## The Reward of Years of Toil

IF YOU contemplate an auction sale, the closing out of your years of effort in building up a complete farm equipment, the Bank of Commerce is splendidly equipped to cater to your financial needs. Our local manager and his staff will gladly make all arrangements for the collection and discounting of all sale notes and for furnishing an extension of credit where necessary. A successful sale is entirely dependent upon sound financial arrangements.

## THE CANADIAN BANK OF COMMERCE

(THE STANDARD BANK OF CANADA)

### ALTONA

J. P. CASSIDY

STOUFFVILLE ONTARIO

### GOODWOOD

Rev. Mr. Harden and Mrs. Harden are spending a couple of days in Toronto.

Wm. Whittleton and Mrs. R. James, are visiting friends in Toronto.

The members and friends of Goodwood United Church are meeting next Tuesday to enjoy a banquet and social evening. All interested are expected to be there about 5 o'clock.

In the death of Mary Stafford here on Monday of this week, a devoted christian and life-long resident of this place has passed beyond. Born 31 years ago on the old Stafford homestead, a portion of which farm the United Church now occupies, she had spent here entire life here. Until a couple of years ago she was in excellent health, but at that time lost the sight of one eye, and suddenly a couple of days ago her condition became serious and death was due to old age. She was a woman of kindly impulse and a valuable neighbor and friend. During her active years she labored in the work of the Methodist church. Of a family of nine children four brothers and one sister survive, they being Calvin and Amos at home, Jonathan of Vancouver, Nathan of Toronto, and Mrs. James Wagg of Stouffville. Another sister Mrs. Catharine Johnson died in Stouffville just a year ago. The funeral on Thursday afternoon will take place to Goodwood cemetery. Rev. A. Harden conducting the service in the church.

### CEDAR VALLEY

Mrs. Phillip Fogal is improving.

Wm. Rose was in the city over the week end.

A. E. Reynolds is confined to his bed once more.

Alex. Emerson had to lay off work on account of a sick horse.

Geo. Bingham is not so well again. We hope he will soon be around.

Chas. Brandon is engaged in cutting wood for P. Kauffman.

P. Kauffman is building a new house this summer, also a bathing pool. Now we can all have an annual bath eh!

H. Wildfield is getting along very well with the job of bushing the T. L.E. It makes a big improvement to the road.

### DEATHS

Geo.—At the residence of her daughter Mrs. E. H. Crosby, Markham, on Wednesday, March 26th, 1930.

Elvira D. Crosby, relict of the late Rev. D. F. Gee, in her 38th year. Funeral on Saturday, March 29th. Interment St. Andrew's cemetery.

### 4th LINE UXBRIDGE

Mrs. H. Roach is home again. When will we see Harry's smoke? Charlie is sure calling on the 4th often.

Melvyn Chapman is papering at Altona at present.

Russel Peasby has purchased a fine percheron horse.

Ralph Faulkner and family visited his mother on the third line Sunday.

Miss Laura and Isabel Ashenhurst and chauffeur visited at Porte Hope on Saturday.

Mrs. Moses Norton and daughter Maud attended the funeral of Mrs. S. Redman.

### LEMONVILLE

Miss Scythia A. Cook spent Tuesday in Toronto.

Mrs. Canning of Toronto, accompanied by Mr. and Mrs. Harry Beck, spent Sunday with Mike Wallace.

Mrs. George Martin was called to Toronto one day recently owing to the serious illness of her sister.

Walter Brown was engaged buying wood for Elmer Wells on Wednesday. Must expect another winter Elmer!

Gordon Kirby of Toronto, is engaged by J.K. Brown for the coming season. Gordon can't stay away from Lemonville.

I Class—Isobel Fleming, Eleanor Connor, Betty Foot, Eldon Boyd, Vivian Boyd.

Pr.—Jean Sellers, Fern Hoover, Roy Carter.

### S. M. Gee teacher.

### BARGAIN HAIR TRIMS

There is a barbers' war on in Kincardine and one of the tonsorial artists of that town advertises his prices for barber work, (first class at that) as follows: shave 10c; hair cut 15c; marcel 50c; bath 20c; scissors sharp 15c; razor honed 25c. People of that village should now be able to appear well groomed at fairly low cost.

### A STRANGE ANOMALY

They are talking of throwing coffee into the sea down in Brazil; they have so much of it that it is putting the country's finances on the rocks. But so far our favorite brand costs the same to drink. Wheat appears to be so plentiful most everywhere that we in Canada at any rate fear of going to the bow-wows. And yet bread seems the same old price. Being very innocent, we ask: Why is it so? Will some wise guy please tell us.

The Ontario Government issued a statement Tuesday showing \$90,000 more spent on road building in Ontario than was received from highway traffic taxation.

Prentice & Prentice Auctioneers;

## INFORMATION FOR THE BUSY FARMER

(From Dept. of Agriculture)

### Poultry Industry Booms

Speaking at an agricultural conference in London recently, W. R. Reek declared that a few years ago the Ontario poultry industry was in the doldrums but that today Canadians consume more eggs per capita than any other nation in the world—the direct result of a customer getting a guarantee with every purchase, in the way of having the satisfaction that the eggs bought had undergone a careful inspection before being placed on the public market. If this were developed along over agricultural lines the industry would be placed on a more prosperous basis than ever before.

### Value of Co-Operative

At a recent meeting of the Vegetable Growers Association, the vice-president, Joseph Cyr, pointed out an interesting case where an American buyer was in Canada looking for several hundred tons of garden beets for canning in disced form. The order could not be filled in Ontario as there was no organization here through which the beets could be secured at such short notice. The Federated Co-Operative of Quebec, to which he was referred, through its local organizations experienced little difficulty in finding the grading sufficient beets for the order. The incident points out plainly the value of co-operative marketing.

### Food For Brood Sows

Alfalfa or clover hay fed from racks forms an excellent roughage for brood sows. Racks are also good but may not always be available. The meal ration may vary considerably but should not be too strong. Bran, shorts, ground oats and ground barley in equal parts, if fed judiciously at from two to six pounds daily, depending on the size and condition of the sow as well as the period of pregnancy, has been found to give good results. Mineral feeds are usually essential and may be supplied either by sows or a suitable mineral mixture containing charcoal, ashes, bone meal, etc.

### Egg Market Settles Down

The imports of eggs from the United States have now practically ceased for the current season. A few carloads are reported to have come in recently but these had been purchased on a previous order. The egg market has settled down quite early this year to a spring storing basis and prices at a majority of producing points are considerably lower than a year ago. With mild weather prevailing in most producing districts it is not improbable that the movement into storage will get under way in earnest within the next week or so.

### Full Wheat Unpromising

The fall wheat situation seems to be anything but promising this year" judging from reports of agricultural representatives of the various counties in the province. Bruce County reports fall wheat to be in a fair condition with the same to be sown for alfalfa and sweet clover. Frontenac clover and alfalfa have been subjected to late frosts which may result in some killing. In Haldimand the fall wheat situation is acute and this report is duplicated by Kent where it is said that some of the acreage will have to be replanted. In Lincoln the hard frosts at night have been playing havoc with this crop. Middlesex and Peterborough Counties have been fortunate and the crop seems to be in fair condition. The recent fall of snow will improve conditions appreciably.

### Lime and Acidity

Success in grain growing and gardening often hinges upon the amount of lime in the soil, it has been found. Alfalfa, however, cauliflower and beets, to mention a few of the crops, require enough lime to reduce the acidity. It is a matter for the chemist and the experimental farms to determine where lime is lacking and what quantity needed to be applied. It is well-known, however, that there is a relationship between potato scab and lime. This is explained by saying that while an acid soil eliminates scab it may, if too acid, reduce the yield. Experiments have shown that the range of acidity which will prevent scab and yet not reduce the yield, is very short; so that actually the farmer needs very careful lime service to determine his exact need of lime. Most vegetable crops as a matter of fact, do better under slightly acid conditions.

### Boys Clean Seed

The agricultural representative for the County of Durham reports that considerable interest in clean seed is in evidence in his locality. As an example he states that in six weeks over 20,000 lbs. of clover seed and 1000 bushels of grain have been cleaned by the Seed Cleaning Plant at the Boys' training school, Bowmanville.

### Live Stock Winters Well

Brant County farmers report that

## Safeguard

### LIVES-CROP-STOCK AND PROPERTY

Hundreds of valuable farm buildings are destroyed every year by lightning and sparks from nearby fires landing on the roof. But there is one way you can secure lifetime protection from these hazards. Simply roof every building with RIB-ROLL. They will then be immune to fires caused by flaming brands and burning embers. When properly grounded and equipped with Preston Ventilators—according to the Lightning Rod Act—they defy lightning. You will have a roof that gives greater strength and economy.

#### Rib-Roll Roofing

is the sheet with seven ribs—a nail every five inches. Made to "Council Standard" specifications... comes in big sheets... easy and inexpensive to lay on new or over old roofs. Secure for a lifetime. Ideal for homes, barns, sheds, garages, summer cottages.

#### Use Led-Hed Nails

By using Preston LED-HED nails you eliminate the tedious dirty job of "threading" lead washers. Every nail hole is perfectly sealed, making it waterproof, rust-proof and weather-proof.

#### Preston Ventilation

No Preston ventilated barn has ever been reported burned because of spontaneous combustion. Preston Barn Ventilators for roof, adjustable, side windows and spacious doors protect from spontaneous ignition by keeping the air in constant circulation. Write for particulars.

#### Preston Barn Door Hardware

Preston hot galvanized four-wheel Hangers and bird-proof Barn Door Track are so easily erected that hundreds of builders will use no other style. Best in Canada for heavy barn doors. The Hanger is adjustable up and down, inside and out. Inquire about our attractive special terms on Winter Shipments.
