close contact with every rootlet.

(7) The point of junction of stock and scion should be two inches below the surface of the soil.

(8) Thoroughly saturate the soil after planting.

(9) Hybrid Teas should be spaced 2' apart each way and climbers at a minimum of 8'.

(10) Failure to prune severely is the outstanding fault of amateur rose growers.

(11) The weakest bushes require the severest pruning as this encourages greater vigor in the plant.

(12) Pruning should be done to within 2 or 3 inches of the point of grafting.

(13) The Hybrid Teas require more drastic pruning than the Hybrid Perpetuals.

(14) In the case of climbers the third year canes should be cut out immediately after blooming, also the weaker growth of this year should be cut out in the early spring leaving about six strong canes.

(15) Never hollow the surface of the soil about the bush, as damage in winter will result.

(16) For insect pests on roses hellebore, four and paris green in the proportions of 4 to 4 to 1 was recommended.

(17) For mildew, liver of sulphur, 1/2 oz. per gal. of water.

(18) For blackspot, 1 1/2 oz. sal-soda to 1 gal. of soapy water. Bordeaux mixture is also highly recommended.

Mr. Moore waxed eloquent when dealing with the moral and spiritual values of Horticultural endeavor and lauded as being among the world's greatest benefactors to those who give God an opportunity to increase human happiness through the wondrous beauties he has stored up in nature for the enjoyment of man.

SUES YORK COUNTY

The County of York, T. H. Lennox, K.C., M.P., and Roberta D. Choppin were named as defendants in a suit was tried before Chief Justice R. M. Meredith, in non-jury assizes, in which S. F. Doan claims payment of \$1,218.43, balance alleged owing on a purchase by the municipality of the Industrial House site at Newmarket. Plaintiff says that the money asked for was paid by the Municipality to defendant Lennox who, Mr. Doan avers, says he paid it to the late H. E. Choppin. Plaintiff testified that he had approached Mr. Choppin who was paying off the accounts in connection with the purchase for York County but that the balance asked for had not yet reached plaintiff.

Chief Justice Meredith on Tuesday, awarded judgment in favor of S. F. Doan against the County of York for \$1284.43. The action against T. H. Lennox, K.C., and Roberta Choppin was dismissed.

The late Mr. Choppin was said to have handled the affairs pertaining to the sale as solicitor, and the matter was alleged to have been transferred to Col. Lennox upon the former's death. Col. Lennox having been a partner. His Lordship found that defendant Lennox had handled his end of the deal fairly.
