A WISE SPIDER

Mark Twain, when editor of a small town paper, received a letter from a superstitious subscriber, saying he had found a spider in his paper and asking whether that was a sign of good luck or bad. The humorist printed the following answer: "Finding a spider in your paper was neither good luck nor bad luck for you. The spider was merely looking over the paper to see which merchant is not advertising so he can go to that store, spin his web across the door and lead a life of undisturbed peace ever afterward."

During the evening Wm. Reesor read the following address to which Mr. Forsyth responded on behalf of Mrs. Forsyth and himself. After the singing of several suitable songs, the friendly hand shake and good wishes extended for long life and good health in their new abode. We wended our way homeward. The address:

To Mr. and Mrs. John Forsyth:
 We your friends and neighbors now present feel that we cannot allow your departure from among us without giving expression to the sincere regret which that occasion causes us. During your long residence in this vicinity having spent your childhood days with us, you have grown to be a part of this community. You have been among the foremost in the friendliness of your spirit, the generousness of your disposition and in your efforts in promoting the well being and prosperity of the community of which you have been a prominent member. We all feel that we are losing a generous, noble minded neighbor and friend. As an expression of our high esteem (not by any means an adequate one) we ask you to accept this tray and jardiniere. Trusting that we shall share in your affectionate remembrance, as we at the same time wish you many happy years together in your new home.

MAR-MILL FEEDS PRODUCE SHOW RECORDS

Read This Letter! 220A Bowan Ave. South
 Messrs. D. N. Reesor & Sons, Sherbrooke, Que.
 Markham, Ont. Jan. 5' 1928
 Gentlemen:
 I am of that school whose firm belief is that the proper rearing of a chicken, in the race for supremacy, is half of the battle.
 Believing this, and realizing the all-important role that proper feeds play in the rearing, I am willing to share with you the credit for the grandest bunch of chickens that I have yet owned.
 You will remember that shortly after returning from the World's Poultry Congress, where I had an opportunity to note the high quality of your feeds, I placed a standing order with you to be shipped monthly, starting with your Growing Mash and Scratch Feed.
 The enclosed snap of my 1st Cockerel at Canada's Great Eastern Exhibition, and which was 5th at the Royal, while yet unfinished in tail, tells the story which can be summed up thus: Health, growth substance, vigor and quality. My pullets have never before attained such size as they now possess and are now in full lay, producing lots of standard size eggs. I feel I must also say a word about your courtesy and willingness to accommodate one, which is no inconsiderable part of the service you render.
 Yours truly,
 (signed) P. L. GREEN

as well as Egg Records

MAR-MILL Chick Starter grows stronger chicks, produces next season's layers.

A properly mixed and blended ration, combining rapid growth with proper development. Assures low mortality. Use **MAR-MILL** for best results.

For good egg production, and high fertility, with strong chicks when hatched, use **MAR-MILL LAYING MASH**. Uniformly good. "A little goes a long way." FASTER FAT Fish Meal used in all Mar-Mill Mash.

If your dealer cannot supply you, we will ship direct in 500 lb. lots or more.
