GOVERNMENT LOANS FOR FARMERS

The Ontario Government by means of a body known as The Agricultural Development Board loans money to farmers on the security of first mortgages up to 50 per cent. or a little better of the value. The mortgage bears annual interest at 1-3 per cent. and runs for a period of twenty years or may be paid off at the end of any year. The payment of principal and interest is blended and if the mortgage runs the full term, it is paid off in twenty equal annual payments of \$53.68 for each \$1,000 of the loan.

If any farmer wishes to avail himself of getting a loan from The Agricultural Development Board in the next few months, it would be good business to apply now, even though the money is not required until next February, March or April, as the premises must be examined by a valuator and they are not permitted to make an inspection while the snow is on the ground.

Application forms may be easily procured, filled in and forwarded. The routine is just as simple, if not more so, than obtaining a loan from a loan company, and the expense less.

PEOPLE OF MODERATE MEANS HIT

(Chesley Enterprise)

Last year the Enterprise wrote an editorial on the rich people and the paupers being lucky ones when they had to be taken to a hospital on account of the high charges because the former class wouldn't be much affected by the cost and the latter because they received free service. Our contention was that the burden of hospital maintenance fell on the middle class. Canon Cooy, of Toronto, in an address last year, took the same view that many people of moderate means were given a financial set-back for years by the high charges to inmates in hospitals.

The same conditions obtain in the United States and we find a prominent medical man or that country writing in the press along the same lines. He maintains that the pauper received the benefits of modern medicine free of charge, and the millionaire pays dearly for them but in the opinion of Dr. Hugh S. Cummings, surgeon-general of the public health service, the man of moderate means, who will not accept charity and cannot afford high fees, is being neglected.

The situation, he said today, presents a challenge to the medical profession, and must be met by a readjustment of the cost of medical attention.

The Provincial Secretary, who has charge of hospitals, should bring this matter to the attention of the Ontario Legislature at the next session with the object of making hospital charges being levied on patients according to their financial condition.

FRIGHTENED DEER SEEKS SUCCOR

All But Asks Young Men To Befriend It

Completely exhausted after having fled from the terrifying baying of hounds a yearling doe came out of some cover on the west side of the fifth sideroad or Tecumseth Simcoe County, Sunday afternoon. At the fence at the roadside it hesitated and then decided it could not jump the fence. Fred Murphy and some companions were coming north in a car and seeing them the little animal vaulted the fence and approached the car as if seeking succor.

The animal was in a state of complete exhaustion. Its breathing was rapid and its legs could scarce sustain its weight. Its terror was pitiable. The rapid dilatation of nostrils and the continually outstretched neck to give the nostrils every opportunity to obtain the scent of danger together with the alert and wandering eye betokened a condition more pitiable than that of fatigue.

The deer did not object to having hands laid on it and courted the presence of the young men who had befriended it. The dogs that had been pursuing it did not follow it to the fence their course being deflected by threatening gestures of a couple of the deer's benefactors.

The exhausted animal was led into Wm. Stych's driving shed where it was safe from the attacks of dogs and men. Its fright was calmed in a little while and the rescued animal lay down after being given a drink of water and some oats. It was too tired to eat and lay down to rest. Later it helped itself to the grain. When the door was opened as neighbors came to the Stych home to have a look at the grateful animal it showed little fear and soon became quite accustomed to being the object of curiosity.

Mr. Stych notified Provincial Constable Robinson who went down to see the deer, but who could do nothing but advise its captors to let it go. The animal did not show any inclination to take to the bush, covered areas several of which were in sight. Instinct had taught it that wherever good food is available in plenty that is the place to inhabit and oats and warm water were no doubt the best food the little animal had tasted for some time. Monday it was not averse to letting whosoever came to see it lay his hands on its sleek coat of fur.

Rather than see the deer forced to again take a chance with dogs for the preservation of its life Dr. S. R. McKeveloy of Beeton took the little animal down to Toronto and presented it to the commissioner of parks in the city. Alliston Herald

The Reward of Years of Toil

IF YOU contemplate an auction sale, the closing out of your years of effort in building up a complete farm equipment, the Bank of Commerce is splendidly equipped to cater to your financial needs. Our local manager and his staff will gladly make all arrangements for the collection and discounting of all sale notes and for furnishing an extension of credit where necessary. A successful sale is entirely dependent upon sound financial arrangements.

WANTS CREDIT FOR LAND PURCHASED

Alteration in the proposed referendum agreement whereby the county and the province share equally in the Uxbridge township reforestation project is being sought by the county council, which has appointed a deputation to interview Hon. W. Finlayson, minister of lands and forests.

Under the proposed agreement the county and province are equal owners of the reforestation area. The council asks that the agreement be altered so that if they have to bear 50 per cent. of the cost they will receive credit for the amount expended in purchasing the land.

Council passed a by-law to issue debentures for the county's share of the provincial highway construction in the county for the year. It amounted to \$81,000. A by-law was also passed to raise debentures to pay the county's cost of laying pavement from Manchester to Port Perry.

The warden stated that the children's Aid Society would ask the county's assistance in financing the new Children's Shelter in Oshawa.

The winners of the oratorical contests from the various rural fairs will address the council on tion for cups donated by J. W. Widdifield and W.E.N. Sinclair.

WHITEVALE BRIDGE TO OPEN THIS WEEK

Old Structure Went With Spring Floods—Question of Payment For It Now in Courts

One of the largest bridges which was washed out in Ontario county by last spring's storms and which has been replaced this season, is the Whitevale Bridge in the Township of Pickering.

It was announced in County council now in session, that the structure will be officially opened this week. A celebration is planned.

The structure is cement and steel and is located on an important road of travel. The question of who is to pay for it is now before the courts. Judge Ruddy some months ago held that the township must pay when application was made before him to have it declared a county bridge. An appeal was made from the judgment.

The question of the payment of the county's share of the Atherley Bridge was again brought before the council. The county's share of the total cost amounts to \$28,000 and a knotty point of procedure is involved, as to whether the county should pay this by issuing debentures, as it is understood that the bridge is to be presently taken over by the Provincial Government as part of the provincial road system.

County Clerk Christian was of the opinion that a special session of the council would be necessary to pass the by-law authorizing the issue of debentures.

Reeve G. M. Forsyth of Pickering Township, chairman of the special committee which dealt with the Atherley Bridge question expressed the opinion that previous to taking any action, representatives of Simcoe county and Ontario county should meet with the Department of Highways. No action has as yet been taken upon this suggestion although it is probable that it will be discussed later this season. The County's debenture debt will be increased by many thousands of dollars as the result of paying operations carried on this summer on county and provincial highways. The county will have to pay its share of the pavement constructed and other improvements.

GIFTS Conveniently arranged to make Shopping Pleasant

CHRISTMAS GIFT BUYING HOLDS NO TERRORS FOR THE EARLY SHOPPER. Shop early in the month—make your choice in comparative peace and quietness. Save the wear and tear of nerves and temper. Our stocks are NOW COMPLETE

Full fashioned hose, knitted from pure thread 12 strand silk, all silk to the welt, double soles, all the new, wanted shades. We can thoroughly recommend this. It would make a wonderful Christmas gift, per pair \$1.50, \$1.75 and \$2.00

High-class Rayon Underwear—Vests and Bloomers of finest quality—the Vest is opera style with shoulder straps—full cut bloomers, all the latest colors. Our advance Christmas prices from 95 to \$2

Colorful Fancy Towels, comprising of the newest and latest designs and colorings, have excellent absorbent qualities, and will stand a lot of usage, large size 59c.
