### SMART WINTER COATS

Its a season where the lavish use of Fur decreases the smartness of each individual coat—fine fabrics, too, are part of the picture since they must have a new softness to fall in flares and circular fullness. This group has all the interesting new fashion themes, the intricate seamings, and dressmaker touches. Materials are softly rich in imported broadcloths, furs are selected in mole skin, sable, opossum, the new browns, sands, blue and black. From

\$12.75 to \$37.50

### GIRLS HEAVY COTTON BLOOMERS

Regulation style in fine rib knit with V. gussets. Choice of peach, cream, sand, black and natural. Sizes 6 to 14 years.

59c. EA.

### HEAVY POLO COATING

A most serviceable material for children's coats, cosy and warm and so reasonably priced. The colors are Hydro blue, scarlet, polo red and sand. 54" wide.

\$2.00 YD.

### CHARMING DRESSES FOR FALL

In a fine weave Jersey Silk Crepe, Celanese with flares and pleats. From

\$8.95 to \$17.50

### QUEEN'S CLOTH

This cloth has the fashionable "right of way" for day time and sports wear. A soft wool dress fabric in shades of rosestone, majolica, pigeon blood, pitch pine, silver pine. 39" wide.

\$1.35 YD.

### WOMEN'S SWEATERS

Women's Sweaters in all wool and silk and wool, these fine coats in a weight suitable for present wear, small collars and novelty trimmings.

## HEAVY SILK GLOVES.

With a Chams-Swede Lining, fancy embroidered cuff with contrasting silk.

SPECIAL \$1.50

### EAST YORK LIBERALS OPPOSE MR HENRY

East York Liberals will place a candidate in the political field in opposition to Hon. George S. Henry, it was decided at an enthusiastic organization meeting of the party held in the I.O.F. Hall, Agincourt, Thursday night last week. Levi Annis of Scarborough called upon the Liberals to defeat "Ferguson control of liquor" and the members present voted unanimously to put the name of a Liberal candidate on the ballots. The meeting was in militant mood. Dr. Arthur Thomson of Bendale stated that since the outbreak of the war he had not experienced such a thrill as that when he read of the premier's announcement that no plebiscite would be held as long as the Tory party was in power. "I don't purpose," said Dr. Thomson, "to take the rifle from my shoulder until Ferguson is put out." He explained various organization works he had performed to prepare Liberals for the campaign. Alex. Bruce, chairman of the meeting, declared that Liberals had brought on themselves difficulties they now entertain in electing Liberals to the House for Toronto and York riding against Drury on his electoral reform bill. "If Liberals had stood by Drury on electoral reform," he said "we would not be worrying about our candidate being elected to-day. Under the present system, Liberals in Toronto have been disfranchised."

One week was granted to the committee to select a candidate and prepare for a convention. The committee consists of L. E. Annis, A. D. Bruce, H. A. Sanders, Hugh Clark, Thomas Trench, J. MacKenzie, Jas. Northey, Albert Wideman, Ewart Stiver and W. J. Young. Heather Hall, Agincourt, was selected as the place for the convention on October 3rd.

### GARAGE REPAIR SHOP CHANGE

Having taken over the ownership of the repair shop at the Ringwood Garage, I solicit the patronage of all motor owners. Experienced mechanics and modern equipment enables us to give the best possible service.

F.H. NICELY, Ringwood, Ph 167

## LENNOX WITHDRAWS WITH TWO OTHERS IN FAVOR OF CASE

Newmarket, Sept. 29—Chifford Case of Aurora was made the unanimous choice of the North York Conservative Party as candidate for the riding in the forthcoming Provincial election at a largely attended convention meeting in the Newmarket Town Hall on Monday afternoon.

The names of Captain H.A.C. Bruels of Sutton, Dr. George Lockhard of King and Colonel Lennox were placed before the convention, but they all withdrew in favor of the Aurora candidate. Case's name was placed before the convention by Reeve Fred A. Lundy of Newmarket and Captain A.G. Conble of Aurora. Colonel Lennox was the principal speaker, and in his address warmly upheld the record of the Ferguson Government. A vigorous defense of the Liquor Control Act was made by Dr. C. A. Ames, former President of the York County Prohibition Union, who asserted "it was the best liquor legislation the country has ever had" and that "other countries were studying it with the intention of adopting it."

### LOCAL DEMAND for BARLEY

Expanding as Result of Increasing Requirements for Industrial Purposes

On account of unusual weather conditions prevailing over the past few years, there has occurred a wide fluctuation in the yields of spring sown grains throughout a great portion of Ontario. In the present year for example, the oat yield of the province is placed by the government at 31.6 bushels per acre or 4.4 bushels below the average. The yield of barley however is somewhat above the average and this consistent performance in seasons of climatic stress appears to be generally characteristic of this crop. Conditions pertaining to the utilization of barley and barley products seem to be changing quite rapidly. Until comparatively recently, the use of barley in Ont., was almost entirely restricted to the feeding of live stock. Today we find barley playing a part in the manufacture of innumerable foodstuffs such as bread, breakfast foods, biscuits, infant and invalid food preparations, tonics, condiments and food preservatives. In one European country alone, the quantity of barley made into malt coffee each year amounts to almost as much as the whole barley crop of this province.

As in the case of malt coffee, the first step in the manufacture of most barley products for human use, is its conversion into malt. And for this purpose a very and efficient factory has been constructed in Toronto in the past year. The operators of this concern are desirous of patronizing, to the greatest possible extent, the barley producers in this immediate vicinity and readers are directed to their advertisement for barley sales which appears elsewhere in this issue.

### REESORS MARMILL LIMITED NEW PLANT

It is with a great deal of pride that we review the splendid progress made by D. N. Reesor & Sons, as expressed in the completion of their large, new 3-story plant. As our readers will recall, D. N. Reesor & Sons took over the old Markham Flour Mills, on Oct. 1, 1924, and in the intervening years have developed such a large volume of business as to necessitate the building of the immense new plant. In 1924 there were only three men employed in the plant—at the present time there are twenty on the payroll, and the business is becoming sufficiently large to attract the attention of the grain interests.

The new plant is three stories in height, and is 60'x112'. It has eight concrete storage tanks of about 4,000 bushels each, and six smaller sub tanks of about 1,500 bushels each, giving a total of 40,000 bushels of grain storage. This in itself is a big factor, as it will provide a local grain market.

The Marmill Plant is equipped with the very latest grain cleaning and mixing machinery. Farmers can now bring their grain to this new mill and have it cleaned in the most efficient way. They can also sell their grain at the mill. This should mean a new era of prosperity for local farmers.

The new mill is equipped with the very latest machinery for mixing commercial feeds, and it is their intention to specialize on this branch of the business. The very best authorities strongly advocate balanced commercial feeds in preference to the "hit and miss" method of home mixing. Reesors have retained the greatest authority in America on commercial feeds, and are now producing specialized feeds for every need in the feed of dairy cattle, poultry and hogs.

Mr. A.E. Reesor, who is the

General Manager of Reesors Marmill Limited, modestly gives credit for the growth of Markham's rising industry to the people of Markham and surrounding districts who have so loyally supported this local mill, and who have made possible the development of a local grain market.

### WHITCHURCH Tp. COUNCIL

The North York Plowmen were granted \$20. towards the prize list for the plowing match to be held on Thursday, October 24th. Last year the township made a grant of \$50, but owing to the strain on the finances this year due to the heavy damage to roads and bridges by the flood last year, the council felt the cut justified. The members unanimously supported a resolution for the \$20 amount.

Owing to the school fair the meeting business of the council was transacted in the forenoon, giving the members an opportunity to attend the fair after one o'clock.

Reeve Herman Kidd presided all the members being present including Deputy Reeve Wes. Williams, Councillors Lorne Evans, Newton Iae and Ross Rateliff.

On motion of Councillors Rateliff and Rae the names of Fred March, Wm. Pattenden and J. A. Clark were accepted as bondsmen for the tax collector Frank Steckley. The securities total \$20,000.

Frank Playter and W. Curry appeared asking for a grant for gravelling on the 2nd concession north from lot 26. They were granted \$300.

The work on the 2nd concession which has been rather extensive due to the bad culverts and wash-outs from Aurora sideroad north is now completed and has cost approximately \$1100.

After passing the following road accounts, council adjourned to meet on Saturday October 26th:

Grant Evans, gravel	\$111.25
W. Cockerell, road mte.	\$ 26.98
A. Topper, stone	50

Fred Monkman, maint.	12.25

### LEMONVILLE

Elmer Wells, and Gordon Lemon, threshed this week both report very good results.

Mrs. Thos. Spence spent Sunday with her sister Mrs. Kerr in Toronto.

Mr. and Mrs. John Brown and Walter spent Sunday in the Queen City.

Mr. and Mrs. Thos. Gilroy and family spent Sunday in Sutton.

Mrs. Luella Harwood and sons of Toronto spent Sunday with Mr. and Mrs. Macdonald.

Mr. and Mrs. Percy Hamby spent Tuesday at Lemonville with Mrs. M. Cook, Mrs. J. Holman returned to Toronto with her daughter Mrs. Percy Hamby.

We understand that some of our trustees or ratepayers are endeavoring to have Miss Thompson teach first form work of high school along with her public school duties. Evidently Premier Ferguson's educational ideas are quickly taken up here. Without proper equipment it is hard to see how 5th class work could be taught here. There are nine subjects to cover in 5th class, and your correspondent cannot see where a teacher in an ungraded school would have time to give to the additional work.

## Special Price for Relining

This week commencing THURSDAY the labor charge for RELINING BRAKES on any car will be \$1.00 per wheel. So get your Brakes Lined and save a fine, because remember the FINE does not LINE your Brakes. We also have Repairs and Supplies for LOCKHEED Hydraulic Brakes.
