**After-harvest cultivation**

Now is the time when weeds can be killed most cheaply and effectively

It is easiest to kill perennials like twitch grass and sow thistle now because their vigor has been somewhat exhausted by growing a crop. The hot sun and drying winds will work for you.

Thousands of weed seeds may be caused to sprout by light cultivation. These young plants will afterwards be killed. For this purpose a disc is effective—a gang plow or cultivator may be used.

Economize in manual labor. Use four horses and large implements if possible.

Cheapen your cost of killing weeds! Place after-harvest cultivation on the list of jobs that MUST be done. Do not leave it until you "get time." Do it NOW!

An impressive funeral service was held at St. John's United Church, Milliken, and ably conducted by Rev. J.J. Robbins, Minister of Markham and Christ Church Stouffville, Anglican Churches. There was a large attendance of friends and the many beautiful floral offerings signified the high esteem in which Mrs. Meredith was held.

**Motor Car Drivers**  
**CARRY YOUR LICENSES**

THE Highway Traffic Act requires that every person operating a motor vehicle shall secure an operator's or chauffeur license and shall at all times while driving carry same. A penalty is provided for failure to produce such licenses when demanded by an officer.

It is necessary, owing to the number of motorists who persist in driving without licenses, that the police be instructed to require the production of these licenses from time to time.

This law has been passed in the interests of safe driving and to prevent incompetent persons from operating motor vehicles. The production of a license is the only proof of ownership of one.

Carry yours at all times and avoid inconvenience and prosecution.
