MARKHAM TP. COUNCIL

Shows Surplus for 1927 of \$240.91
—Clerk Davison wishes to be Relieved of Doing Business With the Township

The March meeting of Markham Township Council was held in the Township hall, Unionville on Monday with Reeve Gohn in the chair and present: First-Deputy Reeve R. L. Silver, second-Deputy Reeve George B. Padgett and councillors Robert J. Beatty and R.A. Smith. The session was featured by the presentation of the auditors' report for the year 1927, which showed a surplus for the year of \$1100.91. This figure was reduced to \$240.91 when members of the council insisted that an item of \$860. for a bridge which was built last year but paid for this year be included as a liability at the end of 1927. When this was included the report on motion of deputy-reeves Silver and Padgett was adopted.

The report, as adopted shows the assets of the township to be outstanding taxes \$22,594.21, taxes returned to County \$6166.12, road machinery \$5960., office furnishings \$130.63, fire equipment \$800., township hall and furnishings \$3158.95, Elmwood Park waterworks \$2637.57, total \$41,447.48.

Liabilities are shown to be Standard Bank \$35,462.63, accounts payable \$125., amount due to schools sections \$350.90, Unionville Police Village \$1575.21, Hydro Electric Power Commission \$195.26, Holdcroft Construction Co., bridge \$860., debentures Elmwood Park \$2637.57, surplus \$240.91, making a corresponding total of \$41,447.48.

The revenue of the township is shown as, from township rates \$36,722.32, dog taxes \$1222, court fines \$225.90, township roads provincial government subsidy \$11,601.90, railway tax \$175.59, Municipal Farm tax \$523.61, Total \$50,501.32.

The expenses are shown as; roads and bridges \$49,065.72, interest \$1436.93, sheep claims, \$1848.51, grants and donations \$315., printing and stationery \$1052.91 salaries and allowances \$6536.59, Board Health \$265.55, Charity \$411.21, General municipal expense: \$629.05, insurance \$302.62, law costs \$243.05, tax refunds \$7.65, making a total of \$62,114.84. Deficit for year \$11,613.50 which is off set by a surplus at January 1st, 1927 of \$9,338.31 and an amount of \$1916.10, transferred from suspense account, making a total of \$11,854.41 and a surplus of \$240.91.

There was considerable discussion regarding the collection of municipal farm taxes. Deputy-Reeve, Padgett claimed that the county educational tax should have been collected as it was the agreement that the city of Toronto should pay all educational taxation. Clerk G. A. M. Davison and Reeve Gohn argued that it was their understanding of the agreement that the city was exempt from all County tax. Clerk Davison explained that the matter of the jail farm taxes was based on a gentleman's agreement made by Mr. Padgett when he was reeve of the township and the levy had been continued on the plan then agreed to as he understood it. He did not doubt that the agreement was a good one at that time but if Mr. Padgett had it in writing and on file there could be no misunderstanding of it.

Mr. Padgett—Then I think the best thing we can do is appoint the clerk to have a new agreement drawn up with the city of Toronto. Then we'll be sure that it's done right.

Mr. Davison—I'll be glad to do that if I am appointed.

Reeve Gohn—Speaking to Mr. Padgett—Before I became reeve did the city of Toronto get a bill for any County tax.

Mr. Padgett—No, but there was no County Education tax then. How could we render a bill for a tax that was not in existence at that time. The special tax came on two years ago for County Education and should have been collected.

The members of the council wanted to know why the bill for a bridge built last year and paid for in January was not included as a liability in the auditor's report for the year 1927. Reeve Gohn explained that the reason was that the bill had not been presented although he was very anxious that it should have been paid last year. He was not sure that since the bill was not presented whether it should be considered a liability or not. He remembered the case of a grader purchased some years ago which was purchased in one year and not paid for until the next and it was not listed as a liability.

Mr. Padgett contended that this was an entirely different case. That grader was bought by the council at the exhibition for the next years work and on the next years terms. "You will remember that Mr. Reeve, you were there and agreed to it" said Mr. Padgett.

Reeve Gohn—I didn't agree to it and I wasn't there.

Councillor Smith—It was agreed to by the council of the year.

The auditor was appealed to and agreed that the bill for the bridge should be listed as a liability since the work was done in 1927. He also ruled that the work now being completed at Doncaster Park could not be taken as a liability against last year when the work was done this year.

There was considerable discussion

as to what was a surplus and as to what was not a surplus. Deputy-Reeve Padgett wanted to know whether the surplus reported by the auditor was a liquid surplus.

Clerk Davison—Not unless you want to sell the township hall, road machinery etc.

Mr. Padgett—What is the road machinery valued at and what is allowed for depreciation.

Clerk—at \$5960 and no depreciation was taken off.

Reeve Gohn—The road machinery I think is valued the same as last year and we added one tractor to it.

Mr. Padgett—I think you could cut the valuation in half and be nearer right.

Clerk Davison—In regards to the last equipment you bought, the tractor and road maintainer, I'll give you twice what you paid for it if you'll pay the \$340 rental which was due at that time.

Mr. Padgett—Was there any replacements and repairs as a result of this rental.

Mr. Davison—There might have been a little but there were many trips out about it for which the township did not pay. And I would like to state here that I would be glad to be relieved of doing any work for the township or selling any goods or equipment. That is frankly speaking my own feelings on the matter.

The township renewed its insurance with the Globe Indemnity Co. for an annual premium of \$372. This is an increase of \$105, due as the representative explained to the increased hazard due to the increased traffic, the increased speed limit and the introduction of the Liquor Control Act.

On motion of Dep. Reeve Silver and Dep. Reeve Padgett a record of all farm sales during the past year will be obtained from the registry office.

On motion of Messrs. Padgett and Beatty, Dep. Reeve Silver and Councillor Smith were appointed a committee to consider the repairing or renewing of the sheds at Township hall and the building of a lavatory, also to consider the advisability of constructing a vault in the basement of the hall.

Fred Sheddock of Locust Hill applied for the position of road foreman on Div. No. 4. He complained in his letter that last year one man got all the work which he does not think is a square deal for the rate-payers.

The tax collectors presented their rolls which were received.

Only a small number of accounts were presented for payment.

"Everything new -- and still the stamina that made it famous"

THAT'S the amazing thing about the New Series Pontiac Six! It is completely new in style. Its power has been greatly increased. Its luxury, safety, handling ease and convenience have been immeasurably enhanced. Yet it offers the same wonderful dependability and six-cylinder smoothness so largely responsible for Pontiac's success in the past.

If you haven't seen the New Series Pontiac Six you haven't seen the low-priced Six that actually challenges the world's finest cars as a style leader! If you haven't studied all the new features it offers at no increase in price—you have no idea how vastly the buying power of your dollar has been increased! Look at the list of features. That tells you only part of the story! Come in—and your eyes will tell you the rest!

Pontiac Six can be bought on the GMAC plan
