Plant more trees! There should be a campaign carried on in Stouffville to induce citizens to plant more ornamental trees. Box holders at the post office are again renewing their rental for another year, and The Tribune is called upon to do likewise. We never could understand why the government assesses us \$5 per year for the privilege of walking to the post office and carrying our own mail, while Sam Jones out on the concession line, or Miss So-and-So down on the city avenue, can have their mail carried to their homes free of charge. The advanced box rental has not brought increased revenue, as too many patrons gave up the box and are getting their mail at the wicket.
