THE MOST FOOL-PROOF ROOFING YOU CAN BUY

When Rib-Roll was first put on the market it caused favorable comment all over the country. Others have attempted to copy its design, but no substitute is as good as the original. Besides, all the best features of Rib-Roll are patented. If you really want a lightning-proof, fire-proof, weather-proof roof, get Rib-Roll. It comes in big handy sheets, easy to lay, has seven ribs to take nails; no other roofing gives such security; fits weather tight; improves the appearance and adds dollars to the value of the property.

And PRESTON LED-HED NAILS mean no more "threading". The new invention—and the best for metal roofing. The lead on the head perfectly seals the nail hole. Water-proof, eliminates clumsy washers. No more "threading". Their ease and speed of handling make them worth many times their cost. 22¢ per lb. Free sample gladly sent on request.

Proper BARN VENTILATION with Preston Ventilators

To our knowledge, not a single Preston Ventilated Barn has ever been burned because of spontaneous combustion. Warm, moist air in an improperly ventilated barn produces conditions conducive to spontaneous ignition. Preston Ventilators for the roof, adjustable side-wall windows and spacious doors protect the barn from fire dangers by keeping the air in constant circulation. They are built to keep the elements out. Write for full particulars.

PRESTON BARN DOOR HARDWARE

Preston hot-galvanized four-wheel Hangers and birdproof Barn Door Track are the best hardware made for heavy barn doors. The Hanger is adjustable up and down, and in and out. This makes erection so easy that hundreds of builders will use no other type.
