NEW ROADWAY COMING AT ONCE

Start to be made This Summer on Rebuilding Main Street

The Toronto and York Road Commission visited Stouffville on Monday morning of this week, meeting the reeve and council in respect to the construction of a new roadway in part of the corporation. After the conference the commissioners assured the council that a new road would be constructed this year from a point near John Urquhart's residence to the school lane, and probably a stretch of roadway west of the railway track to the ninth concession. .

The Commission were composed of Hon. G. S. Henry, Wm. Keith, J. Spence, M.P.P. and Commissioners Guardhouse and Millett, also Engineer Rose. Their visit here did not extend more than half an hour, and the men never left their car. They stated that they were required to cover the county in two days, consequently they must not tarry.

places. The really deep ditches of be money left for a sinking fund course would present no problem.

WORDY BATTLES FEATURE MEETING

Water Rates Substantially Cut-Side Strects Get More Light

Although the amount of business transacted by the municipal council; of Stouffville was not really heavy on Monday evening, it took no less members to relieve themselves of the and Mrs. E. Lageer. surplus oratory wrapped within their breasts.

The estimates for the year were Mrs. S. W. Hastings. up for consideration, and proved a knotty problem. It is proposed to spend around \$1000 for street gravelling, \$500 for sidewalks, and nearly \$100 for additional street lights. The matter of installing a furnace at the municipal building that would heat the fire hall was also talked of, but definite action was not taken, it being deemed too early in the season to have the work done.

Water Rates Cut

It was decided to reduce the water It was arranged that Engineer rates by half. The income last year Rose would submit a report on the from domestic water users and meter possibility of filling the ditches in users amounted to \$3,100, and the the east end, although he thought upkeep was \$700. The reeve thought it would be hard to accomplish in with the rate cut in half there would and Councillor Borinsky proposed The work will assuredly be done that this fund be \$1000 per year un-

town fathers as they motored off for that we collect no water rates at all The new road will present quite It only creates a desire to spend on Saturday last. an extensive piece of work and will money. Let those who use the water include the taking out of all the logs in the future pay for any repairs as

A motion was submitted by Counthis is going on the roadway will be cillor Borinsky thus: "That the disclosed to traffic, and the street will count on water rates be reduced from of Mr. Sandy Jones, entrance being customers be charged 9c. per 1000 June. gallons instead of 12c". This motion carried with Councillor Dowswell in

The Priest" Haydn: The orchestra will motion was accordingly killed.

.Who Should do the Trim

Another verbal encounter ensued when Mr. W. H. Todd asked the council to place a light on Shaw street running from Swift's garage south to a couple of houses he owned at the south end of the street. It was discovered that the trees obstructed the light at the corner, and Councillor Ward submitted that himself and Councillor McKinnon be authorized to trim the trees on that | visited at Whitevale on Sunday. street. This precipitated another agreed to have the trees trimmed, but he wanted the council to instruct the town man to do the trimming. 2.50 Councillor Ward said this objection 54.00 to his motion was made only to obstruct everything which he (Dowswell) was not given the job of carrying out.

Mr. Dowswell said if the town man was good enough to do other work he could trim the trees. Mr. Ward said the manner trees had been trimmed in the past showed a change was needed and he was going to make it.

The councillors were finally instructed under the motion to carry out the work.

Enlightened Business It was proposed to place four new street lamps, on 9th concession, Stouffer street, Montreal street and Shaw street. The advisability of a lamp on Stouffer street was debated lay, as three poles and a long stretch of wire will be required, and there are only two houses to benefit. There is no sidewalk on the street and consequently most of the pedestrains reach the east end of the street by Montreal street. Despite these facts We make old cars look like new with being pointed out by the reeve, coun-Paint and Varnish, plus expert cil carried a motion to erect a light
