

VICTORIA SQUARE

Unexpected changes are taking place with us this spring. Frank Whetter and family are moving to Whitechurch. C. Moynihan sold his 100 acre farm to a Wexford man for \$12,000. Mr. Moynihan purchased this farm a few years ago from Robt. Hopper. This heavy clay farm is in excellent state of cultivation, and has a good set of buildings. A short distance south of the house, there is a very good gravel pit. We consider all the farms in this block excellent producers, but like all clay farms difficult to tillage, or more so than the sandy loam soil. The Moynihan family have not decided yet where they will locate.

The Quicker, Better Method of Stable Cleaning

With one of my Toronto Litter Carriers, one man can clean your stable as fast as three in the old way. Do it, too, without the unpleasantness and muss of the wheelbarrow method. Dump the manure into a pile where you want it or direct into the manure-spreader when desired.

The Toronto Litter Carrier has several special features I know will appeal to you. Let me explain the advantages of its chain pull, why it turns on the smallest radius, its unbreakable bucket and others.

I have other Toronto Stable Equipment which will make for cleaner and healthier cattle, bigger profits. Ask me about it as well. I have some interesting literature free for the asking.

The Kind of Eggs Poultrymen Want

Every poultryman wants lots of large, uniform, strong-shelled, and HATCHABLE eggs. And more and more are finding that Quaker Ful-O-Pep Egg Mash is just the feed to get the BEST eggs, as well as MOST eggs.

The ingredients of this good feed are of proven merit—oatmeal, most digestible of all grain products; cod liver meal, that tones up the digestive system; minerals, essential to egg building.

Greater hatchability—and stronger; healthier chicks—make Quaker Ful-O-Pep eggs just the eggs for the poultryman, breeder and hatchery man.
