Most feed Value for least Money

For all general livestock feeding, Quaker Schumacher Feed is unexcelled. It is the perfected carbohydrate ration—a scientific balance of corn, oats, wheat and barley feed, together with oilcake meal, edible bone meal and calcium carbonate—minerals so vital to the health of animals, and which are usually deficient in ordinary feeds.

As a base for a dairy ration, or as the sole grain ration for young stock, dry stock, bulls, hogs or horses, Quaker Schumacher Feed is most economical.

No waste, because of the perfect balance. Low moisture content, because kiln dried. Palatable, easy digested, and quickly assimilated. Quaker Schumacher Feed provides most feed VALUE for least money. Write us for free advice on your feeding problems. The Quaker Oats Company, Peterborough, Ontario.
