

POINTS OF MARMILL SUGARED EGG MASH SUPERIORITY

1. Produces eggs with hard, firm shells, which prevent "leakage" — ensuring vigorous, healthy germ within the egg.
2. Increases "hatchability" of eggs.
3. Although far superior to any other egg mash in its result-producing power, MARMILL EGG MASH is priced the same as MARMILL laying Mash.

Mineralized by Foz-for-us, Faster Fat Fish Meal, Bone meal and Kelp. This new mash has been tested and proved. It has been definitely established that eggs produced by hens fed on MARMILL SUGARED EGG MASH have a harder, firm, smoother shell than when ordinary feeds are fed.

The 22 ingredients of MARMILL SUGARED EGG MASH are scientifically blended to produce the required ration that enables the hen to put into the egg the qualities that produce strong, healthy chicks.

MARMILL SUGARED EGG MASH is ready for delivery now. Phone or call for your requirements today.

DO YOU REMEMBER WAY BACK

WHEN?

The boys and girls played together in the big yard at the rear of the old brick school?

Snow balling was commonly indulged in during noon recess between fences lined up on either side of the yard.

Some of the boys went by the back way through what is now Memorial Park to sample some of Auntie Kent's snow apples?

The "shaker" heard it but did not heed the warning until he asked if enough were down and Dougall's voice answered, "Yes, you had better come down now."

He came down, but not by way of the trunk. He jumped and ran, but did not meet any of his worthwhile pals that night. Were you there?

On the way—several times one or another said, "Look out; here comes Dougall," until through familiarity the phrase had no effect. The tree was located, the lots were drawn for one to go up and shake down the fruit. He had just nicely got started when someone said, "Look out; here comes Dougall."

Hannah Hook got in line with a snow ball thrown by "Ted" Pagen and shed a few tears. Tears always brought "Ted" to a state of repentance and his efforts to comfort Hannah were profuse in his English dialect; "Ah! Annah, it wasn't 'ard. It wouldn't hurt yeh! Were you there?"

"Has Been"

GORMLEY

Mrs. W. B. Henderson and family and Mr. Barnard spent New Year's day with at Mr. George Cober's at Almira.

Mr. and Mrs. R. Brillinger and family visited Mr. A. B. Sheffer's at Bethesda on the holiday.

Our merchant S. N. Doner entertained his brothers and sisters with their families on New Year's day.

Mrs. Harvey Sheffer is spending a few weeks with her mother Mrs. Sarah Steckley.

C. E. Heise is assisting our mail carrier on route two for the winter. Misses Vera Hills, Myrtle Henderson, Dorothy Doust, Clara and Luella Steckley of Buffalo spent a few days during the holidays at their homes here.

Mr. W. B. Henderson is home from Buffalo for a few days.

Mr. Seth, Wideman wears the Smile—it's a girl.

Mrs. A. Sider and Mrs. Ralph Baker are on the sick list. We are sorry to lose Mr. and Mrs. Victor Appleton from our midst, and wish them success with their farm at Bethesda. Mr. Curry and family have moved into the house vacated by them.

Watching the old year out has been a common custom in many lands, and our people here in Gormley, many of them at least, love to attend this service in the local church each year of which this last December 31 was no exception. In most countries this period of the year assumes with the serious minded the phase of devotion. Among the Greek Catholics the same usage prevails. It declined in the Church of England, but was revived by several of the dissenting bodies, the watch night of the Methodists being merely a modification of the once general practice. The Mennonites for the most part recognize this divine service New Years eve.

Among the convivially inclined, however, watch night is taken anything but seriously, and the new year is welcomed with such signs of rejoicing as to one who did not understand the customs would seem to indicate that all men were heartily tired of existence and glad to see their years go by as speedily as possible.

June Feed in January

IT has been proved by test and by experience that good corn ensilage, when combined with hay and grain, produces the best quality beef and greatest quantity of milk—at smallest cost. A "Toronto" Silo will turn your corn into the finest ensilage, and give it 1/2 to 1/3 greater food value than when fed as dry fodder. By feeding "June feed in January" you keep your cattle healthiest, most valuable—you get more milk and better milk. A "Toronto" Silo soon pays for itself in increased profits, and earns big returns on your original investment year after year. "Toronto" Silos are strongly built from selected spruce staves, double tongued and grooved to exclude the air, treated with creosote to lengthen their life. Silage juice can't affect treated wood—can't freeze to the walls of a wooden silo. Special Hip Roof construction gives 15% greater capacity.
