

VICTORIA SQUARE

(Too late last week)
We are busy with threshing and silo-filling, and are thankful that we have such a bounteous crop to care for. We envy those who have their own machinery for the above industries. We are often called to help our neighbors when our own work is suffering. The weather has been very favorable. Fall wheat has a good start and is several inches above the ground.
The school fair at Unionville was well attended by the pupils of the local schools. Great interest is taken in exhibiting their flowers, vegetables and live stock as well as efforts in manual training and domestic science. Stock-judging is getting to be commended. Public speaking is also being commended. Public speaking also was in for keen competition. Eight seniors and five juniors acquitted themselves admirably before an eager interested audience. It is surely a red-letter day for the girls and boys.
A special session of the Sunday School was held on Sunday, it being the annual Rally Day. Much credit is due to the committee who so tastefully decorated the church, especially the platform. Mr. Wall gave a very thoughtful address to the school

SIXTH LINE WHITCHURCH

and interested both young and old. The local schools, Nos. 4 and 7 are planning a contest to be held at No. 1 on the afternoon of Wednesday. An allotment of spelling has been assigned in each class, also they are to cross swords in speed and accuracy in mechanical arithmetic.
Roy Coppins has purchased a sedan car.
Orval Roach has had a nice driving shed erected on his farm.
A number of people on this line attended the funeral of the late Mrs. David Lewis.
Mr. Rae of Goodwood has rented Mrs. R. Rawsons farm and takes possession in the spring.
Mr. and Mrs. Alex Oxtoby of Udora also Mr. and Mrs. Thos. Condy of Claremont spent Sunday with Mr. and Mrs. Harold Dickinson.
Mr. and Mrs. Horace Willison and baby Ruth of Athens have returned home after spending a week with the formers parents Mr. and Mrs. W. H. Willison.
Miss Ella Redshaw of Sandford spent a day recently with her parents Mr. and Mrs. Geo. Redshaw.
David Elson has returned home from U.S.A. after attending the funeral of his brother William.

MARKHAM TP. COUNCIL

The regular monthly meeting of the Markham Township Council was held Oct 2, in the Township Hall, with Reeve W. C. Gohn in the chair and all the members present. Deputy Reeve R. L. Silver who injured his foot some weeks ago had to attend on crutches but despite his injuries was in his regular place.
A resolution was unanimously passed granting the use of the Township Hall during the month of January to hold the annual Short Course for young men and women. A petition was received from the residents of Elgin Street, Thornhill asking that gravel be placed on the street as local improvement. Reeve Gohn and Deputy Reeve Padget will consult with the residents of the street relative to proposed improvements.
A communication was received from the East Vaughan Ratepayers Association asking the council to consider the matter of sidewalk and proper lighting on Yonge Street between Thornhill and Richmond Hill. It was suggested that an electric light at each car stop would be a great improvement.
Mr. A. D. Bruce and Mr. Timbers appeared on behalf of the North York Plowmen's Association and were given a grant of fifty dollars. A grant of fifteen dollars was made to the Thornhill Public Library.
A communication was received from the War Veterans Association of Markham Township asking the council to take steps to have war memorials presented to the township properly mounted and preserved and placed in conspicuous places. It was suggested that they be mounted and placed in front of the Crosby Memorial fink. The communication was signed by L. Middleton, president and A. Myers, secretary of the organization.
Deputy Reeve Padget complained that a culvert on the lot 40 sidewalk east of the second concession which was fixed by council at a width of twenty feet had been constructed twenty-four feet wide. He complained that it was unfair if one man could run the council. It was definitely decided to build it twenty feet wide and then someone must have changed it and he was sure it was not the council.
Reeve Gohn said that he visited the culvert along with the engineer and that the engineer had decided that it should be twenty-four feet. Councillor Smith said he couldn't see any sense in a fifteen foot road and a twenty-four foot culvert. It was in a section where it would cost a tremendous amount to widen the road to the width of the culvert and the traffic did not warrant it.
Mr. Padget—I see no necessity for it.
Reeve Gohn—There might be a future necessity and moreover if we are to get our subsidy we must build it to conform to department regulations.
Mr. Padget—We would be better without the grant. Why spend fifty per cent to get a grant of thirty per cent?
Councillor Smith asked for additional grants for gravel on the Reeve and Ramer sideroads which was agreed to.
Councillor Smith reported he had consulted with the Pickering council relative to the townline and that it was thought an expenditure of about five hundred dollars was necessary.
It was decided that John street in Thornhill should have some work on it this fall, and a guard rail will be placed on the approach to the new bridge which was built this year.
Deputy Reeve Silver reported that he expected work on the Scarboro townline would be completed this week.
Constable Clayton drew attention to the recommendation of the Crown in a recent inquest to the effect that there should be some check up on traffic in small centres such as Unionville. Constable Petch said that he thought conditions in Unionville were bad for traffic and that the narrowness of the street and the bends in the road lent themselves to accidents unless precautions were taken. He favored the establishing of a speed limit in the Police Village at some rate less than the thirty-five miles per hour. A motion was unanimously passed instructing the Clerk to look into the matter and have some kind of warning signs to motorists erected.
It was decided that the Municipality should make application to the Attorney General's Department to seek permission to have their court before Magistrate Duncan at Richmond Hill.
There was considerable discussion on the merit of the big power grader which has served as the subject of discussion on former occasions. Some of the members are dubious of the merits of this machine. Deputy Reeve Padget said he had seen the machine working when the men might as well have been in bed. On motion of Deputy Reeve Padget and Councillor Smith if this is used any more this year it will be operated by Road Superintendent Middleton.
The following sheep claims were paid; William Dean, three ewes at \$11.1 ram at \$15.1 lamb at \$12, and 1 lamb at \$13, making a total of \$73.00; E. T. Stephens one thoroughbred Lincoln ewe \$45.00; J.H. Young

ALTONA

Keep in mind the meeting of Altona Women's Institute on Friday this week at Mrs. Lehman's. An addition to the program announced last week will be a luncheon and there will also be a collection taken.
Mr. and Mrs. Brooks of Newmarket, and Mr. and Mrs. David Brooks, Mount Albert, spent Sunday with Mr. and Mrs. Wm. Resor, also Mrs. G. Robinson of Stouffville and Mrs. Middleton of Toronto, were recent guests of the Resors's

Hobbs' STORAGE BATTERY

Is different from any other Battery, and is GUARANTEED FOR TWO YEARS (others only One year). If it fails to do its work in that 2 years, we will give you a NEW BATTERY absolutely without further charge

- IMPORTANT POINTS**
- A.—The Hobbs Battery has, under all conditions, 25% more strength and efficiency, produced by the higher working voltage, than standard makes of lead-plate batteries.
 - B.—It follows, logically that the Hobbs will spin the engine at higher speed.
 - C.—Also, that there will be 25% higher voltage delivered to the spark coil.
 - D.—Giving a 25% hotter spark to the explosive mixture in the cylinders E.—Which gives quicker starting of the engine
 - F.—Thus causing less drain on the Hobbs battery for each start.
 - G.—It is a well known fact that 90% of all batteries are spoiled from lack of charge (under-nourished.)
 - H.—But, since the Hobbs has less drain, it will keep more fully charged and requires 25% less electric current to fully recharge it when necessary. A Hobbs will be charged at only 1/2 the price of regular batteries.
 - I.—Therefore, the Hobbs battery will LOGICALLY LAST LONGER.

THE BANK OF NOVA SCOTIA

Dollars in Your Pocket Through Time Saved

You've no idea the time saved with a Toronto Engine and a Toronto Grain Grinder on your farm. Think of how much quicker an engine will do the work when attached to your pulper, grinder, saw, cutting box, cream separator, fanning mill or pump. It's a steady worker, requires little attention, operates economically on kerosene. With a Toronto Grain Grinder, too, you'll save hours on every trip to the mill. I know it will fill your needs, either for coarse or fine chop, efficiently and economically. All built with extra capacity.

GEORGE A. LAWSON STOUFFVILLE
ONTARIO WIND ENGINE & PUMP CO.
TORONTO

I'll be glad to discuss these or any other Toronto labor-saving equipment at any time. Or let me give you some free literature.
There was considerable discussion on the merit of the big power grader which has served as the subject of discussion on former occasions. Some of the members are dubious of the merits of this machine. Deputy Reeve Padget said he had seen the machine working when the men might as well have been in bed. On motion of Deputy Reeve Padget and Councillor Smith if this is used any more this year it will be operated by Road Superintendent Middleton.
The following sheep claims were paid; William Dean, three ewes at \$11.1 ram at \$15.1 lamb at \$12, and 1 lamb at \$13, making a total of \$73.00; E. T. Stephens one thoroughbred Lincoln ewe \$45.00; J.H. Young
