

LOCAL HAPPENINGS

Less than four weeks till Christmas.

Pyrene fire extinguishers have been placed in the Stouffville school building as a further effort to minimize the fire hazard at the school.

A Calendar—Will be given to anyone calling for it at Bowday's Drug Store on Thursday, Dec. 5th, 1929. No reserve as long as they last.

The local Oddfellows are looking forward to an interesting meeting on Monday evening of next week, when the election of officers for 1930 will be held. A good turnout of the members is expected.

Stop worrying about what to give "Dad" or "The Boys" for Christmas. It's easy if you come to Curtis' where gifts suggest themselves galore.

With robberies in Uxbridge, Beaverton, Cannington and other towns along this line of late, local residents should guard their premises well, and not leave their homes unlocked when the family are all absent.

Farmers were paid from 15 to 55¢ dozen for eggs on Stouffville market last Thursday, and butter was 40¢ a pound, chickens brought 30¢, dressings and hens 33¢.

As the bulbs of the Horticultural Society were not all disposed of, the remainder will be sold at cost of the home of Mrs. B. Doten. Lovers of bulbs should not miss this bargain.

Don't forget the Presbyterian Church Bazaar on Saturday at Porter's at 2:15; open all evening. Home-made baking, fancy and practical articles for sale, fish pond, etc. Come in and browse around.

Mrs. H. J. Mallory was in Toronto from Tuesday to Thursday as local delegate to the annual meeting of the Provincial gathering of Women's Institutes. She was accompanied by Mrs. E. J. Davey. Entertainment was provided for the delegates at the Royal Winter Fair with a banquet at the King Edward Hotel where the daily sessions are being held.

Symbolic Masonry was the subject of an interesting discourse delivered by Rev. A. McLellan to about 60 Masonic brethren in Stouffville on Friday evening, following the regular meeting of the local lodge. Other speakers were present from Toronto, and an interesting toast list was presided over by Dr. Herbert Freer. A chicken dinner was served by the junior warden of the lodge.

The extent to which the high price of cauliflower benefitted the local growers this season, is a record in the case of one farmer at Stouffville who worked a field on shares, and the total production of cauliflower in the 3-acre plot realized \$875. In the firm belief that the success of the farmer spells the success of all other business, we hope such prices obtained this season will prevail again next fall.

Mr. A. C. Burkholder who is retiring as manager of the local Bank of Commerce branch, has decided to enter the insurance business. He is taking out an agency with the Canada Life, also with a fire insurance company and a branch of casualty insurance. Mr. Burkholder's general knowledge of the insurance business will enable him to enter the business with the experience of an old established agent.

Mrs. Rose E. Legge of Whitchurch widow of Thomas Henry Legge, farmer, receives one-third of his estate valued at \$8,541, while his two sons, Robert of Toronto, and Harold of Whitchurch, share the residue equally with their sister, Miss H. M. Legge of Aurora, according to the will just filed for probate. The estate consists of a farm, being the easterly parts of lot 62 and 63 in the first concession Whitchurch, valued at \$6,500, and other personalty.

The Bell Telephone Co. have completed the lowering of crossarms on their line on the north side of Main street so that their poles may be used as electric light standards also. This week work commenced on the line which is to give us more street lamps to the number of 18. This work was authorized three months ago, but for one reason and another it has been impossible to get on with the construction of the line. When once the lights are up there will be a decided improvement in the business section.

There is a rumor in town to the effect that the Canadian Bank of Commerce is about to enlarge their bank building by making an extension of some 30 feet to the rear of the present building. Patrons of the bank will welcome such an improvement, as the business of the branch has gone to such proportions as to leave the present building inadequate. Much of the time there is need of two tellers, but facilities provide for only one, and people have been known to walk out of the premises in disgust after a long wait, and a line-up still ahead of them. Such conditions should not exist, and they do so at a loss to the institution as there are other banking facilities in Stouffville of one of the soundest institutions in Canada.

Lovers of good music were given a rare treat on Friday evening when they visited Ratcliff's Hall to hear Ye Old Tyme Village Quartette of Toronto render one of the finest programs heard here in a long time. The quartette delighted the audience with their almost continuous selections of old time favorites. They were assisted by Pearl Carter, elocutionist, and by Miss Martha Hogg at the piano, both of whom are worthy of the high type of concert company to which they belong. The quartette was sponsored by the Eastern Star, not for the purpose of making money, we are informed, but in order to give the patrons something in the line of the very best musical talent obtainable. That the concert proved a financial success also shows that the best is always appreciated, even at increased cost.

On the occasion of the anniversary in the United Church next Sunday two outstanding preachers have been secured in the persons of Dr. Laird, treasurer of the United Church of Canada, and Dr. Colin Young, superintendent of Missions for Canada. We bespeak a large turnout to hear those two noted exponents of the gospel. There is also special music being arranged for both services.

Mr. James Muston, the local florist held an important post at the Royal Winter Fair this year, being one of the judges on roses, carnations and chrysanthemums of which there was a magnificent display. To be selected as judge at so large and important a fair as the Royal is a splendid commendation to the local florist, for it requires considerable experience and years of training to fit one for this work. From the remarks of the exhibitors which includes many large and important growers, the judges gave excellent satisfaction despite the difficult competition at this year's fair.

We are informed that school teachers have been called on to warn children against smoking cigarettes because young girls are secretly using them. Surely it is time for parents to step in and control this thing if only to prevent their children setting a bad example to others. One of the worst features of the complaint is that it is lodged against certain girls. As it is quite a common thing to see young boys under age smoking cigarettes it might be in order to call for an investigation to ascertain where the weed is being procured.

Since The Tribune mentioned the fact in its last issue that the name of Wm. McPherson is omitted from the list of soldiers engraved on the Memorial Gates at the entrance to the park, Mr. F. Nighswander, another of our returned men, informs us that still another name is omitted—that of Albert Sutherland, who enlisted in the 220th battalion, and served here and in England. Both these men enlisted, served their country, and are entitled to the recognition which all those received whose names are engraved on the tablets. Will the municipal council take steps to complete their fine memorial by adding the names of these two soldiers?

MAN SO NERVOUS FEELS HIS STOMACH JUMP

"I got so nervous my stomach felt like it was jumping. Vinol entirely relieved the trouble. I feel better than in years."—J. C. Duke.

Vinol is a compound of iron, phosphates, cod liver oil, peptone, etc. The very FIRST bottle makes you sleep better and have a BIG appetite. Nervous, easily tired people are surprised how QUICK the iron, phosphates, etc. give new life and pep. Vinol tastes delicious. J. M. Storey, druggist, Stouffville.

Patrons of hydro on the Stouffville system are notified that the power will be cut off on Friday this week from 1:30 in the afternoon to 3:30 o'clock. Necessary changes are being made that will improve our lighting and power system. When the current is turned on again after the brief shut-down on Friday our voltage should be considerably improved.
