WHAT CAN HAPPEN IN ONE EYE WINK

The fastest thing that any man can do is to wink his eye. The indistinctive reaction of winking when a sudden blow into the eye is about one-tenth of a second for most people. In that flash of time, an automobile speeding sixty miles an hour will move nearly ten feet. A fast airplane will move more than twenty-five feet. Thus, the pilot can run into a small bird after he has first seen it before he can wink his eye against the expected shock, writes E. E. Free in Popular Science Monthly.

Some months ago a workman fell out of the fifteenth floor of a building in course of construction in New York City. On the thirteenth floor he grabbed a rope hanging from a scaffold and swung himself in on the twelfth floor, saving his life. He afterwards confessed that he was as much astonished by his act, as anyone who saw him.

The explanation is that the fall of twenty-five feet before he grabbed the rope occupied about one second and a quarter, which was time enough for his thinking machinery to issue the orders which made his muscles take hold of the rope below at the proper instant. Had he been placed in equal danger while driving an automobile at sixty miles an hour he would have been killed.

Tests with a group of typical automobile drivers have shown that the average time needed to see a danger signal, realize its meaning and begin to press the brake lever is a little more than half a second. In that time, a car travelling forty miles an hour would move thirty feet. That distance represents the minimum margin of safety the driver must maintain to avoid accident.

As speeds increase, no remedy for the advancing number of accidents will be found in stricter driving tests or improved warning signals. Devices will have to be found speedier than the human nervous system.

SCHOOL RESULTS

FORM I. and II.

The examinations for the first two forms of Stouffville—Continuation School were tried last week and the results are given below. The outcome of the examinations are very gratifying, especially when one remembers the difficulty encountered in securing a staff when Mr. Stouffer resigned last Christmas which necessitated the school being closed for ten days owing to inability to secure a teacher at that time.

In form one, it will be noticed that nine pupils missed one or more of the eight subjects, totalling 17 papers missed in all. In form two there were also nine pupils who did not obtain their pass in all subjects, and between them they lost 24 papers.

The papers in these forms were set by the teachers and corrected by them.

Form III. exams were tried this week, but the results will not be known for some weeks. These exams are set by the Department of Education and the papers are corrected in Toronto, and it is on them that the real merits of the school in comparison with other schools can be judged.

Form I.

The following passed unconditionally, or without a failure in any of the eight subjects, from Form I. to Form II.—

Baker, Merlyn, Baker, Norman
Barker, Betty, Burkill, Edna,
Burkitt, Mildred, Button, John,
Chapman, Alma, Churly, Helen,
Cockerill, Edna, Fleischer, Audrey,
Foote, Sam, Green, Edna, Green,
Evelyn, Hill, Jack, Hoover, Louie,
Lehman, Viola, Little, Norma,
Martin, Floyd, Meyers, Dorothy,
Nolan, Charles, Paisley, Grace,
Pughe, Edna, Sinclair, Edna, Slack,
Ella, Smith, Albert, Spofford,
Muriel.

The following must repeat the subjects in brackets.

Bryan, Wm. (Lat.) Burnett, Melvin
(Eng., Lat., Fr.) Jakeman, Elsie
(Lat.) Ramer, Reginald (Fr., Lat.)
Ratcliff, Charles (Bot. Alg.)
Sanders, Ethel (Fr., Lat., Alg.)
Slack, Stanley (Lit., Lat.) Smith,
George (Lat.) Vanzant, Garnet
(Eng., Fr.)

Report II.

The following passed unconditionally from Form II. to Form III.—
Atkinson, Blanche, Byer (Mary,
Cutler, Bernice, Cutler, Wilfred,
Harris, James, Holden, Erma, Kirby,
David, Murchison, Gordon, Paisley,
Luella, Reesor, Millard, Slack, Fernie
Smith, Edward, Spence, Jack,
Stouffer, Luella, Thomas (Hugh,
Thorn, Murray, Wildgoose, Irene,
The following must repeat the subjects in brackets.

Barker, Gertrude (Fr., Lat.,

Lat., Zoo.) Ratcliff, Glenn (Fr., Lat.,
Lit.) Sanders, Jack, (Fr., Lit., Gram.)
Smith, Eldon (Lit. Gram.) Stover,
Harry (Geom., Gram., Lat.) Todd,
Helen (Fr., Lat., Physiog.) Tranmer,
Walter (Lat. Gram.) Warren, Reg.
Fr. Lat.)

MARKHAM INDUSTRY MAKES STOCK OFFERING

Our many hundreds of readers in the Township of Markham and in fact those in Stouffville and all surrounding country are especially directed to the advertisement in this issue of prospectus of Reesors Mar-mill, a local industry which has grown from a small concern to one of considerable importance in this section.

Stock in this Co., has met with so much demand already that the provisional directors have decided to start work on the new plant just as soon as the plans can be completed, which will be almost immediately. On a turnover of \$223,692.94, the books as audited by Messrs. Henry Barber, Mapp & Mapp, chartered accountants of Toronto, show a net profit for the year ending Sept. 30, 1928, of \$16,532.38. As the new company will be under the same management it is only reasonable to assume that it will be equally well run. Those in this section and neighborhood having money to invest may well put some of it in Reesors Marmill Limited 7% preferred shares which are being sold at par value, \$100 a share, and for every two shares of preferred a bonus of one share of common stock of no par value is given. Hundreds of customers in our locality are numbered among the small and large users of Marmill, hence it is but natural that the stock should be offered to them, and we would suppose that any farmers having a little spare money to invest would appreciate an opportunity to become a shareholder in this established industry. Read over the Prospectus carefully. Application forms may be secured from the head office in Markham village, and Mr. Alvin Reesor, the president, will be pleased to give any additional information in his power.

See Here—If you have a friend at a distance you can save yourself the trouble of writing him letters by sending the Tribune, for the remainder of the year for \$1. try it

CALL FOR UNITED ACTION

Special Article written for Stouffville "Tribune"

By Professor J. E. Howitt

The weed menace in Ontario has markedly increased during the past few years. It is not an exaggeration to say that in certain parts of the Province weeds like the Perennial Sow Thistle are driving men off their farms. The tax levied by weeds on the agriculture of the Province has been mounting yearly. One of the chief reasons why the weed menace has increased with each succeeding year is the undeniable fact that in the past vast quantities of weeds have been allowed to ripen seeds on roadsides, in schoolyards, on waste and vacant lands, along our lanes and headlands and in our fence corners and odd spots here and there on the farm.

The following are the number of seeds produced by single or yellow Dock, 17,000; Common Ragweed, 5,000; Chicory, 3,000; Perennial Sow Thistle, 2,000; Wild Lettuce, 8,000; Stinkweed, 20,000. Every weed that is allowed to mature produce at least 1,000 seeds and most of them ripen several thousand seeds. In the past weeds by millions have been allowed to mature in this province and scatter their billions of seeds far and wide. Is it any wonder that the weed menace has increased in Ontario.

Are we going to tolerate this state of affairs any longer in Ontario? No. The farmers of the Province have raised voices in protest. An act has been passed by the legislature to enable them to meet the situation. United action is what is required now. Every municipality, every farmer, every land owner in town or country must unite in the war against weeds and see that they are cut early and often enough to prevent them from seeding. When the weed inspectors send out notice that it is time to cut weeds let no one lag behind or neglect his duty.

Promptness is necessary to prevent all weeds from seeding. Many weeds, if cut after they have passed full bloom, will mature their seeds. In order, therefore, to secure the greatest results from the time and labour expended, everyone concerned should see that weeds are cut just as soon as possible after the inspector gives notice.

PROTRUDING MAIL BOXES

In driving along a rural road one is struck by the number of mail boxes with long protruding arms which in some cases are actually overhanging the line of traffic. Extremely dangerous we would say and the wonder is that accidents have not already been reported. The new style boxes being issued are fastened to the post without any arms and are a decided improvement. But why not convert the old originals by sawing off those dangerous looking arms that are constantly swinging out into the roadway. We venture the opinion that if an accident should result at any time from a carelessly erected or protruding box, the owner of the same would be considered responsible.

WEEKLY NEWSPAPER PUBLISHERS

To Meet At London Ontario

The annual convention of the Canadian Weekly Newspapers Association is to be held at London, Ont., on July 4th and 5th. Weekly publishers from every province in the Dominion will foregather for the purpose of renewing friendships and discussing business methods.

Since 1859 there has been an association of weekly publishers. The strength of the association has grown with the years, and the improvement in the printing and publishing business has kept up with the advancement in other professions and business, due in part to the activity of the association, and in part to the willingness of its members to progress.

The meeting at London is to be addressed by some outstanding men in the editorial, printing and publishing departments, and as usual some delightful social events for the delegates is being provided. The newspapers association conventions have been held in Vancouver, Toronto, Edmonton, Winnipeg, Ottawa, Halifax, Bigwin Inn, with attendances around three hundred. In 1921 the members toured the west in a special train; the east in 1923, while 170 of the association toured British Isles and the continent in 1924. The Tribune is a member of the Canadian Weekly Newspapers Association.

The presiding officer for the coming convention is Mr. H. B. Anslow of The Graphic, Campbellton, (N.B.)
