DRY HARD EARTH SOFTENED BY RAIN

Permits Renewed Plowing - Feed Scarce Due to Drought

Coming at the close of a ten weeks drought, almost unparalleled in the history of the province, Tuesday, Wednesday Thursday last week there was a downpour of rain, pretty general all over the country will prove a God-send to the farmers and general public. It is expected to completely revolutionize and improve existing conditions.

With all small streams and rivers at low ebb, wells and cisterns running low or exhausted, and the ground everywhere as hard as rock, dairying has been carried on under the most discouraging conditions, and the output of milk enormously reduced. Farm work, such as plowing, and the garnering of roots, has been carried on under a great handicap. With last weeks deluge, all this will be changed. Right now the fall plowing will be resumed with redoubled vigor, and in the three weeks or a month which may reasonably be assumed to elapse before a "freeze-up" takes place an enormous amount of fall work will be safely completed. Not a moment will be lost from this time forward, and from daylight till dark the tractor and plow will be steadily on the job.

Ordinarily the bulk of the fall plowing on the average Ontario farm is finished up after Oct. 15th, and while the present is a fortnight or so later, increased activity will overcome much of the delay that has preceded.

Bumper Apple Crop.

One thing the farmers have succeeded in getting well out of the way, is the picking of apples. An exceptionally good crop, in which the Northern Spys, Greenings and other well known varieties predominate, was garnered. Down along the lake front counties, such as South Ontario, Durham and Northumberland, reports agree as to the abundance and quality of the yield.

The one serious phase which confronts the average Ontario farmer at the present time and will become accentuated, is the scarcity of winter feed, and the fact that dairy and beef cattle are going into winter quarters in poor shape to maintain the quantity and quality of milk, cream and butter. Ensilage corn for the most part was less than half an average crop, mangolds and turnips half a crop, and some of this has already been drawn upon. Great care and economy will be required to bring the average Ontario herds through the coming winter.

A saving clause is the excellent crops of alfalfa, in some cases three crops having been garnered. The most palatable and nourishing of foods for horses and cattle, it is invaluable to dairymen.

Last week's downpour will do an immense amount of good to the fall wheat, ensure an abundant top, and obviate all anxiety on that score. That the heavy rains will have any appreciable effect on the milk supply is not considered likely. The bulk of the dairy cattle are already stall-fed and while the supply of milk going into the city, roughly computed at around 10,000 cans a day, was reduced by from 25 to 35 per cent., dealers have gone much further afield, as far east as Napanee and west to the border counties to make up the deficiency. Higher milk prices are inevitable.

As to the prices which Ontario farmers were receiving last week for grain and seeds. Fall wheat was quoted at \$1.27 to \$1.30; spring wheat \$1.20 to \$1.25; Oats 65c upward; barley 75c; buckwheat 80 to 83c, while red clover seed is quoted at from \$8 to 8.50 per bushel. According to Ewart Stiver of Stiver Bros., grain merchants of Unionville, the yield of red clover in Ontario this season has not been equalled in years. With threshing practically finished deliveries at country points in normal.

NOTICE TO CREDITORS

In the matter of the Estate of Sarah Ellen Taylor, late of the Township of Whitechurch, in the County of York, Married Woman, deceased. NOTICE is hereby given pursuant to the Trustee Act that all persons having claims against the Estate of the above named SARAH ELLEN TAYLOR, who died at the City of Toronto, on or about the 24th day of September, 1929, are required on or before the 20th day of November, 1929, to send post prepaid or to deliver to the undersigned Solicitors for the Executors full particulars of their claims, and the nature of the security, if any, held by them, duly verified.

AND TAKE NOTICE FURTHER that after the said 20th day of November, 1929, the said Executors will proceed to distribute the Estate among the parties entitled thereto having regard only to those claims of which notice shall then have been received and they will not be responsible to any persons of whose claim they shall not then have received notice.

VAUGHAN FIRST IN CONTEST

The "Royal Special" judging competition under the auspices of the York County Junior Farmers was held in the Newmarket district on Wednesday. The ten securing high standing will be given a three day visit to the Royal Winter Fair as guests of the directors and of the City of Toronto.

The contenders judged live stock, grain seeds and poultry, and during the day visited the farms of Bearcroft & Sons, Aurora Beckett & Sons, Whitechurch, and Alex. Doner, Newmarket. There was a special contest this year for a novice judging team of contestants who never attended a short course or took part in a County Judging competition. The Gold Medal was won by Clarence Graham, of Vaughan Township, who coached the following team: Donald McCallum, Cameron McLure, Alex McNeil all of Vaughan township. As a team they won first prize and also individually headed the list of winners for the day. The second prize for coaching was won by Jos. Levison of Armitage, who was awarded a silver medal. The standing of the ten winning contestants was: Donald McCallum, Vaughan Township 799; Cameron McLure, Vaughan Township 766; Alex McNeil, Vaughan Township 741; Russel Burr Markham, Alvin Wideman, Markham; Everett Phillips, Vaughan; Raymond Clarkson, Watson; Wilbert Jennings, Temperanceville; F. Stelles, Temperanceville; Leonard Harman, King.

Cut Your Fuel Bill by Many Dollars

YOUR yearly bill for coal and coke amounts to a goodly sum. There is plenty of wood lying around your farm—prunings from orchards, dead trees, old fence rails, etc.—which, when cut, would save many dollars in fuel expense.

A "Toronto" Saw, driven by a "Toronto" Engine, will cut as much in an hour as you could cut in a day by the old back-breaking, back-saw method. All-steel construction, strongly braced, equipped with self-aligning adjustable bearings and swinging table, a "Toronto" Saw gives years of satisfaction. A "Toronto" Engine operates economically on Kerosene or Gasoline.

This is just one of the many money-savers in the "Toronto" Farm Equipment line. Come in and learn more about them, or write for free literature. 112

Stouffville, Ontario

FORN AND FORDSON OWNERS

End 75% of your tractor or car Ignition troubles. The Dynamo Timer will make your Ford or Fordson start much easier, run smoother with more even power.

The Dynamo replaces the Ford Commutator. It requires no oiling, does not wear unevenly, thus it always gives a smooth, positive contact. It banishes all your commutator troubles and improves engine performance at all speeds.

The average Fordson wears out two Ford Commutators per year; but the Dynamo Timer reduces your repair bills because it will last indefinitely, without attention and is fully guaranteed to render 100% efficiency for 3 years. This the cheapest in the long run. Put one on and forget it.

Many Dynamo Timers are in daily use in Markham and Whitechurch Townships. A recommendation from every user.

When you need a new Commutator give the Dynamo a trial, and if not fully satisfied I will return your money. Price \$2.75.
