823 Acres Have Been Planted in Uxbridge Township Forest

Whitby, June 5—Ontario County's reforestation scheme, inaugurated a few years ago with the planting of thousands of trees in Uxbridge Township, is proving wonderfully successful, according to a report presented to the county council by Chairman George Till, of the Reforestation Committee, Thursday afternoon.

The committee's report showed a visit was paid to the embryo forest south of Uxbridge town on May 28th. There are now 823 acres planted with trees, and 75,000 trees will be set out this year. All of the thousands so far planted, have done wonderfully well, the growth in some cases being as high as eight and nine feet in blow sand. Ninety-five per cent. of the original plantings have survived. The total acreage of the forest is 973, leaving only 150 acres to be planted.

Editor Tribune:

Dear Sir—

I was much interested in Mr. D. Stouffer's account of the migration of the Pennsylvania settlers to Markham township. It was the first authentic record of the movement I have ever read. Certainly they were stout-hearted men and women to leave comfortable surroundings in order to literally hew out new homes in the wilderness of Upper Canada.

My father came from England in 1537, and settled on the western part of Markham township. The British settlers in that district, as a rule, were thrifty, industrious, God fearing people.

Surely the foundations of Markham township were well and truly laid.

My son and daughter and I have been here about a year and a half. The weather is more attractive than in Ontario and Manitoba, but around Victoria there are drawbacks, agriculturally. The dry season is now on and there will likely be no rain for a couple of months. This has its effects on crops and pasture, thus seriously affecting the dairying industry.

There is a great amount of bloom both wild and cultivated, and you can hardly look in any direction without seeing flowers of different kinds. Roses are very plentiful and the broom, a wild plant with a showy yellow flower grows in such abundance as to be a nuisance.

The B. C. United Church conference met in Victoria last month, and the Rev. A. E. Mitchell, D. D. pastor of the Shaughnessy Heights, United Church, Vancouver, was elected president for 1931. He was announced to preach in the first United Church on Sunday May 17, and as I hadn't seen him for 55 years I made it a point to go to see and hear him. As might be expected, he preached an able and timely sermon on the subject of the Macedonian Cry "Come over and help us." In spite of his able address my mind had hard work from reverting to 1876 when Mr. Mitchell a half-grown lad, with his brothers and sisters and so many others that I had in my mind attended school at Dickson's Hill. He was very busy. I had only a short chat with him and Mrs. Mitchell, but he promised to pay me a visit, the first time he is in Victoria.

Times are dull here and there is much unemployment, like as in the other provinces, the B. C. government is in financial difficulties. Besides the worry of the unemployment problem there is an insurrectionary movement in the Conservative party against the Tolmie government. At the last session of the legislature, in an attempt to make revenue and expenditure balance for the present year, a tax of one per cent, was levied on all single wage-earners, receiving \$15 a week or upward and on all married ones receiving \$25 a week or upwards. This has caused great resentment, especially in Vancouver, where strong demands are made for a provincial convention to consider the question of conservative leadership. Premier Tolmie has his back to the wall, fighting the insurgents bitterly. What aggravates the situation is that a number of individuals are drawing generous pension, a Mr. Pauline, \$350 a month, Lady McBride, \$2500 a year and Mrs. Mary Ellen Smith \$1500 a year. To many this looks too much of a good thing especially when men, many of them with families, are unable to get work. What this kind of depression will bring forth, it is hard to say, but these economic problems must be solved, I don't think a higher protective tariff is the remedy.

Yours Sincerely
W. B. Martin

"We seek the good of the Country"

"We do not oppose anyone; all we seek is the good of the country. Our policy is to benefit our respective localities by employing our own and the floating capital under our control, in support of the trade and industry of the place."

The founders of The Canadian Bank of Commerce made this statement, knowing that Canada needed a bank which would employ the savings of the people so as to benefit the individual striving to produce more from the land, the forest and the mine—cross-roads settlements looking forward to happier living conditions.

Continuing the policy of its founders, this Bank now serves every branch of Canadian commerce, in all sections of the country. Our services are available for every worthy enterprise.
