NOTES AND COMMENTS

It is a fact that at tax collection time we kick like steers because of the heavy tax, and the rest of the year we spend kicking for the very things that create the high taxes.

In this issue the member for North York Col. T.H. Lennox, publishes his views on the soldiers pension bill before the Dominion Government.

We hope this year's activities of the local Horticultural society will include the planting of ornamental and shade trees.

Premier G. Howard Ferguson has introduced a bill in the Legislature which if placed on the statutes will affect all the rural Public School Inspectors and will mean an annual saving of about \$120,000 to the rural municipalities in the province.

As the county of York pays one third of the \$3,600 salary of four inspectors and Ontario county two inspectors as well as an allowance of \$500 for printing, postage, etc., for each inspector, these counties stand to be relieved of a big annual outlay by the passing of the bill.

THE MARKHAM TOWNSHIP COUNCIL

Road Foremen Ask Five Cent Increase

W. G. Maxwell, road superintendent on behalf of the road foremen of Markham Township asked the council at the regular session on Monday afternoon to make a raise of five cents an hour in the foremen's wages.

Deputy Reeve Padget asked if an increase was wanted for the whole year or just a certain period. It was suggested that it might be satisfactory to make it for the busy summer months.

There was a lengthy discussion on the advisability of buying some new road machinery. Supt. Maxwell wanted at least two new graders.

The appointment of a weed inspector was the subject of a lengthy discussion on the importance of the duties of this official. J. Cowland was appointed for the east half of the township and Robert Stiver was named for the west half.

Considerable time was spent by the council in taking over the tax collectors' rolls which resulted in about \$4,800 of uncollected taxes being returned to the County.

The auditors' report for the year 1929 was next dealt with and appeared to give general satisfaction to members of the council.

Road Foremen for 1930 are as follows:—Robt. Agar, Gormley R.R.; R. J. Cunningham, Gormley R.R.; Alex. Duncan, Unionville R.R.; David Shelock, Milliken R.R.; Geo. H. PENSIONS AND RETURNED SOLDIERS PROBLEMS

Member for North York Gives Pointed and Constructive Views on Government Legislation

Col. T. H. Lennox M. P. for North York delivered an address in the House of Commons on March 29, 1930, on "Allowance to War Veterans," which will clearly set out the position of the member for North York on this live issue.

Mr. Lennox: Mr. Speaker, I do not intend to detain the house for any great length of time with the remarks I desire to make on this bill.

During the war Sir Arthur Currie, as we all know, performed excellent service for the people of not only this country but for all countries who were on the side of the allies. He devoted himself as a very great military man and received praise and commendation from all the people of Canada.

A very short time after that letter was written—I think within a week—the Prime Minister dealt with this question at a public meeting called on his behalf in the city of London. I cannot help but express my doubt as to whether any action would have been taken by the Prime Minister if Sir Arthur Currie had not written this letter.

Canadian soldiers were engaged in action during the whole period of the war, during which there were about 215,000 casualties. During the year and a half the United States were engaged in the war their casualties amounted to 213,000, and of that number no less than 187,000 receive pensions.

The number of veterans who were killed or have since died, leaving 150,000, of which only 61,000 are pensioned. It is remarkable that notwithstanding the fact that the United States were engaged in the war for only one-third of the time as compared with Canada, they are paying pensions to three times the number of veterans.

Mr. Adshard: Does the hon. member mean to infer that the 1928 did not give, as far as they could, full justice to the war veteran?

Mr. Lennox: I do not think they did, in fact if they had given full justice then we would not have had this present bill before us and we would not have had the legion and other associations connected with and looking after the interests of the war veteran raising such a row with respect to the manner in which they have been treated.

During the course of the war there were over 400,000 Canadians who actually crossed over from England into France, Belgium and other theatres of war, and of that number only 61,000 are receiving pensions, although 150,000 were disabled, some of whom very seriously during the course of the war.

In addition to the pensions board we have an appeal board, appointed to consider the claims which are refused by the pension board. According to the report of the Department of Pensions and
