Miss Addie Pipher of Toronto was home over the holiday.
Mrs. J. M. Grove spent a few days recently at Uxbridge.

INFORMATION FOR THE BUSY FARMER
(From Dept. of Agriculture)
An Enormous Loss
Reports received from practically all corn-growing districts convey expectation of increased planting. Essex and Kent will both have more corn and more than average attention is being given the crop in Elgin, Norfolk and Bruce.

Banking Service and Prosperity

PROSPERITY on the farm is largely dependent on factors beyond the realm of the farmers' control. There must be a good market demand for farm products and the production costs must be kept in proper relation with market returns. Our Branch Manager is thoroughly familiar with the business of farming and is ready to assist in carrying your farm program to a successful conclusion.

THE CANADIAN BANK OF COMMERCE
with which is amalgamated
THE STANDARD BANK OF CANADA

SALE REGISTER
FRIDAY, JUNE 6—Sale of 40 cattle by auction at the Stock yards, Stouffville: cows fresh and springing, also 32 steers and heifers. 5 months credit. Sale at 1.30 J. A. Hawlin, prop., F. W. Silversides Auctioneer.

BALLANTRAE
Owing to the anniversary services at Lemonville, the church service and Sunday School will be withdrawn next Sunday.
We are sorry to hear of Daisy Jakeman's misfortune in breaking her arm last Friday. We hope for a speedy recovery.
We welcome back to the village again our old friend Mrs. Elliott. We hope her stay with us will be pleasant throughout the summer. There's no place like home to Mrs. Elliott.

WEED SITUATION SERIOUS
In a recent conference of weed inspectors, A. R. G. Smith of New Hamburg, District Weed Inspector of Western Ontario, declares: "We are slow to comprehend the serious situation that confronts us. It is necessary that we have the hearty co-operation of the press and public opinion to assist in reducing the possibility of a greater spread of weeds, especially those designated "Noxious" and under the ban of the Ontario Weed Control Act. Weeds are going to beat us if we do not awaken to the seriousness of the situation. For instance the perennial sow thistle is now in every county of Ontario." All inspectors are asked to have a thorough inspection made at once. They are also urged to make their position definable as weed advisors in place of "inspectors" in the ordinary sense of the word.

IN MEMORIAM
In loving memory of a dear husband and father Ira Badgero who passed away on May 25 1930
The rolling stream of life goes on
But still the vacant chair
Recalls the smile the voice the love
Of one who once sat there
Sleep on dear father your cares are ended
Rest in peace your work is done
You are gone where those who loved you
Will some day meet you one by one
Wife and family

Taun—In loving memory of Maggie Myrtle Empringham, who passed away four years ago today May 30, 1926.
God is good: He gives us strength to bear our heavy cross,
He is the only one who knows how bitter is our loss;
We miss you at a thousand turns along life's weary way,
For life is not the same to us since you were called away.
You left behind some aching hearts that loved you most sincere
That never have and never can forget you Myrtle dear.
Ever remembered. Mother brothers and sisters.

CHURCH HILL
The annual meeting of Jubilee branch of the Women's Institute was held at the home of Mrs. G. Walker on May 20th. Owing to the very busy season the attendance was not large but what shortage existed was made up by the enthusiasm of the members present. The following officers were elected for the ensuing year.
President—Mrs. W. Lazenby
Vice-Pres.—Mrs. J. L. Ogden
Sec-Treas.—Irene Storry
Assistant Secy.—Mrs. E. McNelly
Directors—Mrs. Thompson, Mrs. Pegg, Mrs. Martin,
Pianist—Miss E. Beech.

Heavy Winter-Killing
Of the 670,000 acres of winter wheat sown in Ontario last fall, only 509,000 acres will be harvested, according to an official estimate. The difference of 161,000 acres represents the amount winter-killed. The percentage is 24, as compared with 5 per cent. in 1929 and 9 per cent. the average for the ten years 1920-1929. Ontario also lost 16 per cent. of its hay and clover crop by winter-killing, as compared with 5 per cent. last year.

Turkeys Found Profitable
Turkey breeding is not the difficult undertaking that is generally supposed when the breeding stock and poults are properly handled. Essentials to success in turkey breeding are: clean soil, mature stock for breeding, free range, and above all, the keeping of the turkey flock away from other barnyard fowls.

Trap the Borer
The suggestions have been advanced that a trap crop of corn consisting of about half a dozen rows of early sown rapid growing corn, if put in as early as the ground is fit, will in most years lessen the amount of injury done the main crop by corn borers, if the main crop is sown a few days later than the ideal date. The trap crop should be cut low about the end of the first week in August, when all borer eggs have been laid and should be removed and fed to live stock.

Chicken Stealing Unprofitable
This business of robbing hen roosts is becoming more and more precarious. The Provincial Government through the Provincial Police are making every effort to apprehend those who steal chickens, and to punish them with a penalty that the crime deserves. Honorable John S. Martin, Minister of Agriculture recently reported that General Williams has instructed his men to make a strong effort to check this branch of crime and the results speak for themselves. Imprisonment has been meted out to 92; fines to 24; suspended sentence, 12; dismissed, 10; withdrawn, 3. The penalty in one case for theft of chickens was two years in Kingston Penitentiary.

The Wind will work for you—FREE

You spend almost an hour each day pumping water for house, stables, etc. Why not enjoy the convenience of running water wherever you want it—when it is so simple, and inexpensive with a "Toronto" Self-Oiling Windmill?

Equipped with Timken Bearings, the "Toronto" Windmill runs in the lightest winds. All gears operate in oil. Self-oiling, self-regulating—the "Toronto" requires oil only ONCE a year. The tower is the strongest built. A "Toronto" Windmill Outfit is the best investment for your farm you can make.

I will gladly send you free, illustrated literature.

Masterpieces

LOVELY paintings, delicately chiselled statues and violins that produce rare music are popularly known as masterpieces. But masterpieces are not always confined to museums and palaces of art. They appear too, in professional endeavour and industry. Whatever leads in its field—a vault of ingenious construction, an architectural achievement of impressive grandeur, a fine-spun fabric of striking design—may properly be called a masterpiece.

When you roof or re-roof with Brantford Asphalt Slates you will understand why they are the choice for thousands of Canada's most distinguished buildings. You will enjoy a sense of security such as you have never known before. Your home will be safeguarded from the severest extremes of wind, rain, sun and storm. And you will have a roof that is fire-safe, colourfully picturesque and unneedful of repairs for a long period of years.

Investigate these "masterpieces of the roofing industry". Go to the Brantford dealer and see the handsome, hardy Brantford Asphalt Slates. They do not run, peel, crack or curl—a bulwark of artistic beauty and protection for your home. Also write for free booklet "Beauty with Fire Protection"—a comprehensive treatise on the proper type, finish, design and colour for your roof.

Brantford Asphalt Slates are the masterpieces of the roofing industry—the triumph of men who have devoted their lives to the production of a finer roof.
