BETHESDA BOY HONORED

Prof. Steckley Chosen to Succeed Prof. Toole at Guelph College

Reorganization of the Animal Husbandry Department of the Ontario Agriculture College, Guelph, was announced last week by Hon. John S. Martin.

Professor J. C. Steckley will succeed the late Professor Wade Toole as head of the department. R. G. Knox, who has had the standing of Associate Professor for the past few years, will move up to the position vacated by Mr. Steckley, and George Rathby, who has been lecturer for some years, will be elevated to the rank of Associate Professor in succession to Mr. Knox. The new man added to the staff to fill the role of lecturer is M. W. Staples, Representative in Oxford County.

All appointments have been made on the recommendation of Dr. G. I. Christie, President of the O. A. C.

Professor Steckley is a York County boy being the only son of Mr. Abram Steckley of Bethesda who graduated from the Ontario Agriculture College several years ago. He took a position in the Agricultural Representative Service of the department and for many years was Agricultural Representative in York County. During that time his work in training boys for live stock judging was outstanding. The team which he developed and trained won the Intercounty Judging Trophy several years in succession. Mr. Steckley was appointed to the animal Husbandry Department at the college with the status of Associate Professor six years ago. He has therefore had a great deal of experience in teaching live stock and is moreover regarded as a good judge of stock. Since the death of Professor Toole, nearly a year ago, he has had temporary charge of the work of the department.

MARKHAM TWP. COUNCIL

The December meeting of the Markham Twp. Council was held in the Township Hall, Unionville, on Monday afternoon with Reeve Gohn in the chair and all the members present. It was a most harmonious session with no controversial matters to mar the complacency of the atmosphere and was absolutely devoid of any indications that the annual elections come off before one month. Business was transacted with despatch and earnest consideration was given to all various problems coming up for discussion.

The very bad weather of the past month has made it almost impossible to get any work done and the continuous wet weather interfered to a large extent with the program of the council. Many small jobs which it was planned to have completed are still undone, however it is hoped to fix some of the very serious sections as soon as it freezes up that one of these jobs which it had planned to do was Elgin Street, Thornhill and Mr. Hopper and Mr. Tassej appeared complaining that the work had not been done.

Mr. Scutchins of Milliken, appeared before the council on a mission which he stated had been hanging fire for 18 months. He was present regarding the opening of which appears to be a contentious matter and one which has been hanging fire for some time due to the inaction of certain interested parties. It was the action and apparent disinterestedness of one particular party that Mr. Scutchins complained of and after some discussion it was decided that an engineer would be called in to make an award and have the conditions regarding the ditch in that neighborhood definitely outlined to the interested parties. All interested in the drain will be notified of a meeting by the Clerk which will be held in the near future.

Residents of Helen Avenue complained of the condition of the ditch and a certain expert. The matter was referred to engineer Brock.

A bill for the lighting of the block in Thornhill was received amounting to \$328.20 for that period from February 11th to October 11th, but was laid over until further information could be secured.

It was pointed out that the expenditure on the Markham-Scarboro townline for this year in all amounted to \$1826.22 one half of which amount was chargeable to Markham Township. The council will meet the Scarborough council in an endeavor to straighten out some standing accounts of previous years before making a settlement for this year.

Mrs. Ogden and Mrs. Stiver appeared on behalf of the Unionville Public Library and pointed out the efforts that were being put forth by that organization in its endeavor to better serve the community. The council was in sympathy with the work and made a grant of twenty-five dollars and also gave a refund of eight dollars paid as rental.

On motion by Deputy Reeve Padgett and Deputy Reeve Stiver that the clerk be instructed to communicate with the Veterans organization with the view of ascertaining the number of war memorials that Markham township is entitled to and which are available and suitable for mounting when a suitable place is decided on. The motion was carried unanimously and the comments of the members made it very clear that there was no evidence of any sentiment other than that of the utmost respect for any such memorials of the great war which might be available for the Township for mounting and erecting in public places. If it is found that the Township has available certain trophies which can be located, they will probably be suitably erected either at the Memorial rink or at the Township hall.

The yearly by-law fixing the date of nominations as Monday December 31st and election day as Monday, January 7th, was passed and the following polling places and deputy returning officers appointed:

- No. 1, Thornhill, D.R.O., N.J. Smellie

Bennett, work on Markham-Scarboro townline, one half to be paid by Scarborough \$72.00.

The fine new shed at the Township Hall has been completed and is a very satisfactory job. When the building was first thought of tenders for the work were called for but on after consideration it was decided that the work it has been completed at a smaller cost than any of the tenders received and is a creditable and serviceable structure which will be an asset to the township. It was decided that as soon as weather conditions would permit all Township machinery will be gathered in and stored in the shed.
