**INSURANCE PAYS THE BILLS**  
Congestion on our streets and highways increases daily.

More cars are being purchased in Canada and there is a growing influx of tourists from across the border which will tend to multiply the already large number of automobile accidents.

Ten seconds can see the infliction of injury, and personal injuries running into thousands of dollars and the man without insurance is out of luck.

How does this affect YOU? Are YOU taking chances or playing safe with a policy of insurance.

**WHAT CHANCE AGAINST FIRE HAS A ROOF LIKE THIS?**

**MODERN BUILDING**—for permanence, low-upkeep and appearance—sounds the death-knell of wooden roofs. The dangers of fire to the building itself, to other buildings and to human life is rapidly banished by metal roofs of high quality.

**RE-ROOF WITH RIB ROLL**  
The appearance of this roofing alone has sold thousands. Whenever a roof of this material is laid in any district, it immediately secures a preference, and others who are roofing any kind of building, whether it be barn, house, garage, shed or warehouse insist on Rib Roll. It is made to famous "Council Standard" specifications.

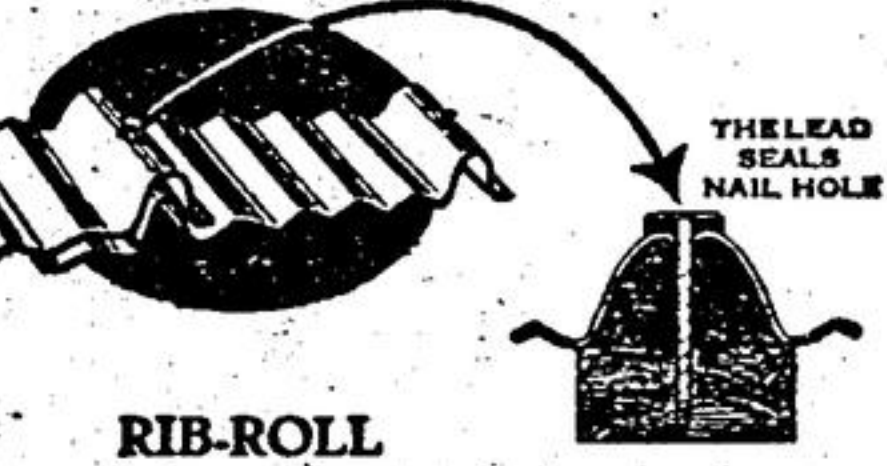

The latest product of General Motors is the New Viking twin four 90 degree car, costing \$2500. One of these palatial motors was brought here last week and purchased by Thos. Underwood of Markham. The engine is an 8 cylinder. Cober & Cober, are the local agents.

**EASY TO LAY ON NEW ROOFS OR OVER OLD ROOFS**  
The cost of laying Rib Roll is lower than that of nearly all other types of roofing. Any man who is handy with a hammer can put it on. Its handsome appearance adds many dollars to the value of your property.

Send ridge and rafter measurements of roof or roofs in question, for free estimate of cost.

**PRESTON LED-HEAD NAILS**  
The new nail with the lead on the head. No more "threading". Can be handled even with mite on. The lead on the head positively seals the nail-hole—makes it weather proof, water-tight. Only 22c per lb. Free samples on request.

Old roofs like this are rapidly becoming things of the past. Fireproof, permanent, Rib Roll roofs mean lower insurance rates, banish upkeep trouble and give your building an attractive, up-to-date appearance.

**RIB-ROLL**  
A "close-up" of Rib-Roll and the Preston Led-Head Nail. Note the tight fitting, overlapping weather-proof joint. It is invisible from even a short distance away. Illustration shows the neat pattern which has been widely but unsuccessfully copied.
