NOTES AND COMMENTS

After all we wouldn't swap our cold winters for those tropical hurricanes.

It looks as if the investigation into the wreck of the Manasoo which crumpled up and went down in the waters of Georgian Bay should have been done some time ago. W. R. Urquhart, an old Stouffville boy, is one of the jurymen seeking a solution of the mystery.

Rural mail services in Canada are steadily increasing. A maximum of 3,800 rural routes has now been reached, this representing an increase of about 400 compared with a year ago. The most notable development is in the western provinces, more demands coming from there than from other sections of the country.

The new act governing auto trucks needs amending. Under the regulations both trucks (Morden and Lehman) doing business between Stouffville and Toronto, are required to carry \$3500 insurance on the cargo they haul. As their average load would not be worth \$500, and never have they had a load worth \$3,500, the figures should be modified to conform to the value their trucks might possibly have on at any one time.

The curb gas pump is adding to traffic congestion in many towns and is proving a vexatious problem. The Provincial authorities have now decreed that municipal bodies which granted licenses to operate pumps on the curbs have done so illegally. The Town Council of Simcoe was recently notified to this effect and forthwith not only refused an application for licenses, but cancelled all the permits that had been granted in the past, throwing all responsibility for the pumps on their owners.

SCHOOL REPORT

Stouffville School Report, September

Primer B.—Ruth Lehman, Evelyn Brown, Margaret Booth and Kathleen Anderson equal.

Primer A.—Margaret Elson, Bruce Harper, Ruth Ferguson.

Nervousness Vanishes. Health is Restored

"I cannot say enough in praise of Nervine. I was so nervous I could not sleep. Before I had taken Nervine long, I could sleep well and am feeling a lot better."—Mrs. Cash M. Watson, Undine, Victoria Co., New Brunswick.

The wracking misery of sleepless nights and restless days—of constantly jumpy nerves—was Mrs. Watson's until Dr. Miles' Nervine corrected the fault—DISORDERED NERVES.

Disordered nerves are dangerous. Dr. Miles' Nervine soothes, refreshes, restores them to normal. It was developed by a prominent nerve specialist to reach the basic cause of such troubles as depression, restlessness, worry and declining general health. Especially helpful to women during trying times of pain.

Contains no habit-forming drugs. Satisfaction or your money refunded.

J. M. STOREY, STOUFFVILLE, Ont.

GORMLEY

Mr. and Mrs. Manuel Heise, formerly of Kindersly, Sask., are visiting his brother, Mr. J. H. Heise.

Mr. and Mrs. Robins of Bridgeburg with Mr. and Mrs. Winfred Timbers of Ringwood, visited at Mr. A. Sider's on Sunday.

Mr. and Mrs. Jos. Steckley are spending a few weeks with relatives at Stevensville, Ont. and Clarence Center, N.Y.

Mr. and Mrs. Robt. Millen and family recently enjoyed a motor trip through Northern Ontario, visiting Mrs. Millen's sister at Inroquois Falls.

Roy Brillinger is the potato king of Gormley. This year he had eighteen acres under crop, and just now Mr. Brillinger is taking off the crop. The early variety yielded 200 bags to the acre, but the later potatoes now being dug, will not show so good a yield. Mr. Brillinger had the refusal of \$1 per bag for the delivery of 1500 bags at a future day or in consignments as the purchaser requires them. With colder weather the present low price of tubers is certain to advance, and surely they are worth more.

Jos. Cherry, has rented his farm of 85 acres at Gormley in the 4th concession of Whitechurch, to W. H. Wilson of Markham Township. Mr. Cherry has not been in good health for some time, and this is the reason for his retirement from farm life. He intends to remain on the property after the tenant takes charge, as he will remain in the farm house indefinitely. Mr. Wilson has secured another house here. We hope that Mr. Cherry will soon regain good health again.

Crashing into the side of the engine of the C.N.R. Winnipeg flyer, 27 miles north of Toronto, Delbert Baker 26-years old, of Gormley, miraculously escaped death last week at 7.20 a.m. He was extricated from the wreck of his coupe suffering severe shock. The crossing where Baker hit the locomotive is well known to residents of the district as being dangerous, in that there is a sharp curve just north of the crossing and it is impossible to see a train coming along the track from the north. Baker was placed in the baggage car of the train and rushed to Toronto where a police ambulance was waiting and took him to Grace Hospital. Mr. and Mrs. R. E. Baker parents of the injured man, said that immediately after the crash residents called them to the scene. Baker told them he did not see the train coming around the curve nor did he hear the whistle. The next thing he knew was he hit the locomotive on the side as he was

going across the tracks. The engineer applied the brake and the train came to a stop with the wreckage near the end of the train.

REMEMBER JACOB YAKE

I THINK WE SHOULD

For that is where Mr. Grubin got his start, and his first knowledge of the language. I did not mention his son in my last letter, nor have I got the knife into him, or any other man, I might have the knife into somebody if I were a Russian such as the Czar he talks about. He must be a brother to the man who took our Saviour's life. In my letter before I did not write that Simpson's had 100 customers a day, but rather that they have in a small town. I also said 20 a day would be almost more than one man could attend to, but we will blame the publisher for this misprint. At first I felt like giving Mr. Grubin some "hot dogs" this time, but I have reconsidered things, and just wish to close with saying that if I had not the high school education—it is just as well. Many of them that get it and scholarships only come out with a big head, and others are ready for the asylum.

Jacob Yake.
