NOTES AND COMMENTS

We are informed by a local milk producer that farmers selling cream on the Toronto market have been notified to cease the practise, and henceforth all cream sold in Toronto must go through the regular channels of the city dairles. There may be good ground for this action, for the city bylaws provide for the inspection of all stables, and places where milk or cream is produced for sale in Toronto. Cream sold on the market escapes this inspection and hence the new regulations prohibiting its sale. It has been suggested on the other hand, however, that the new law is enacted at the instigation of the city dairies who have to submit to the rigid inspec- law as to bonus the Organ Company tion of city officials.

. That "some funny laws"- are enacted :is quite true. One of the more recent to come to the attention of the public is an Ontario a school teacher. measure which prohibits undertakers from advertising funerals. For some time several firms in Toronto have year are Messrs John Baker's and S advertised the price of funerals and M. Warriner's. A long list of 2 this has led to a big cut in funeral more could be mentioned, but this expenses to the general advantage pair are outstanding in beauty. of the public. Now the powers at Queen's Park, in response to the plea of the Undertakers' Association, garden party of Cashel church on Mr. forbid the advertising of funeral W. Bruce's grounds, 6th concession We suppose the undertakers defend to give more than one selection, and their stand on the ground of say, didn't Uncle Dave make a good etiquette or "non-proffessional", but drummer? the duty of the government should be to protect the public regardless of these fictitious pleas.

1928 Canada increased her purchas- est ever known in Canada. es in the United States by 65 per cent., and the Dominion sales to the United States increased by 32 per cent. over the similar period in had been in Stoouffville, and the 1927, according to a report realized same evening she passed away. A by the Foreign Commerce Depart- large family is left, including George ment of the Chamber of Commerce our worthy representative on Uxyesterday.

The Dominion was the best customer of the United States by more than \$100,000,000 in total trade. The United Kingdom was next best but her total trade figures were only \$560,000,000 as against Canada's \$661,000,000,...

During the first half of the current year Canadian purchases in the United States amounted to \$426-199,000 or \$45.70 worth of goods per capita. Canada sold the United States \$231,852,000 worth of goods during the same period.

Australia purchased a good deal, less from the United States during The Company the first half of this year ,her total bill being \$66,530,000. 23 per cent. less than for the same period last

SMITH OR HOOVER.

The Democats have won only four

out of the last fifteen elections (since 1861), twice with Grover Cleveland and twice with Woodrow Wilson the only recent Democrat, owed his first victory to split Republican vote in which Roosevelt (Progressive Republican) polled more votes than Talt, the regular Republican nominee, and the two together far more than Wilson'. Both Smith and Hooover were born in humble circumstances. Hoover was a plow boy and, when he went to college, started a laundry for other students. But did not stay poor. He graduated as an engineer and was a mine manager in Australia and China more than twenty years ago; made a fortune in the latter place and in 1914 had apparently settled down in London to stay at any rate, his biogaphies at that time gave no United States address. He was world-famous among mining men; unknown poltically in his own country. Then the war broke out and the 'American consul in London called on him for help in dealing with the mob of Americans who were trying to exchange letters of credit, bank drafts and express orders for gold. His capacity for organization sent him to Belgium as head of Belgian relief. His genius was soon apparent. He was appointed United States food administrator; later, director of food supplies for the allied powers. He became United States secretary of commerce in-1921. But Al Smith, four times govern-

or of New York, also has strength as a political candidate. He, too, has climbed to the top by his own merit, for he was born in one of New York's East Side tenements, and at thirteen was called upon to support his mother and his youngest sister by driving the truck from which death had removed his father. It was while working in the Fulton fish market that he was "discovered" by one of the Tammany leaders who got him a job as server of jury notices and started him on a career as a public speaker. At thirty Tammany elected him to the assembly. In 1911 he was its majority leader, while Hoover was still busy in China. In 1917 he was first elected governor of New York state.

Batcheller-On Sept. 28th, 1928. to Mr. and Mrs. F. I. Batcheller (nee Elsle M. Ward) at Huntington, Quebec, the gift of a son.

Health for \$1500 damages in consequence of being quarantined at the time of the smallpox outbreak last fall, has been submitted to arbitration. Mr. Yake has selected Dr. Hunter as arbitrator, and the B. of H. has selected Qr. Philip H. Bruce of Toronto. These men will select a third arbitrator and the sittings will be held in a few weeks ..

Writing from Brandon, Man., Geo. Silvester says: "Last week with my wife I drove four miles north of the city and we were in the midst of 800 acres of wheat then (Sept. 1, 1889) just about in stooks. We drove across the stubble and all we could see was wheat and tops of three houses. Talk about wheat, it's my firm belief that it would tire the best horse you would scare up to drive about and see as much wheat as you could see in any hour. I might mention some farmers, all of whom you know, who are good farmers here now. First comes Hy. Nichols 300 acres, Nathaniel Reid 140, W. Nichols

firm believers that Manitoba is better than Ontario for wheat. While the The action brought by Michael drought was severe this year wheat Yake against the local Board of is going 62 to 63 bushels to the acre."_
