GORMLEY

Mr. Bain of Holt is now located on the Meyer's farm here.

We are pleased to report that Alvin Farmer is recovering from his almost fatal illness.

Little Thelma Brillinger is working in a case of measles during Easter holidays. Too bad Thelma! Blanche Dewsberry of Richmond Hill is visiting her grandmother here, also Mrs. Asa Sider.

Mr. and Mrs. Benj. Lehman and Mr. and Mrs. Eldon Lehman of Toronto spent Good Friday with Mr. and Mrs. Jos. Steckley.

We expect to see wonderful crops here this summer as two carloads of fertilizer was unloaded here this week, all sold to Gormley farmers.

Cast off clothing will be put to good use if left at the home of Councillor Lorne Evans where the W.M.S. will pack a bale on behalf of the Mt. Pisgah society.

Grace and Dora Leigh of Aurora were Easter visitors at the home of E. Jones. Other visitors at this farm was Mr. and Mrs. Harry Jones and family and Isaac Baker and wife

Rev. Jonathan Lyons, accompanied by his wife, have been visiting among old friends and many relatives here. On Sunday Mr. Lyons preached in our church both morning and evening to large congregations, and all were glad to hear him as he proclaimed the word from the pulpit. Mr. and Mrs. Lyons had the pleasure of attending a re-union of the family at the home of Thos. Lyons at Victoria Square. These old friends are located at Elsie, Michigan.

The vicinity was thrilled when it learned that Isadore Wideman and Fred Smith were instrumental in locating the robbers who stole cloth from Stouffville. That's a bad mud hole on the townline but who will say it has not served a good purpose? Probably 500 motor cars visited the spot over the Easter holiday season but no car could navigate the road at this point until Saturday when it was possible to pass over the ditch on one side. Mr. Wideman's picture is in this issue of The Tribune.

Stouffville Continuation School WINTER TERM REPORT

* Standing for passing is 50 on each paper

Parents will please note that pupils cannot get along in the High School without doing a certain amount of Homework every night and keeping this up throughout the year. Those who are up in their work are invariably workers, both at school and at home. The majority of those who have failed or are at the bottom of the lists are not working but putting in time. The teachers during the remaining short time after Easter are seeing that Homework and study is done every night if any results are to be attained. The Government Educational Regulations call for an average amount of Homework to be done every night as follows:

Form I—at least 1 1/2 hours Form II—at least 2 hours Form III—at least 2 hours plus

This amount is given by the staff. Is your boy or girl doing it? The standing in the first two years is based on the year's average marks; that of the third and fourth years is based on the Government Examinations in June plus the teachers' Recommendation Report which is based on the whole year's work.

The final Examinations in June count the most for every pupil. C. E. Powell, B. A., Principal; Miss P. Stiles, Assistant; Miss R. Fuller, Assistant.

CHILDREN ALMOST HATE CROSS, NERVOUS MOTHER "My children almost hated me, I was so cross. Thanks to Vinol, my nervousness is all gone and we are happy again."—Mrs. T. Johnston.

For 30 years doctors have prescribed Vinol because it contains important mineral elements of iron, calcium and cod liver peptone. The very FIRST bottle brings sound sleep and a BIG appetite. Nervous worn-out people are surprised how QUICK Vinol gives new life and pep! Tastes delicious. J. M. Storey, Druggist.

DEMAND INCREASING FOR ONTARIO TURNIPS

Ontario County Growers. Hear Addresses on Grading and Marketing

The large number of farmers in attendance at the annual meeting of the Ontario County turnip growers held in the township hall, Sunderland, indicates the wide general interest in the possibilities of turnips as a profitable crop.

The chief speakers were: Wm. Robinson; Montreal, and Mr. Armour, Oshawa, dominion fruit and vegetable inspectors; J.S.P. Thompson and Ralph Burkholder of the United Farmers Co-operative Company, Toronto.

J. H. Purvis, local shipper, gave a resume of the progress the industry has made in the country during the past three years and stated that in 1926-27 the turnover was \$7,000, while the 1929-30 turnover amounted to over \$35,000. He also showed that grading was much better and the farmers were realizing a satisfied customer meant increased demand with a premium for quality.

Mr. Robinson, stressing the need for co-operation, pointed out that the farmers in the district are in an ideal position in that soil and climatic conditions combined to produce a turnip unsurpassed in texture and flavor anywhere in the province, and also stated that as table turnips cannot be produced in the United States, the increased demand from Ontario for a No. 1 graded article was evidence of the possibilities lying at our door. He urged the farmers now that compulsory grading was on the statute books to co-operate with the department in producing a No. 1 article.

Mr. Thompson, in an hour's address, went into details of marketing and stated that United States firms are already seeking a steady supply of The United Farmers' Tip Top Brand of turnips, and also pointed out that farmers need have no concern for a market if a No. 1 graded article is produced. The necessity of continuity of supply was so strongly emphasized that 100 acres amounting on a yearly average to 40,000 bushels were contracted for by 20 farmers.

Prospects are that before April 1 sufficient additional contracts will be undertaken to ensure this district one of the best shipping points in Central Ontario.
