NEW PAVEMENT TO COST \$109,000

Stouffville's Share is \$59,000—Toronto and York Road Commission Pay Balance

The municipal council has requested the Toronto and York Road Commission to call for tenders for the construction of a new roadway through this village from 9th to the 10th concessions, the same to be a paved road with concrete foundation, constructed with storm sewers, gutters, catch basins, manholes and curbing. The total cost is estimated at \$109,000, and of this amount the corporation will pay \$59,000, and the Toronto and York Commission the remaining \$50,000.

Seventy-five per cent of the town's share will be a charge against all the property owners in the corporation while the other 25% will be assessed as a frontage tax against the properties along Main street. In the west end this amounts to \$1.75 per foot, and in the east end the amount is \$1.13 per foot if paid immediately when the work is completed. Otherwise payments may be spread over 20 years, and at such high figures it is doubtful if but very few ratepayers could afford to put up the entire cost in one payment. If spread over the twenty years the annual charge in the west end will be less than 1c. per foot, and in the east end less than 9c. per foot, basing the figures on the engineer's findings.

The Toronto and York Commission are now calling for tenders when actual cost will be obtainable, and then the council should have a chance to consider the facts at closer range. Two classes of roads will be tendered on, one with a tarva or black top, and the other with a cement top, which is less expensive than the black top road. The tarva or black top road is one of the finest types found anywhere, and with such elaborate drainage will not likely give any trouble for a long time in the way of heaving up every spring. If the road is ever completed it will give Stouffville one of the best Main streets to be found anywhere.

It is estimated that the tax rate will be increased six mills to meet this new expenditure. Two weeks ago a public meeting almost unanimously requested the council to proceed with this new road, in the face of what looked like a three or four mill increase in taxes, which has since advanced to six, although the frontage rate is not estimated to be any higher than was quoted at the public meeting, in fact it is slightly decreased.

NOW HE KNOWS

Mr. John Spence, one of our estimable Whitechurch farmers was assessed \$10 and costs amounting of \$11.25 by Magistrate Keith last week for allowing his son Lloyd to drive the family Ford in Scarborough without a driver's permit. Mr. Spence was in the seat with his son at the wheel when they were held up by a policeman. The brakes were tested and the emergency found to be in bad order. John anticipated trouble on this score, but when the cop asked, "why haven't you a learner's license for me boy," John disclaimed any knowledge of such a permit. Before magistrate Keith he paid the fine on behalf of the boy, but was allowed to go on the brake score, because the trouble was immediately remedied. In addition to marriage licenses, gun licenses, hunters licenses, truck licenses, our suburban resident and a lot of other people have learned from this case that there is a beginners or learners license too!

EQUALIZING THE COUNTY ASSESSMENT

The equalization Committee of the York County Council were holding sessions last week and this. An effort is being made to equalize the county in fairness to all, and the committee have secured a certain number of property sales from the registry office in an effort to ascertain how the assessments in each municipality compare with the sale price of properties. From this standpoint Scarborough is one of the lowest assessed municipalities as the figures show the township to be assessed at only 21% of actual sale prices. Whitechurch township is assessed at 53% of what properties are selling at, while Stouffville village shows at 46, Markham village 44 and Markham Township 43. Sutton is assessed on 50% basis, while most other places are below the 50 mark. Reeve Herman Kidd of Whitechurch and Reeve Sanders of Stouffville are both members of this committee, and have been in attendance at the meetings.

COUPLE REACTED MARRIAGE VOWS

Bride was Sister of Late Elias Reesor of Stouffville

On May 21st, 1870, Lydia Reesor of Aurora, was married to William F. Burton of Pickering. Rev. J. B. Moore performed the ceremony. On Wednesday the couple celebrated the 60th anniversary of their wedding, the principal feature of the celebration being the re-tieing of the nuptial knot. Mrs. Reesor was a sister to the late Elias Reesor of Stouffville.

Both Mr. and Mrs. Burton have been prominent in the United Church of Canada and Wednesday's "wedding" was under the auspices of the Ladies' Aid, to which Mrs. Burton has for many years, given her services.

AN OFFICIAL TESTER

Swift's Garage has purchased a brake testing machine, and local people may now know how their brakes are without getting "pinched" or going through the ordeal of a free test in Toronto which requires from two to three hours in the line-up of waiting your turn. This machine purchased by Mr. Swift is the same as those used by the police. A test can be obtained at 5, 10 or 20 miles per hour, in fact it does not matter about the speed, because the instrument and table show the feet a car should stop in at any speed. We understand that where adjustments are required no charge is made for the test, but where no adjustment is necessary only a moderate charge of 25c will be made. The public should take advantage of this convenience rather than taking a chance on the law.

WATER SURVEY BEING TAKEN

Under direction from the municipal council, a water survey is now being made of the local system. The work is in charge of Mr. Lud Hoover on the north side of Main Street, and Norman M. McLean on the south side of this street.

It will be their duty to call on every householder and business place to ascertain the service given. It is believed that some extensions have been made that were not reported, and thus the water user in his case is not paying his fair share. For the most part the survey will not alter, the amount of any customer's bill, but their may be the odd one.

There is a question on the survey which says "do you use a hose on lawn or garden?" This will prove a "sticker" for many. It is said that only two-thirds of the water users who use a lawn hose are paying for it. The charge is only 50 cents, but no matter how small the cost it is not fair for one to be assessed for it, while another goes free. It doesn't matter whether you have a lawn tap or whether you attach the hose from inside the house, the charge is the same.

Under the water works by-law no extensions are allowed to be made by plumbers until a permit is secured from the Clerk's office, and the survey will be a check-up on any irregularities from this stand point.

Village of Stouffville

TAKE NOTICE THAT

(1) The Council of the Corporation of the Village of Stouffville intends to construct as a local improvement a pavement with the necessary storm sewers and curbs and gutters from road allowance between Concessions Eight and Nine, Township of Whitechurch, to road allowance between concessions Nine and Ten, Twp. of Whitechurch and intends to specially assess a part of the cost, upon the land abutting directly on the work.

(2) The estimated cost of the work, the amounts to be paid by the Corporation and the estimated cost per foot frontage are as follows:

	Total Cost	Amount to be paid by Corporation	Cost per Ft. Frontage
(a) Road allowance between Cons. 8 and 9 to west limit of Public Library property	32,500	24,900	1.75
(b) West limit of Public Library property to Road allowance between Cons. 9 and 10	26,800	20,700	1.13

The special assessment is to be paid in twenty annual instalments.

(3) A petition to the said council will not avail to prevent its construction, but a petition against the work or the manner in which it has been undertaken may be made pursuant to section 5 of the Local Improvement Act, to the Railway and Municipal Board, by a majority of the owners representing at least one-half of the value of the lots which are to be specially assessed therefor.

(4) A by-law for undertaking the work will be considered by the council at a meeting thereof to be held on the 20th day of June 1930, or at a regular or special meeting thereof to be held thereafter.

May 20, 1930.
J. S. Dougherty, Clerk

ROAD ACCOUNTS BIG ITEM OF BUSINESS

Before Whitechurch Council On Saturday

The Court of Revision on the assessment roll for the Township of Whitechurch for the year 1930 will be held on Friday, June 6th at 2 p.m. the council meeting in the forenoon for general business. The above date was set for the court on resolution of councillors Ratcliff and Evans, at the regular May meeting held on Saturday at Vandorf.

Reeve Herman Kidd presided, all members being present including Deputy Reeve Wes. Williams and Councilors Rao, Evans and Ratcliff. A motion was passed employing John and Charles Preston to operate their tractors equipped with extensions at \$2.15 per hour, and Leslie Preston as operator at 50c per hour, the latter's time to be the same as the tractors actually work.

Only two accounts were presented for payment under the general list being \$6 to Edw. Leary for valuing sheep, and \$4.43 to the municipal ward for supplies.

While council was not greatly burdened with ratepayers' interviewing them, the number of road bills paid was heavy, totalling \$1219.06. They are as follows:—
