

## Always OVER THE TOP With Your Work

POWER and traction enough to pull a plow or any other machine over any hill you can work with a team—or through soil that is hard and dry. Light footed enough to work over the low spots if you get too much rain. Strength and stamina enough to last for years under hard usage. All-round ability enough to get you "over the top" with your work, no matter what the obstacles may be.

That's the ideal combination of virtues you would like in your tractor, isn't it? Then why be satisfied with less? "Caterpillar" gives you exactly that—made possible only by the engineering feat of carrying a set of long wide tracks, laying them down, rolling over them, and picking them up again behind.

"Caterpillar" gives you more than that—gives you an acre, or a hundred acres, of plowing or cultivating at the lowest cost for fuel and repairs. For the same reason—it always travels on a hard, smooth track—no sinking or slipping—a full 80% of developed power delivered at the draw-bar.

We carry "Caterpillars" in five sizes—and a full line of parts. Come in and see them—or write for full information. We can't tell half the story here.

## Here and There

(538)

A spectacular high line trail ride about 7,000 feet above sea level from Banff to Lake Louise has just been inspected and found feasible by J. Murray Gibbon and Jim Brewster. It is 27 miles west of Banff over timber line to a ride looking down on the little known glacier-fed Taylor Lake and following the 7,000-foot contour to the Consolation Lake trail leading to Moraine Lake. It commands magnificent views of the glacial country north of the Canadian Pacific Railway west as far as the Bow Lakes and south to Mt. Assiniboine. It is 60 miles long and will probably be used for the annual official camping trip of the Trail Riders of the Canadian Rockies next year.

"I do not believe that the talking films will ever take the place of the legitimate stage. . . . People still appear to be building ordinary theatres," said Lady Diana Manners, famous English society beauty and equally famous as the heroine of "The Miracle" during its New York and Boston productions, who arrived at the Windsor street station, Montreal, recently, on her first visit to Canada.

The Quebec Festival of French-Canadian Folk Lore and Handicrafts at which habitant artists born and bred on the soil of Quebec province, and well-known artists from far and wide rival one another in recovering the spirit of Old France, and old New France and the age-old culture of the Gaelic race, will be held this year October 16-18, according to an announcement made by the Canadian Pacific Railway, organizers of the Festival.

Travelling in two Canadian Pacific special trains, about 250 of the most eminent figures in the British medical world left Montreal for Winnipeg to attend the first convention of the British Medical Association held in Winnipeg. They were preceded by a group of 60 members of the British Tuberculosis Association, who attended a convention of tuberculosis specialists at Ninette, Man. before going to Winnipeg.

"In view of the fact that this is the last year in which Canada has a seat on the Council of the League of Nations, I could not resist the request made to me by the Prime Minister to represent the Dominion at Geneva," said Sir Robert Laird Borden, former Prime Minister of Canada, as he sailed for Europe recently.

## SALE SEASON OPENS

Milch Cows Touch \$150 at Frank Timbers Sale.

Auctioneer Silversides struck his old stride again this year on the auctioneer block when he opened the fall season in Markham Township on Saturday by selling a cattle sale for Frank Timbers of the 9th concession. The 28 head of milch cows sold at an average price of \$108.50.

It has been frequently predicted that \$150 cows would be something of the past, and no such prices would be hung up this season, but the top notcher of the sale went down to Alex Duncan of the 5th of Markham at exactly this price. Clark Johnson of the 6th line paid \$135 for the second high priced animal. R.J. Carr bought two at \$120, while a Mr. Third of Scarboro also took away two at this price. A Jersey heifer sold to Fred Stockley at \$86, thus recording the low sale of the afternoon.

If the Timbers sale is any indication of the times to come, milch cows will not be sold at any bargain prices this fall.

## HISTORICAL FACTS ABOUT GOODWOOD CEMETERY

The Goodwood cemetery grounds, which was enlarged just recently from a plot of one acre to that of one and a half acre, (the new section of which was dedicated last Monday) has an interesting history. It dates back for nearly a century.

The first deed was granted by one William Long who came from Pickering, and who occupied the farm on which the first land of the cemetery came off. It is known as the Boston farm from which the C. N. R. have in recent years been removing a great amount of gravel to Toronto. The local deed was issued about the year 1835. Long who granted the land later moved to Michigan where he died. Two of his family of ten or twelve children were however interred in the grounds which their father gave. They are Mrs. Edward Davis, mother of our Mr. Davis, and also a brother Jos. whose body was brought here from Ballantrae. At this early date the third concession was settled fairly well by well remembered families (many of whose descendants are still with us) as the Wags, Stovers, Dillons, Ann Purdy, Hills Nibbs, Deggers, Woolman's, Story's Meyers, Stewarts, Shavers, McGuchins, Todds, Lapeers, Staffords Watsons, Collins, while we might go on and mention the Dowsell family and many others from the surrounding locality of the third line.

In recent years the cemetery got into disrepair, but since Mr. Isaac Wagg moved to Goodwood ten years ago he has interested himself greatly in the betterment of this city of the dead, until today it is a resting place worthy of those interred therein.

Simultaneous with the granting of the deed a church was built, and the old wooden structure stood there for long years until it was mysteriously burned thereby ending a squabble as to who owned or had the right to the disbanded old structure.

The Evangelical body held meetings in the church for years but after they gave up the work the building was never used again for regular services. At the time the church was most active the settlement was heavily timbered, and said Mr. Wagg to The Tribune, "I have heard my father say that in 1848 the third concession north was only a blazed trail, and he helped cut down the trees that cleared the roadway." Thomas Wagg, father of our Isaac Wagg of Goodwood, was among the most active pioneers of the district. The settlement north and west of Goodwood was known as the Wagg settlement.

Isaac Wagg, as we said before, did much to bring about better conditions at the cemetery after he retired to Goodwood. He is now honorary president of the Cemetery Board which was organized two years ago, and has accomplished much in its short history. A fine fence surrounds the property, the grounds are nicely levelled and the grass kept cut. Now with the addition of the fine memorial gates the gift of the McCullough estate, the whole place is something that pays a fitting tribute to the dear ones so tenderly placed there. The gates are a fine tribute to the late James McCullough, a native citizen.

The present Board of Directors of the cemetery are Thos. Dowsell (pres.) D. McDonald (Sec.-Treas.) and J. E. Wagg, W. T. Robinson, E. Davis. The Toronto committee so instrumental in building up the present system for the upkeep of our cemetery are Clarence Naylor, Walter Davey, A. Brown and George Lee.

## AUCTION SALE

THURSDAY, SEPT. 25th—At Lot 6, Con. 9, Whitechurch, fresh cows, sheep, swine and horses, belonging to Vincent Wagg. Sale at 1 o'clock F. W. Silversides, auctioneer.

## BIRTHS

Wagg—At Mongolia on August 28th, 1930, to Mr. and Mrs. Foster A. Wagg, a son.

Farmer—To Mr. and Mrs. Alvin S. Farmer, Gormley, on August 23, 1930, a son.

## INFORMATION FOR THE BUSY FARMER

(From Dept. of Agriculture)

### Brant County Dairy Show

The annual Brant County Dairy Show will be held in co-operation with the Paris Agricultural Society on September 20th. Classes are provided for four breeds of dairy cattle with a prize list of over \$1,000 offered. In 1929 at this show there were 220 cattle shown from some of the outstanding herds in Western Ontario.

### Valuable Meadow Results

Good ordinary meadow mixtures of clover and timothy can be increased as high as 49 per cent. green weight by proper fertilization. This is the average result of ten carefully conducted tests throughout the province last summer by the Department of Chemistry. In these tests, one-half acre blocks of meadow were measured off during early spring and fertilizer of various mixtures was applied. In most cases the fertilizer was sown with the drill.

The average gain for the entire test was a little over a ton per acre green weight. This showed a nice return on the money invested in fertilizers. The addition made to the meadows in these tests averaged about 300 pounds per acre, or represented an investment of five to six dollars per acre.

### Crop Conditions

Recent reports from agricultural representatives would indicate that the yields of fall wheat and spring grains have been exceptionally good. Weather conditions have been ideal for the storing of grain and for stook threshing which is becoming very popular. Crops such as potatoes, beans sugar beets, corn and tobacco, will have light fields due to lack of rainfall. The yields of all fruits, especially apples and grapes, will be detrimentally affected. Pastures in many sections were severely burned and many dairymen, especially in Western Ontario, have had to resort to feeding their cattle grain and ensilage. This expense in addition to the low price paid for milk at the "cheese factories" has caused the farmers no little concern. The shortage of pasture has also increased the shipments of cattle and lambs, with the result that many cattle will be sold at a loss.

### Doing Valuable Work

The work done at the Ridgetown Experimental Farm in selecting and propagating a variety of beans that is freer from disease and gives a much greater yield than varieties formerly grown, has alone justified the establishment of this farm. This is only one branch of work undertaken there which is of substantial benefit to individual farmers of Southwestern Ontario and to the province as a whole. Valuable work has been done with tobacco, canning factory crops, cereal grains and hogs. Besides this W. R. Reed, the superintendent and his staff have been instrumental in helping along the good work done at the Agricultural Vocational School on Ridgetown.

### A Contrast in Weather

The contrast in weather conditions during the present summer in Southern and Northern Ontario and in Quebec has been of a most astonishing nature and holds more than a touch of irony for farmers generally. In the north and in Quebec the rain came in such copious quantities that crops were injured, seriously in some districts. In Old Ontario, particularly in the southwest, crops sweltered day after day under a merciless sun for a period of nearly two months. Rainfall figures for July afford the most striking illustration of what the countryside has borne. In Southern Ontario the rainfall was .53 inches, whereas the average figure is 3.5 inches of moisture. Quebec, on the other hand, had the greatest rainfall in thirty years: The total for the month was 5.6 inches as compared with a normal of 3.7 inches.

### Use Plenty of Litter

It is good policy to use an abundance of clean, fresh litter in the laying pens and a poor economy to restrict the quantity even when

## FARM FOR SALE BY TENDER

The undersigned administrator of the Estate of Joseph Willis Lewis Alsop, deceased, offers for sale by tender—90 acres comprising part of the West half of lot 5, concession 3, Uxbridge, Township.

On the farm is situated a good barn, a good brick house, pig pen, drive shed and orchard.

Approximately 80 acres are under cultivation. The farm is offered for sale subject to an existing mortgage, particulars of which may be obtained by prospective tenderers from the undersigned firm of solicitors.

The highest or any tender not necessarily accepted. A marked cheque for \$100.00 to accompany each tender. Cheque will be returned to the unsuccessful tenderers.

Possession for plowing can be arranged immediately and full possession by March 1st, 1931.

Last day to receive tenders is September 27, 1930. Chas. Alsop, Administrator Greig & Littlejohn, Solicitors for Administrator.

litter must be purchased. A laying hen is always a happy hen and a hen cannot be happy unless she is busy most of the time. Litter on the floor especially if it is fresh and clean, is an excellent means of keeping the layers busy even though all the grain is being fed in hoppers and more is thrown on the floor. One of the best materials for litter is wheat straw, which is not so stiff as rye straw and does not break as early as oat straw. Litter absorbs considerable moisture from the droppings and from the air of the hen house, and should be changed frequently in wet weather. Moldy straw is almost certain to cause trouble and should never be used in poultry houses.

FOR SALE—Cut Flowers and Ripe Staked Tomatoes at the Brier Bush. A. J. Ward.

FRESH COW FOR SALE, Holstein, also Rubber-tired Buggy. W. S. Widdifield, Ph. 3302.

FOR SALE—Farmers' Friend Riding Plow also good work Horse, low priced. Archie Fleming, Phone 602, Stouffville.

LOST—A large Thoro-bred Collie Dog, sable and white, aged 4 yrs. Finders please notify Albert Taylor, R.R.3, Stouffville, Ph. 7611. Reward.

CUTTING BOX FOR SALE with blower, pipes and 13" mouth, international, medium size, good running order. J. O. Spang, Ph. 5616, or Peter Nighswander.

FRESH COWS AND SPRINGERS for sale. Cash or good paper. E. J. Jarvis lot 19, con. 7 Markham Phone 4318 27

FOR RENT—6 roomed house, electric light and barn, good garden. Apply F. L. Button, Stouffville.

ONE HUNDRED ACRE FARM TO Rent, good buildings, in the Township of Uxbridge, Lot 14, Con. 3, (first farm south of Goodwood). Possession April 1st, 1931. Apply E. Whittleton, Goodwood. 27

FARM TO RENT—One hundred and eighty acre farm to rent for a term of years to suitable tenant, comprising the west halves of Lots 10 and 11 on the 4th concession of the Township of Whitechurch, good stables under barn, good pig pen and driving shed. A good stock or grain farm. Reasonable rent. Apply to owner, Robert M. Armstrong, Box 67, Unionville.

## NOTICE TO CREDITORS

In The Estate of Joseph Willis Lewis Alsop, deceased

All persons having claims against the estate of Joseph Willis Lewis Alsop, late of the Township of Uxbridge, deceased, who died on or about the 19th day of July 1930, are hereby notified to send in to the undersigned, on or before the 20th day of September 1930 full particulars of their claims. Immediately after the said 27th day of September 1930, the assets of the deceased will be distributed among the parties entitled thereto, having regard only to claims of which the undersigned shall then have notice.

Charles Alsop, Administrator Greig & Littlejohn, Uxbridge, Ont., Solicitors for Administrator.

## Why It Pays to Cut Your Own Silage

It is extremely important to cut silage at exactly the right time. If cut too green, or after frost has taken hold of it, it won't make nearly as good feed as if cut when just right.

With your own "Toronto" Ensilage Cutter you are independent of a hired outfit, with its frequent annoying and costly delays. You cut when your yard is ready.

It costs but a fraction to operate a "Toronto" Ensilage Cutter compared to hiring a custom outfit. Again, it enables you to refill after shrinkage—cuts your straw in winter itself. It quickly pays for itself.

TORONTO ENSILAGE CUTTER

A "Toronto" Gasoline Engine economically operates this dependable, efficient machine. Come in for a demonstration of its many features, or write for free literature.
