## Here and There

Fifteen head of shorthorn stock owned by the Prince of Wales at his ranch near High River, Alberta, were purchased for the Kirkwood Farm in California, according to an announcement made by Prof. W. L. Carlyle, manager of the Prince's ranch.

Canada's largest muskrat ranch is now being established at Swan Lake, about 40 miles west of Quesnel in central British Columbia. There are about 4,000 muskrats on the farm now and it is estimated that the ranch will eventually have an annual output of 50,000 pelts.

The S.S. Emperor of Port McNicol, purchased by the Canadian Pacific Railway Company and renamed the S.S. Nootka, sailed from Montreal recently for Newfoundland and will thence proceed to Vancouver via the Panama Canal to join the Canadian Pacific coastal fleet. The Nootka will be operated on a cargo service between Vancouver and Skagway, Alaska.

Edmonton.—The first plant in Canada, outside of British Columbia, for the freezing of fish, poultry and eggs under the Ottosen process, will be operating in this city by June 1st, according to P. Johnson, managing director of the Johnson Fisheries, Limited. His firm paid \$10,000 for the rights of the territory. The initial capacity of the plant will be fifteen tons a day.

Victoria.—The new drydock just completed at Esquimalt, Victoria, is the second largest in the world and only 29 feet shorter than the Commonwealth dock at Boston. This giant dock, hewn out of solid rock, cost \$6,000,000 and measures 1,160 feet long, 149 feet wide at the top and 125 at the bottom. Its depth is 49 feet 5 inches with 40 feet of water in the sills at highwater. The dock will take the largest ship afloat.

The shipment of Canadian apples to England and to many centres on the Continent is expected to be heavier this year than ever experienced, according to J. R. Martin, manager of the foreign freight department of the Canadian Pacific Express Company. About three years ago the practice of sending Canadian apples to the Old Country as Christmas gifts became popular, and the shipment each year have correspondingly increased.

Facilities at the Eastern Public Cattle Market in Montreal have been augmented by the addition of a new export cattle building, which was opened recently. This new building is considered one of the finest of its kind on the continent and has accommodation for 50 carloads of cattle. By the arrangements of 25 cattle chutes on each side of the main alleyway, a train of 25 cars can be unloaded at each side of the building.

According to the western farmer a feature of the present year's harvest was the use of "combines"—the combine reaper and thresher now being made by several implement manufacturers in this country. One farmer using this outfit claims to have covered from 35 to 50 acres per day at a cost of 45 cents an acre. He says that they save the cost of twine and about nine-tenths of the labor of harvesting. The implements cost about \$2,000.

A preliminary conference, the results of which may be of the utmost importance to the Maritime Provinces, was held in the Board Room of the Canadian Pacific Railway at the invitation of E. W. Beatty, chairman and president of Windsor street station here, of the company. It was attended by Tom E. N. Rhodes, Premier of Nova Scotia; Hon. J. B. M. Baxter, Premier of New Brunswick; Hon. J. D. Stewart, Premier of Prince Edward Island; E. W. Beatty, chairman and president of the Canadian Pacific Railway; A. V. Sale, Governor of the Hudson Bay Company; Colonel Stanley of the Hudson Bay Overseas Settlement; G. W. Allan, Director of the Hudson Bay Company; and Dr. W. J. Black, representing the Canadian National Railway.
