

LOCAL HAPPENINGS

Orders taken for Hemstitching work, prompt and satisfactorily done Alleda Russell, Phone 3003.

The Monkhouse property at Altona was sold by auction on Tuesday to David W. Crozier, for \$3200. This real estate had been in the Monkhouse family for half a century. The store itself is retained by Willis Monkhouse.

Mr. and Mrs. R. S. Cunliff of Los Gatos, California, expect to arrive on June 4th in Stouffville with the body of their son, a University student, who died last winter. Interment will take place on June 5th in Stouffville cemetery.

When the remains of the late Mrs. Henry Curl of Toronto were being conveyed to their last resting place in the cemetery at West Brock, near Sunderland, on Sunday, the funeral cortege was held up for some time at the east end of Stouffville, while some repairs were made to a tire on one of the cars in the procession.

Foundations for two new houses on Church street are now completed by the builders, Abram Yake who is constructing a house on the west side of the street, and Robt. Curtis who is building next to the United Church. Nathan Forsyth, the veteran carpenter of Stouffville, assisted by Ralph Rae are now putting up the frame work for Mr. Yake, while Mr. Curtis is superintending his own building.

This Thursday (May 24th) at the Auditorium Theatre, see "Two Arabian Knights" with Louis Wolheim and Mary Astor. Full comedy feature, packed with laughs.

The Erin Creamery Co. paid a fine of \$50 and costs, in the Guelph Police Court for paying a farmer first grade prices for second grade cream. The accused claimed it was merely an error in bookkeeping.

The town has been unduly quiet this week and last. The weather has been ideal for seeding, and farmers are losing no time in getting the crops in. This week will see the operation well completed.

There is only one appeal filed against valuation in the Township of Whitchurch, and the Court of Revision is advertised for June 9th. Probably assessor Clark is too lenient, or perhaps his judgment is so good that the ratepayers realize any appeal would be useless. In any event his work as assessor stands unchallenged.

It is estimated that fully nine-tenths of the fall wheat sown in this neighborhood had to be resown or patched up this spring. Nevertheless there are some really excellent fields of this grain. Probably two of the best catches are on the adjoining farms of William and Russel Johnston, three miles south of Stouffville on the ninth concession.

One of our esteemed citizens of Ringwood, Mr. Philip H. Raymer, brought to The Tribune office last week a basket of Ontario apples, which for firmness and appearance, were as good as the day they were picked last fall. Mr. Raymer knows how to winter apples so as to preserve them, and if he has any surplus crop they will be promptly bought up. Thank you, Mr. Raymer.

The Municipal Council and the Parks Commissioners have received a gift of trees from the Ontario Dept. of Agriculture, for nursery purposes, the seedlings arrived Saturday, and were placed in a small nursery grounds prepared on the park property east of the arena building. The shipment included 200 each of Larch, Walnut, Butternut, 300 Elm, and 500 Silver Maple. In the course of two or three years these young trees will be ready for transplanting on the streets of Stouffville, which will further add to the beauty and attractiveness of our town.

Be sure and send or telephone the names of your holiday visitors to The Tribune. Do it early, please.

The ice man started in this week to keep the town refrigerators cool for the summer months.

It is illegal for householders to use milk bottles as containers for anything other than milk. By observing this law you will assist in preserving the health of the community.

The Franklin House, Markham, was offered for sale by public auction in that village last week, by the executors of the estate of the late proprietor. There was no sale made.

Friday, Saturday, 25 and 26th—"Speedy" Harold Lloyds latest and best. This picture will be shown twice on Saturday evening, 7 to 9; 9 to 11 to accommodate the crowd. Come early to secure a seat. Special music for the occasion. Auditorium Theatre

Today (Thursday) May 24th, is a public holiday and all stores will be closed. The holiday will be quietly spent, as there is no entertainment of a special nature. Many people will spend the day in Toronto. In the evening the picture theatre will present, "The Two Arabian Knights"

Stouffville Brass Band is engaged to furnish the music for the big annual field-day at Claremont, on Saturday, June 2nd, also for Brooklin fair on June 9th. No doubt there will be a good following of our citizens take in these events on the first two Saturdays in June.

The Hamilton Spectator prints a life-size portrait of Miss Aileen Jamieson who is Junior Y.W.C.A. champion in diving in that city, also winning in form swimming. Aileen is a granddaughter of Mr. A.S. Leaney of Stouffville, and only daughter of Dr. and Mrs. Jamieson of Hamilton.

The editor is wondering if the importance of the weekly prayer meetings is made more so by reason of a statement we once heard a preacher make. He said: "I once preached to a congregation of 350 people, all of whom were women, excepting 4 men. On another occasion I preached to 425 of a congregation, but all were men excepting six women. The latter congregation was in the penitentiary."

Although temporarily laid aside through ill-health one of Stouffville's very oldest citizens, Mr. John Urquhart attained his 85th birthday on Saturday last. Mr. Urquhart has been ill for the past six months, but was able to sit up on Saturday and Sunday when friends called to congratulate him on his 85th birthday. Indeed he is able to be up almost daily, and we are waiting to greet him down on Main street one of these fine days. Mr. Urquhart was the first assessor of Stouffville at incorporation in 1877, and since then served on the council and for many years as municipal clerk.

Mr. Lou Morden has "been getting the farmers' goat" to use a sporting expression. During the past few weeks he has scoured the country buying up all the nannies obtainable in order to fill an order or shipment to be made to a rural community in Northern Ontario, where the goats will thrive on the hills and rocks, and furnish milk to the settlers. The goat industry in this part of Ontario is so small as to be almost despised, and there is really no market for them. Mr. Morden says they are valued something like a dog. A farmer who owns one may value it at \$1 or more according to the attachment it has made to the family. He has furnished several "billys" as mascots for Toronto organizations, but when they take on this dignified position, their value jumps with leaps and bounds as billy becomes part of the organization or club. The goats shipped to Northern Ontario were placed in small crates, and sent by express. About 50 have been shipped in this manner this spring.

Mrs. W. B. Sanders received the sad news last week announcing the death of her mother, Mrs. Matthew Flint at Hollywood, California. Death took place on Saturday, May 19th, following only a comparatively short illness. Mrs. Flint was in her 80th year, and with her husband had lived in California for 20 years, going direct to the southern country from Stouffville. Their domicile was changed owing to the ill health of her husband. The deceased was born in this town, a daughter of the late Richard Barnes, and spent 60 years of her life here. Her husband was a well known builder and contractor who constructed many of the buildings now in use here. She was a devoted wife and mother, and a faithful Christian and member of the Methodist body. Besides her husband she is survived by two children, Edw. Flint of Toronto, and Mrs. W. B. Sanders of Stouffville, also one sister, Mrs. Eliza Flint, who resides with her son, Chancellor Chas. W. Flint of Syracuse University. The remains are expected to reach Stouffville late Friday night for interment in Stouffville cemetery on Saturday, May 26th. Funeral from Mr. W. B. Sanders at 2 o'clock p.m. The bereaved husband will accompany the remains to Stouffville.

It has been found that a trout can move through the water at 30 miles an hour.

Special Pineapple Sale this Friday and Saturday at the Dominion Stores Get your supply then.

Arthur Fry, formerly of Stouffville has sold his 5-acre farm at Mount Joy, and intends leaving Markham.

The Lakeview House at Jackson's Point is opening for the season on June 2nd, and not on the date mentioned in our last issue.

The 85-acre farm at Cashel belonging to Mrs. Klinckenboomer has been sold to Russel Eawton, the transfer being made this week.

"Seventy-five years ago on Wednesday last week the first train came up the old Grand Trunk line from Toronto to Aurora, as far as the tracks had been constructed at that time", says the Aurora Banner.

Mr. Abram Brown has purchased a 40-acre farm adjoining the village of Mount Albert, and will move from Stouffville in July to his new home. His property here is offered for sale, also his store one door west of the public library.

Stouffville Old Boys' Association through Mr. R. P. Stouffer informs The Tribune that they are prepared to co-operate in a Dominion Day celebration in Stouffville this year. What organization will take the matter up, or will the council appoint a citizens committee to undertake something for July 2nd? With the assistance of the old boys and girls of Toronto, success would be assured from the start.

This week Mr. Nathan Forsyth received the sad intelligence from Los Angeles of the death of his niece, Mrs. James Robinson of Lansing, Mich. Death was due to a motor accident. Mrs. Robinson and her husband will be remembered as guests of the Forsyth's here last fall, and were accompanied home to Michigan by Mr. and Mrs. Forsyth. A few months ago the unfortunate lady went to Los Angeles to visit, when she met with so sad a death. She was in the prime of life.

One of our business men is advocating an extension to the south end of the town clerk's office, where a public rest room for ladies could be constructed and heated from the new furnace to be installed before next winter. This business man is of the opinion that the work could be paid for from the water revenue which is well able to bear the cost of installing plumbing. The above suggestion is handed to the ratepayers by one of the very oldest active firms on Main street. Now don't get so curious wondering who the business man is; that you forget all about his proposal.

While engaged in painting the kitchen at Mr. Alf Hoover's a few days ago, Frank Mowder, the brush artist engaged to do the finery, met with a mishap which is the first of its kind in his experience and one he will devoutly implore the shaper of our destinies never to let occur again. By standing on the top of Mrs. Hoover's step-ladder the decorator was barely able to reach the ceiling, and it was when he was in this exalted position standing on his toes, brush in one hand and full pot of paint in the other, that something went wrong with the ladder. It was a new patent arrangement, and not being made secure flattened out with such suddenness as to leave the painter standing in the air—for just a moment. In his sudden and hurried descent to the floor Frank must have feared his hat wouldn't follow him promptly, and the hand holding the full can of paint suddenly shot up, so that on reaching the floor on the first and second rebound the entire liquid was poured on his head. As the color was green, we leave our readers within full view of the spectacle, with but one request "Don't mention that you saw it in The Tribune."

If the Canadian National Railways station was ever destined to be as large as the Grand Central in New York which covers eighty acres of land and deals with a daily traffic of 600 trains, it chances were shattered on Monday when a gang of 25 men from Bala sub-division of the C.N.R. started work here in tearing up the old Sutton branch line. A special lifting apparatus hoisted the rails right onto flat cars, and men soon pulled out the ties which are also being removed. During the afternoon word arrived from Toronto to cease work until further orders. It is understood that the road contractor on the eighth concession of Whitchurch is endeavouring to have 300 car loads of stone delivered at Ballantrae before the road is scrapped, and when in town on Monday and seeing operations started he got in touch with the railway officials and succeeded in stopping the work. Some time ago the road boss said he had assurance that the line would not be interfered with until his 300 cars were taken over it, but the order had been reversed some way with the result that nearly a quarter mile of track was torn up on Monday. It is being replaced again.
